CAUTION-RISK OF FIRE

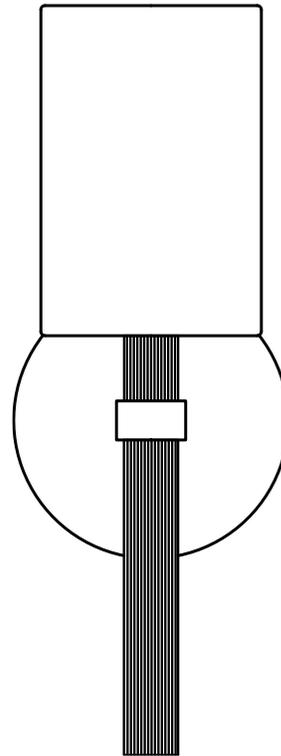

This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.

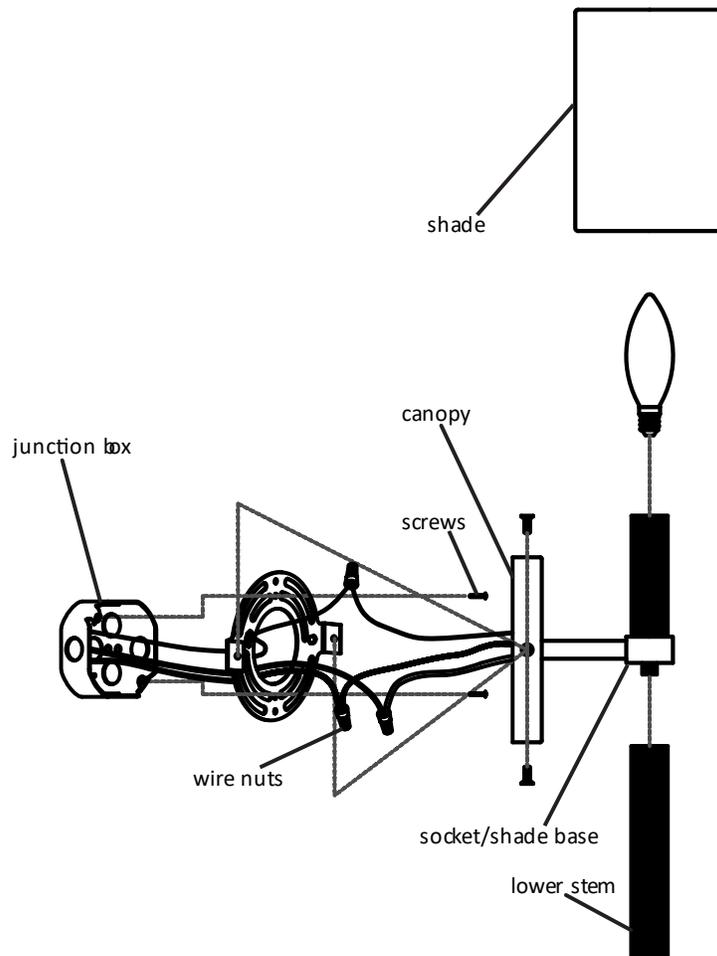

USE MINIMUM 90°C SUPPLY CONDUCTORS.

Turn off electrical current at the source before working with any lighting fixture or portable lamp.

Install and use this product in adherence with local electrical codes and regulations.

INSTRUCTIONS

I. Preparing the Fixture

1. Secure the mounting plate to the junction box.

II. Wiring the Fixture

1. Connect the fixture to a suitable ground in accordance with local electrical codes.
2. Connect the following wires using a wire nut:
 - a) White fixture wire to the neutral power line wire
 - b) Black fixture wire to the hot power line wire

III. Installing the Fixture

1. Neatly place all the wires into the junction box and place the fixture canopy onto the mounting plate.
2. Use the screws to secure the canopy to the mounting plate.
3. Install the shade by sliding it over the socket.
4. Screw the bulb into the socket. Refer to the label on the lamp socket for Max Wattage Information.
5. Install the lower stem.
