

RIDGID®

SeeSnake® microDRAIN™ APX™ with TruSense™ Technology

SeeSnake® microDRAIN™ APX™ with TruSense™ is the ideal pipe inspection camera for small pipes and conduits with tight turns. The advanced, high-flexibility push cable and small-radius camera design allows inspection through small-diameter pipes, p-traps, and small-radius bends that other inspection systems often cannot inspect.

- The APX camera head delivers Auto-Image Flip, digitally rotating the in-pipe image every 180 degrees
- TruSense™ Technology* offers High Dynamic Range (HDR) imaging with the clearest in-pipe image, a TiltSense™ Inclinometer displaying the camera's degree of tilt on the monitor, and Digital Zoom & Pan to focus on points of interest in the on-screen image
- A specialty high-flex push cable and small diameter camera head are ideal for p-trap and toilet traps
- Built-in kickstand offers in-field versatility with multiple configurations for optimal operation

*Must be used with TruSense enabled monitor to receive features: SeeSnake CS65XR, CS12X, CS6x Versa, and the CSx Via.
