Colors/Finishes

- 0: White
- Other: Refer to Price Book for additional colors/finishes

Installation Notes

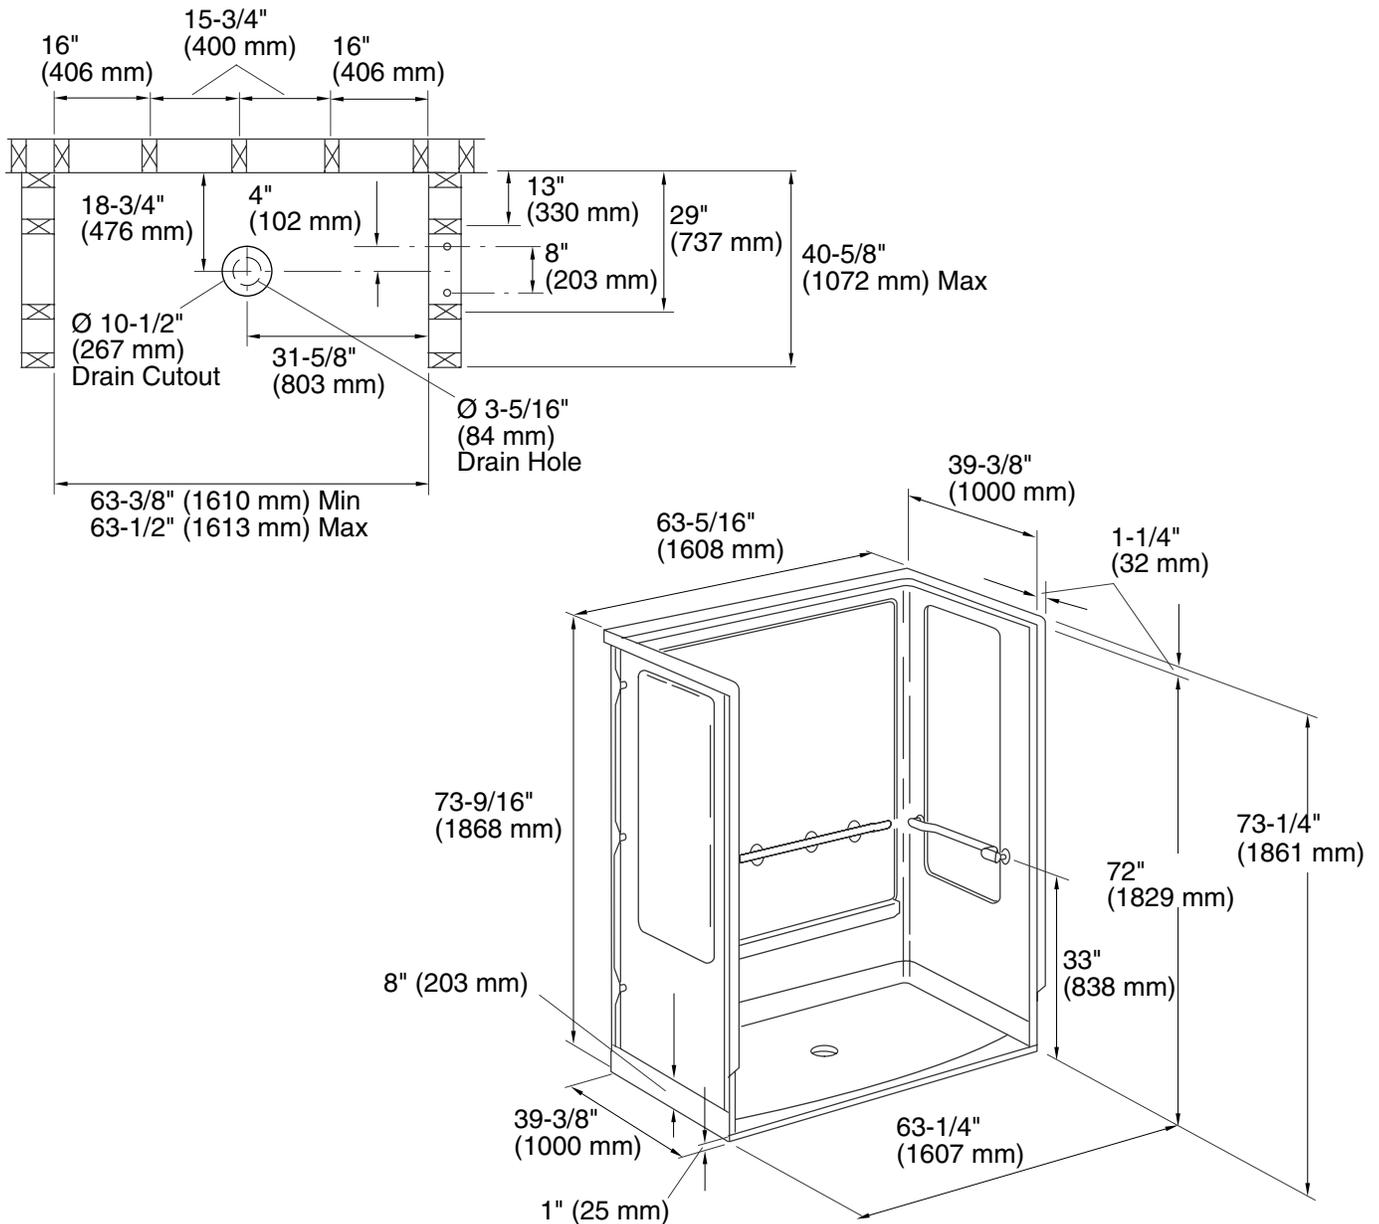

Install this product according to the installation guide.

Drain cutout in subfloor to be 10-1/2" (267 mm) per rough-in illustration below to allow the backside of the drain to sit below the subfloor surface.

Studs should be positioned as shown.

Backer boards and fasteners protrude beyond the back wall 1-1/2" (38 mm). If installing this product against wall board, 1-1/2" (38 mm) furring strips installed over the wall board are

recommended. The stud pocket depth of 40-5/8" (1032 mm) will need to be increased by the combined thickness of the wall board and furring strips.
