

Edge BW Series

CUT END MOPS

PRODUCT DATA SHEET

TYPICAL APPLICATIONS: INDUSTRIAL, INSTITUTIONAL & COMMERCIAL

DESCRIPTION

Produced from 100% post industrial material - the new Edge Mop is made from recycled rayon / synthetic nonwoven edge trim. Compared to cotton, this material exhibits 70% greater absorption and 68% greater liquid release, giving the same cleaning results with less yarn fiber. The Edge mop is more economical than cotton, will not unravel, leaves less lint, and requires no break-in time. The Edge mop is ideal for wax stripping, disinfecting, quick spill pick-up, and general purpose cleaning. Made in the USA

DIRECTIONS FOR USE

Remove mop from polybag and attach to either a jaws or quick change mop handle. Submerge mop into prepared cleaning solution to fully saturate. Wring mop to desired level or saturation and begin mopping using a figure eight motion. When mop becomes too dry or soiled before completing the area then disposing and replacing with clean solution will be necessary.

PRODUCT CARE

Thoroughly rinse. Avoid long term exposure to harsh chemicals and abrasive surfaces. After every use thoroughly rinse and ring out mop. Store mops by hanging in a warm, dry ventilated room.
