# **HVAC**PRODUCT CATALOG

# **BRAND KNOWN**

Little Giant has always been the frontrunner in condensate removal pump design. With the widest range of centrifugal tank pumps and over 80 years of history in commercial pumps and pump systems, Little Giant is the most powerful name in air conditioning, heating and refrigeration condensate removal and is recognized worldwide for its quality and reliable products. Little Giant is also known as the brand to use for condensate drain switches and evaporative cooler water pumps. Little Giant HVAC/R products live up to the Franklin Electric's Key Factors for Success - Quality, Availability, Service, Innovation, Cost.

#### VCMA-20-PRO SERIES

Save time and money - The VCMA-20-PRO is the easiest condensate pump to install and service plus has the highest reliability in the industry. Product reliability is important because it greatly reduces call backs and continues to save you money after the installation. More contractors choose Little Giant condensate pumps than any other brand for these reasons. From the external test switch to easy-to-mount bracket to the quick, twist-off discharge adapter; the VCMA-PRO does it all. Contractors not only want a quality product with reliability but also a product they can install with confidence. The VCMA-20-PRO, available with many optional features, is a versatile, compact pump designed to efficiently pump away condensate for installed in the basement, attached to the side of air conditioning equipment or installed in the ceiling.

#### VCCA-20-P SERIES FOR PLENUM APPLICATIONS

Conforms to commercial building codes - Whether the condensate producing equipment is installed in a commercial building ceiling or under a raised floor, building codes today require a pump that is designed for Plenum Use. VCCA-20-P is the ideal product for this job as it meets UL 2043 Standard: "Fire Test for Heat and Visible Smoke Release of Discrete Products and Their Accessories Installed in Air Handling Space." With its low tank height (designed to fit beneath low hanging condensate producing equipment drain outlet) and special thermoplastic material construction, the conduit ready, hardwired VCCA-20-P is the right pump for the job.

#### EC-1-DV AND EC-1-DV-K SERIES - MINI-SPLIT

Quiet and easy to install and maintain - Need a mini split condensate that works on any voltage? The Little Giant EC-1-DV Series is the one to choose. The EC-1-DV mini pump for ductless mini split or fan-coil equipment meets the demanding requirements for wall mount equipment that may require 115V, 208V or 230V. One model automatically adjusts to the voltage input and delivers smooth, quiet yet powerful pumping performance. With super reliable, automatic water level sensing design with clear collection tank and all the mounting brackets and hardware required, EC-1-DV is the pump to use. EC-1K-DV includes EC-1-DV pump and line set cover with an easy-to-access pump compartment for "on-the-wall" mounting of the EC-1-DV pump adjacent to the air handler to "hide" the pump and the line set.

# **VCMA-PRO SERIES**

#### **APPLICATIONS**

 Designed for automatic collection and removal of condensate from air conditioning, refrigeration and dehumidification equipment when gravity drainage is not possible or practical. Also suitable for high efficiency oil and gas-fired condensing furnace and condensing boiler equipment.

#### **FEATURES**

- External test/run lever
- Slim footprint
- Vertical centrifugal pump design
- Stainless steel motor shaft
- Automatic start and stop operation
- Galvanized steel "quick install" wall mount bracket
- Some models equipped with external, float activated switch for automatic high-level water detection (overflow detection switch)
- For models with overflow detection switch: dual function NO and NC operation (set to NO from factory for equipment shut down connection)
- Models equipped with overflow detection switch include two 5" switch lead wires
- 3/8" O.D. barbed ¼-turn quick release, locking discharge adapter with built-in check valve
- Rubber feet for vibration/noise dampening
- "Anti-sweat" tank sleeve included on select models and available separately for all others
- 3 1-1/8" diameter inlet openings, two fitted with removable cap plug (3 + 1 inlet openings for models without overflow detection switch)
- Recessed tank sump
- Oil resistant tank and check valve
- Thermally protected, fan cooled motor
- Maximum water temperature: 140 °F
- 6', 3-conductor cable with grounded 3-prong plug
- Some models include 20' x 3/8" I.D. vinyl discharge tubing
- 3-year warranty

# **VCMA-15 SERIES**

#### **APPLICATIONS**

 Designed for automatic collection and removal of condensate from air conditioning, refrigeration and dehumidification equipment when gravity drainage is not possible or practical. Also, suitable for high efficiency oil and gas-fired condensing furnace and condensing boiler equipment.

