Style That Works Better

CARE AND CLEANING INSTRUCTIONS

Bathtub and Stan-Sure

General Cleaning of the Bathtub

This bathtub should be cleaned with hot soapy water using a soft cloth or sponge. Liquid dishwashing detergents such as **Palmolive™** or **Dawn™** work quite well. In areas where the water is hard, a heavy duty liquid laundry detergent such as **Liquid Tide™** will work better.

DO NOT use any type of scouring pad or abrasive cleansers on the sink, for example, **3M™** cleaning pads, **Comet™**, **Brillo™**.

General Cleaning of the Stan-Sure

The *American Standard Stan-Sure* is a mixture of porcelain and a very hard quartz that provides a safe slip resistant surface. The *Stan-Sure* slip resistant surface is designed to provide a built-in safety feature without unsanitary mats and tapes. Because the surface may accumulate soap and body oils, proper care and cleaning maintenance is important.

We recommend the following cleaning and care instructions for the *Stan-Sure* slip resistant surface.

Use powdered **BonAmi™**, **Spic 'N Span™** for best results on stubborn stains on the *Stan-Sure* surface.

- 1). Wet tub surface
- 2). Sprinkle powdered cleaner onto a wet sponge.
- 3). Apply to the stain.
- 4). Rinse with water.

DO NOT use any type of scouring pad or abrasive cleansers on the *Stan-Sure* surface and bathtub, for example, **3M™** cleaning pads, **Comet™**, **Brillo™**.

Cleaning Rust Spots on the Stan-Sure

Rust spots may occur during the installation of the bathtub. This happens when metal debris is left inside the bathtub; it is not a defect in the enamel. Use Iron Out™, ZUD, KRC-7, didi seven or CLR to remove any rustspots on the Stan-Sure surface.

- 1).Wet tub surface
- 2).Apply cleaner to the stain.
- 3).Scour the stain with a wet sponge.
- 4).Rinse with water.

DO NOT use any type of scouring pad or abrasive cleansers on the ***Stan-Sure*** surface and bathtub, for example 3M™ cleaning pads, Comet™, Brillo™.
