

PLATINUM DC 8.4

8.4 CFM

TAKE YOUR VACUUM EXPERIENCE TO THE NEXT LEVEL WITH THE PLATINUM® DC 8.4

This 1/2 HP DC motor provides a broad operating voltage range, allowing it to operate even in low voltage situations, making it more reliable and efficient than ever. While A2L compatibility ensures you're all set for new and upcoming refrigerants.

The dual-voltage feature allows you to easily switch between 115v and 230v. With an IEC 10 ft. locking cord, light weight at only 24 pounds, gas ballast to remove moisture for deeper vacuum, and an internal check valve that prevents oil back-flow during power failure - the PLATINUM DC 8.4 Vacuum Pump gives you superior performance combined with the American-made quality you've come to trust from JB Industries.

FEATURES

- 1/2 HP DC motor with broad operating voltage range
- A2L compatible
- IEC 10 ft. locking cord
- Lightweight
- Dual-voltage switch 115v/230v
- 15 micron vacuum rating
- Gas ballast and blank-off isolation valve
- Internal check valve prevents oil back-flow during power failure

PLATINUM® DV-240 DC	
CFM	8.4 CFM
MOTOR	1/2 HP, DC
VOLTAGE	115v/230v
INTAKE PORT	1/2" x 1/4" x 3/8"
OIL CAPACITY	21 oz
WEIGHT	24 lb