#### **FEATURES**

- 1/2-gallon collection tank
- Vertical centrifugal pump design
- Stainless steel motor shaft
- Automatic start and stop operation
- Some models equipped with float (solid polymer) activated switch for automatic high-level water detection (overflow detection switch)
- For models with overflow detection switch: dual function NO and NC operation (set to NO from factory for equipment shut down connection)
- Models equipped with overflow detection switch include two 5" switch lead wires
- 3/8" 0.D. barbed discharge adapter with built-in check valve
- Three 1-1/8" diameter inlet openings (two fitted with removable cap plug)
- Thermally protected, fan cooled motor
- Built-in wall mount tabs on tank
- Removable pump float locking tab for safety during transportation (remove at time of installation)
- Maximum water temperature: 140 °F
- 6 ft, 3-conductor cable with grounded 3-prong plug
- Some models include 20' x 3/8" I.D. vinyl discharge tubing

# VCMA-20 SERIES

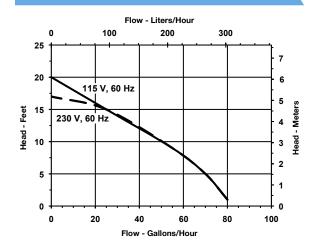

# REPLACEMENT PARTS & KITS

Item	Part Number
Tank	154401
Cover, Motor	154421
Float Arm	154452
Switch Holder	154471
Switch	950337

# ENGINEERING DATA

#### PERFORMANCE DATA

Motor	1/30 hp
Discharge	3/8" OD barbed
Housing/Tank Cover	ABS
Volute	ABS
Tank	ABS
Impeller	Glass filled polypropylene
Check Valve	Acetal

# **VCL-14 SERIES**

#### **APPLICATIONS**

 Designed for automatic collection and removal of condensate from air conditioning, refrigeration and dehumidification equipment when gravity drainage is not possible or practical. Also, suitable for high efficiency oil and gas-fired condensing furnace and condensing boiler equipment.

#### **FEATURES**

- 1 gallon collection tank
- 1/50 hp, fan cooled, concentric motor
- Vertical centrifugal pump design
- Stainless steel motor shaft
- Automatic start and stop operation
- Includes float (solid polymer) activated switch for automatic high-level water detection (overflow detection switch)
- Overflow detection switch: dual function NO and NC operation (set to NO from factory for equipment shut down connection)
- Overflow detection switch includes two 5" switch lead wires
- 3/8" barbed discharge adapter (for use with 3/8" I.D. vinyl tubing)\*
- \*Optional check valve adapter for 3/8" vinyl tubing sold separately (Part Number 599065)
- \*Optional check valve for 3/8" copper tube sold separately (Part Number 599063)
- Two 1-1/8" diameter inlet openings
- Thermally protected
- Maximum water temperature: 120 °F
- 6 ft, 3-conductor cable with grounded 3-prong plug

Impeller	Polypropylene
Discharge	3/8" copper tube

# VCCA-20-P SERIES

#### **APPLICATIONS**

- Designed for automatic collection and removal of condensate from air conditioning, refrigeration, and dehumidification equipment when gravity drainage is not possible or practical. The VCCA Series' low tank height allows these condensate pumps to be used where other condensate pumps will not fit.
- Suitable for plenum applications as it is constructed with materials that have been tested by and meet Underwriter's Laboratories' Standard 2043 "Fire Test for Heat and Visible Smoke Release for Discrete Products and their Accessories Installed in Air Handling Spaces".

#### **FEATURES**

- The pump is labeled "suitable for use in air handling spaces"
- 1/30 hp motor
- Low profile for limited space applications
- 72" 3-conductor lead wires with adjustable conduit fitting for 1/2" diameter flexible metal conduit
- 1/4-turn, twist-off locking check valve discharge adapter for 3/8" ID tubing
- Additional check valve included for 3/8" copper tubing
- Pump switch test lever (for manual test operation)
- Rubber feet on bottom of tank to isolate pump when placed on hard surface
- Three 1-1/8" diameter inlets
- Easy-to-knock-out plugs in two of the inlet openings
- Includes overflow detection switch with 72" leads
- Intermittent liquid temperature up to 140 °F
- Designed for hard-wire installation only
- Thermal overload protection
- Stainless steel motor shaft
- cCSAus

# **VCCA-20ULS SERIES**

#### **APPLICATIONS**

- Designed for automatic collection and removal of condensate from air conditioning, refrigeration, and dehumidification equipment when gravity drainage is not possible or practical. The VCCA Series' low tank height allows these condensate pumps to be used where other condensate pumps will not fit.
- Suitable for high efficiency condensing furnace and boiler equipment applications.

