

Viega Thermal Insulated Handle

Model: 2971.46

Compatibility Summary:

Compatible Valve Models:

- ProPress Ball Valves: 2971.1ZL, 2971.3ZL, 2971.4ZL, 2971.6ZL, 2975.3ZL, 2800ZL
- MegaPress Ball Valves: 4870, 5970 (MegaPress FKM), 4170 (MegaPress 304 FKM), 5170 (MegaPress 316 FKM)
- PureFlow Ball Valves: 2882.2ZL (Crimp), 2870ZL (Press)

Not Compatible With:

- 3-piece ball valves
- Valves outside the ½" to 2" size range

Installation Steps:

1. Ensure the valve is clean and free of debris.
2. Align the thermal insulated handle with the valve stem.
3. Press the handle onto the stem until it clicks into place.
4. For screw-on models, use a screwdriver to secure the handle.
5. Verify that the handle is firmly attached and operates smoothly.
6. Test the valve operation to ensure proper installation.
