

Macurco™

BUILDING & HOME SOLUTIONS

Whether you are looking for gas detection for a security system, building automation or HVAC system, for personal safety or for monitoring specific gases in potentially hazardous environments, Macurco has a gas detector to meet your needs.

Emergency Power OFF Button

The Macurco E-Stop button is a remote button used to disengage power in the event of an emergency. This shutdown can be used to shutdown gas valves or boiler systems. This device is to be used in conjunction with Macurco solutions to aid in the safety of people and property.

Key Features

- Cover to block button from accidental bumps
- Mounts to standard single gang electrical box
- Two 2 Form C contacts rated at 10A, ½ HP, 125/250 VAC, 6A, 30V. Twistable Reset switch
- UL/cUL Listed ADA Compliant

Applications

- Boiler rooms
- Grow rooms
- Chiller rooms
- Process applications

Emergency Power Off

Emergency Power OFF Button

Specifications

Size	3.22" x 4.86" x 1.62" (8.2 x 12.3 x 4.1 cm)
Weight	<1lb
Voltage/Current	Optional LED Power 12-24 VAC/VDC, 21 mA
Operating Temperature	-9°C to 49°C (15°F to 120°F)
Ambient Humidity	0% - 95% RH non-condensing
Mounting	Mounting holes in each corner and two centrally
Status Indicators	Optional illumination 12-24 VAC/VDC, 21 mA (red, green, white) can be used as a status light, indicating activation.
Enclosure	Polycarbonate complies with FDA regulations for food contact applications.
Warranty	Three-year guarantee against breakage of polycarbonate in normal use (one year on electro-mechanical and electronic components).