#### **FEATURES**

- 1/30 hp motor
- Low profile for limited space applications
- 1/4-turn, twist-off locking check valve discharge adapter for 3/8" ID tubing
- Additional check valve adapter included for 1/4" ID vinyl tubing
- Pump switch test lever (for manual test operation)
- Rubber feet on bottom of tank to isolate pump when placed on hard surface
- 3 inlet openings suitable for 3/4" PVC pipe
- Easy-to-knock-out plugs in two of the inlet openings
- Includes overflow detection switch with 5" leads
- ABS tank, motor cover, and volute
- Intermittent liquid temperature up to 120 °F
- Stainless steel motor shaft
- Thermal overload protection
- cCSAus

# **HT-VCL-P SERIES**

#### **APPLICATIONS**

Little Giant, the global leader in HVAC Tank Condensate Pumps, has added a new family member to the condensate pump product line. Meet our new High-Temperature Condensate Pump, the HT-VCL Series, designed for plenum applications with the capability to handle the most difficult commercial applications.

- LESS POWER REQUIRED: Less draw on power at no sacrifice to performance versus competitive pumps
- EASY INSTALLATION: Uniquely constructed with an external pump switch test lever to ensure pump is functioning without the requirement of filling the tank
- QUALITY YOU CAN BE CONFIDENT IN: The manufacturer stands behind its
  products and included an extended two-year warranty that is rarely needed
- FULLY SUPPORTED: Comes fully supported by the industry's leading Technical Support professionals

- 1-gallon collection tank
- Maximum water temperature: 212 °F (100 °C)
- Suitable for plenum applications
- Stainless steel motor shaft
- 1.07" diameter inlet (with 0.69" diameter rubber grommet)
- Includes float-activated switch for automatic high-level water detection (overflow detection switch)
- 14' lead wires for power supply and overflow detection connection
- Includes adjustable right angle conduit fitting for use with flexible EMT
- Brass check valve with compression nut and ferrule for 3/8" copper tubing
- Compliant with UL 2043 standard
- Includes bottom inlet when drain outlet height is limited

# PERFORMANCE DATA

# **1-ABS SERIES**

#### **APPLICATIONS**

The 1-ABS offers low on and off levels and is ideal for in-pan placement for condensate removal. An integrated, unique float switch design assures reliability and security while providing easy access to the float for servicing.

#### **FEATURES**

- Permanently lubricated motor bearings require no maintenance during life of pump
- Oil-filled to maximize heat dissipation
- Epoxy-coated cast aluminum pump housing
- Automatic on-off operation
- Easy to remove float housing for servicing
- Includes removable inlet filter screen
- Includes 90° 1/4" MNPT adapter (suitable for 1/2" I.D. vinyl tubing)
- Low on and off level turns on at 1-3/4" and off at 1-1/4" will operate in most standard condensate drain pans
- Includes 9 ft power cord with molded plug (115 V versions)
- Item 550522 includes tank
- Suitable for intermittent water temperature up to 120 °F

#### **EC-1-DV SERIES**

#### **APPLICATIONS**

- The EC-1-DV model is designed to accommodate multiple electrical requirements within one pump. The DV suffix indicates that the pump is capable of operating from a wide range of supply voltage to maintain consistent pump performance.
- The EC-1-DV Series is a new concept for mini pumps incorporating an improved noise reducing design and reliable solid-state switching technology. Easy to install pump bracket and reservoir adhesive provide a quick and precise method to accurately position and secure both parts of the pump quickly. The two-piece design allows the reservoir to be placed within the air handler while the pumpcontroller is located outside the air handler. The two components are connected via a convenient communications wire and suction tubing. (Reservoir Mounting Brackets available; sold separately)
- EC-1-DV is designed for use in removing condensate from wall mount, ductless mini-split air conditioners up to 34,000 Btu. It can also be used to remove condensate from fan coils and suspended ceiling air conditioners. The pump can be installed above the air conditioner in a false ceiling, behind the wall mount air handler, or in plastic conduit or line-set channel. The reservoir, featuring a clear tank, connects to the condensate drain hose and must be positioned flat and horizontal while the pump can be oriented in any position within 3.3 ft.

