

Scale Defender

The North Star Scale Defender Anti-Scale System leverages North Star's 100 years of innovative knowledge in water treatment to reduce scale buildup. Advanced technology converts hardness minerals to a microscopic crystalline form, which helps them avoid sticking to plumbing, appliances, and fixtures. Scale Defender does not remove any minerals, so it doesn't require a drain for discharge, making it eco-conscious, virtually maintenance-free, and a great option for homes with low levels of hard water.

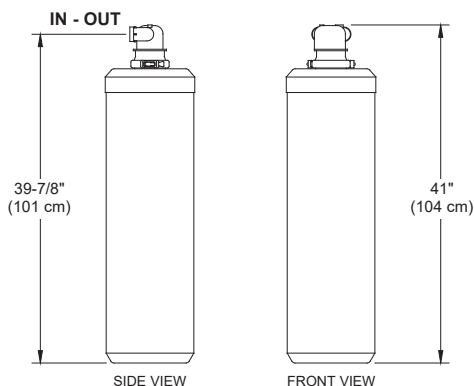

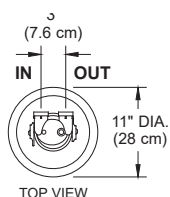

FEATURES

- No salt, electricity, or drain required
- Long-lasting media, no regeneration needed
- Includes bypass valve feature for easy servicing
- Ideal for all household sizes
- Can be used with city or well water sources

Scale Defender

NSTAS35

SPECIFICATIONS

Amount of PTT Anti-Scale Media	4.3 LBS. (1.95 KG)
Amount of HDPE Pellets	3 LBS. (1.36 KG)
Service Flow Rate	10 gpm (37.9 l/min.)
Maximum Flow Rate	15 gpm (56.8 l/min.)
Supply Water Pressure Limits (min. / max.)	20 - 125 psi*
Water Temperature (min. / max.)	40 - 120 °F (5 - 49 °C)

WARRANTY

- 1 year** on all parts
- 3 year** in/out head
- 10 year** on the mineral tank

*Canada working pressure limits: 1.4 - 7.0 kg/cm2.

Point-of-entry systems tested and certified by NSF International for NSF/ANSI/CAN Standard 372, and is not certified for material safety, contaminant reductions, or structural integrity by NSF International.
