

16 Gallon Stainless Steel

Model # HLSS16RFR

FIRE RATED COMBINATION RECYCLE/TRASH **STEP CAN with Removable Inner Liner**

Safety is paramount, and fire poses a significant risk to life and property. This HLS Commercial product has been manufactured with fire-retardant materials to mitigate that risk and has been tested and confirmed by FM Approvals as meeting or exceeding their rigorous standards.

FM Approvals® tested and certified **HLS Commercial 16 Gallon Combination Trash Can and Recycle Bin** provides the compliance, protection, and style you need and want in your facilities. Bin fires are quickly extinguished with the special fire-retardant liner material and a tight lid design that restricts airflow to the interior of the bin, starving a flame of necessary oxygen.

Designed to be as aesthetically pleasing as it is safe and easy to use, the elegant stainless steel bin complements any décor. The smooth and easy pedal requires minimal effort and is coupled with a soft and silent lid close. Emptying the trash and recycling is quick and clean with the color-coded, removable inner buckets.

FEATURES

- ✓ **Silent and gentle lid closure**
- ✓ **Smooth and easy pedal is durable for years of use**
- ✓ **Elegant brushed stainless steel is fingerprint-proof**
- ✓ **Slim and space-saving design for a perfect fit against the wall**
- ✓ **2 Compartments (8 gallon/ea) with removable color-coded inner buckets**
- ✓ **Double replaceable odor filters neutralizes trash and recycling odors**