#### **FEATURES**

#### Pump - Controller

- Normally-closed relay rated at 8 A resistive 250 V alarm
- 21 dB(A)\*
- 1/4" I.D. pump discharge outlet
- Elastomeric mounting grommets on pump housing bracket
- Elastomeric passive vibration isolator used to dampen pump vibration
- Wall bracket for pump included; bracket for reservoir sold separately
- Thermal protection: 176 °F
- 60" power cable
- 3.3' communications cable (pump to reservoir)
- Ambient temperature range: 32 °F 140 °F
- Maximum water temperature: 140 °F
- 2-year warranty

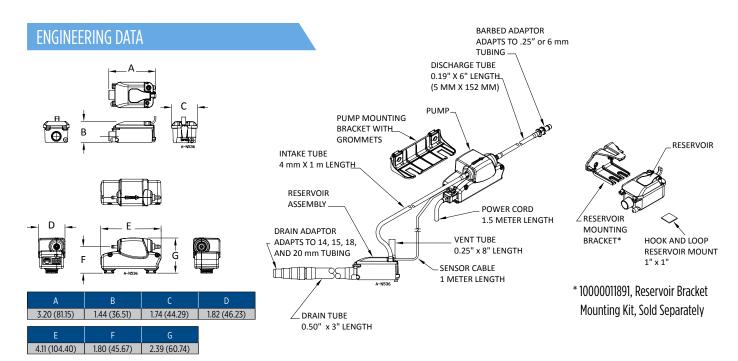

#### Reservoir

- Clear reservoir for instant visual inspection of water level, float, and filter
- Hall effect on/off level sensors with high-water sensor feature
- Extra-large filter screen for longer intervals between cleaning
- Multi-step drain hose adapter (1/2", 5/8", and 3/4")
- Simple to open reservoir for easy maintenance

\*Tested under conditions assumed consistent with competitors' published sound ratings.

# **EC-1K-DV SERIES**

#### **APPLICATIONS**

- The EC-1K-DV model is designed to accommodate multiple electrical requirements within one pump. The DV suffix indicates that the pump is capable of operating from a wide range of supply voltage to maintain consistent pump performance.
- EC-IK-DV Line Set Duct provides space to install the EC-I-DV, line-set pipes, electrical wiring and drain hoses providing a clean, finished look in any décor. The pump is easily accessible for maintenance or cleaning by removing the cover (no tools required). When using the EC-IK-DV Line Set Duct, the EC-I-DV pump is always properly positioned to maximize the quiet operation of the pump and keep the reservoir level for ideal operating performance.

#### **FEATURES**

- Includes EC-1-DV Mini Condensate Pump
- 21 dB(A)\*
- 2.7 gph (10 lph) flow
- 33 ft (10 m) shut off (max. recommended)
- Hall effect switching
- Large inlet filter
- Multi-size hose drain adapter fits all popular drain hose connections
- 2-year warranty

#### Line Set Kit

- Right- or left-side installation options
- 2.1" x 3.0" (5.3 cm x 7.6 cm) Line Set Duct inside dimension
- 19.7" (50 cm) drain hose tubing
- Detachable power cord 84" (213.4 cm)
- 90° "elbow" for locating pump reservoir
- 31.5" (80 cm) straight line set cover
- Room inside Line Set Duct for 3/8" and 5/8" line set pipe
- Twist motion snap-lock clips and cable ties to secure the line set
- Pump enclosure and pump mounting bracket
- Wall fasteners included (to secure Line Set Duct to wall)
- Air conditioner trim and bracket for "finished" look
- Includes ceiling plate when pump enclosure

# **APPLICATIONS**

■ Commercial ice machine universal replacement water pump

#### **FEATURES**

- Dual voltage (115/230 V, 50/60 Hz) 1/25 hp fan cooled motor
- Upper and lower sealed ball bearings
- Thermally protected
- Moisture proof windings
- Corrosion resistant stainless steel motor shaft
- 3 ft 4-wire leads
- Pump easily disassembles for installing and servicing
- Designed to re-use original ice machine OEM pump mounting bracket
- Multiple impellers (included) to match most US-made ice machine 0EM water pump specifications
- Multiple discharge adapters (included) to match most US-made ice machine 0EM water pumps specifications, including 1/2", 5/8", 3/4", 1", plus a "Y" adapter for 5/8" tubing

# **ACS-2 & 3 IN-PAN CONDENSATE OVERFLOW DETECTION SWITCHES**

#### **APPLICATIONS**

■ The ACS-2 & 3 Condensate Overflow Switches install in air conditioner drain pan to shut off the unit if condensate level approaches overflow.

#### **FEATURES**

- Easy to install, inspect and maintain
- Compact design mounts to side of A/C condensate drain pans
- Can be installed to activate audible or visual alarm circuitry
- ABS housing and float
- Complies with applicable building codes
- Switches can be wired to operate as NO or NC
- Operation:

ACS-2 — 48 VAC/DC max, 5 amps max ACS-3 - 125-250 VAC max, 11 amps max, up to 1/3 HP

ACS-2 - 18" and 72" leads

ACS-3 - 72" leads

Item No.	Model	HP	Input Voltage	Amps	Lead length	Weight (lbs)
599122	ACS-2	-	48 V AC/DC	5 max.	18" (45.7 cm)	0.21 (0.10 Kg)
599123	ACS-2	-	48 V AC/DC	5 amx.	72" (182.9 cm)	0.29 (0.13 Kg)
599124	ACS-3	1/3 max.	125-250 VAC	11 max.	72" (182.9 cm)	0.29 (0.13 Kg)

# TYPICAL INSTALLATION

# **ACS-4 SERIES**

#### **APPLICATIONS**

ACS-4 in-line switch is designed to detect condensate drain line clogs or blockages and shut off equipment or alert users to the potential overflow condition. ACS-4 installs on 3/4" PVC condensate drain pipe in either a horizontal or vertical position. Using the included 3/4" PVC drain pan fitting, ACS-4 can also be installed directly at the drain pan secondary outlet to detect pan overflow and shut off equipment or alert users to the potential overflow condition.

#### **FEATURES**

- Installs horizontally or vertically for confined spaces
- Reliable mechanical switch and polymer float
- Allows easy access to drain line for cleaning and inspection (by lifting off switch assembly)
- Can be installed in-line on A/C equipment condensate drain pipe, directly at the drain pan outlet or directly at the auxiliary (secondary) drain pan outlet
- Shuts off equipment when clog or blockage backs up condensate water in drain line
- Can simultaneously be connected to a warning light, audible alarm circuit or BMS/ BAS system in addition to connection for equipment shut down
- Dual switch contacts allow NO and/or NC operation (additional lead wire required if both circuits used)
- Includes two 18 gauge, 6' (72") leads
- Includes schedule 40 PVC 3/4" 90° (tee) housing, 3/4" MNPT x 3/4" male slip adapter (to fit standard 3/4" equipment pan outlets), 3/4" PVC plug and 1" x 3/4" PCV bushing
- Suitable for 24 VAC Class 2 (thermostat) circuit
- 5 amp switching capacity
- Complies with applicable building codes

Item No.	Model	Input Voltage	Amps
599125	ACS-4	24 VAC	5 max.

#### TYPICAL INSTALLATION

# **ACS-5 SERIES**

#### **APPLICATIONS**

 Designed for use as a secondary condensate drain pan overflow detection unit, it will shut off equipment or alert users to potential overflow condition. Easily installs directly to drain pan outlet using included 3/4" PVC drain pan fitting.

#### **FEATURES**

- Installs in confined spaces
- Reliable mechanical switch and solid, polymer float
- Can be installed on A/C equipment overflow or secondary drain pan outlet
- Shuts off equipment when clog or blockage backs up condensate water in drain line
- Can simultaneously be connected to a warning light or audible alarm circuit or BMS/BAS system to send a signal in addition to shut off equipment
- Dual contacts allow NO and/or NC operation (additional lead wire required if both circuits used)
- Includes two 18 gauge, 6' leads
- Includes schedule 40 PVC 3/4" 90° housing and 3/4" MNPT x 3/4" male slip adapter to fit standard 3/4" equipment/pan outlets
- Suitable for 24 VAC Class 2 (thermostat) circuit
- 5 amp switching capacity
- Complies with applicable building codes
