# WHEN SAFETY & PRODUCTIVITY COUNTS

SureWerx is a wholesale supplier of premium quality tool, equipment and safety products specifically developed for the professional markets. Based in Vancouver, British Columbia with warehouse operations in New York, Illinois and across Canada, SureWerx provides one of the widest ranges of industry leading products under several exceptional corporate brands including:

**Tools & Equipment (Canada):**

- JET®
- Strongarm®
- ITC®
- STARTECH®

**Tools & Equipment (USA):**

- American Forge & Foundry®

**Safety Products (Canada & USA):**

- Sellstrom
- Pioneer®
- Ranpro®
- PeakWorks®
- KneePro

Our professional “One-Source” product portfolio includes: hand tools, tool storage, shop equipment, lube/fluid transfer, air tools material handling, hydraulic lifting equipment, lighting, abrasives and cutting tools, Hi-Vis safety apparel, FR safety apparel, rain wear, work wear, work boots, PPE and fall protection products.

In 2000, SureWerx made its first acquisition in the U.S., American Forge & Foundry (AFF) based in Albany New York. This became the base of operations for our U.S. tool business, and over the past 16 years, AFF has grown to become a leader in hydraulic lifting products to the professional automotive, tire and heavy duty markets.

This past November SureWerx acquired Sellstrom Manufacturing Co., a 93 year old PPE and welding safety brand based in Schaumburg, Illinois. This acquisition is perfectly aligned with our corporate strategy to expand into the U.S. safety market.

Sellstrom provides SureWerx the opportunity to not only expand their existing PPE and welding safety portfolio, but further provides a platform in which to pull our Canadian safety brands into the U.S.

Our goal is to become a complete “One-Source” supplier of tool and safety products in North America, and to this end we continue to search for complimentary brands to acquire. In June of 2016, we successfully acquired KP Industries, the designer and manufacturer of KneePro, the world’s best knee and elbow protection products based in Michigan. This business has now been fully integrated into our Sellstrom operations in Illinois.

Since November 2015, we have been working diligently to achieve our “One-Source” strategy. We are very excited then to present this catalog that showcases the first of many steps we will be taking towards achieving this goal. In this catalog you will find a broadly expanded Sellstrom PPE portfolio, including a completely revamped safety glass program, several new face shields and goggles, the addition of a complete line of hearing protection as well as the full range of KneePro knee pads and ArmorGard elbow pads.

Also included in this catalog is our full line, highly competitive PeakWorks fall protection portfolio, a wide range of Pioneer Hi-Vis safety apparel products and our premium Ranpro polyurethane safety boots. These line additions are the first of many new product initiatives that will be introduced into the U.S. over the next couple of years.

We are passionate about the safety and productivity of the North American worker. By supplying only the highest quality, solution based and innovative products and brands, we have earned their trust time and again. Our brands offer workers the peace of mind they need to take on any job, large or small.

**About *sellstrom*®**

Founded in 1923 and based in Illinois, Sellstrom Manufacturing Co., is one of the oldest American brands of safety products. Almost 100 years ago, Sellstrom originally focused on developing innovative products for the welding industry. Today Sellstrom offers a comprehensive range of PPE safety products including: face shields; safety glasses; safety goggles; eyewash; hearing protection; head protection; welding helmets; ADF’s; welding curtains; welding blankets. Sellstrom is also America’s leading provider of Germicidal cabinets widely used in the educational and medical industries for eyewear and goggles sanitization.

Sellstrom products are tested to, and meet all of the rigorous standards for quality and safety performance as required by the various standards organizations for each of its products. These standards can include ANSI, OSHA, CSA, CE, ASTM depending on the product involved.

But we don’t stop there. Unlike many competitors, we further ensure the quality and safety of our products by managing our own in-house, fully accredited test lab which carefully tests and monitors all products flowing through to our customers.

Finally, Sellstrom implemented a quality management system to ensure that manufacturing procedures and product quality were constantly advancing. As a testament to our commitment to that process, Sellstrom has earned ISO 9001 certification through ABS Quality Evaluations, an ISO Registrar.

So when you want peace of mind in the workplace – think Sellstrom!

Established in 2008 in Hamilton, Ontario, PeakWorks is a full service fall protection provider with 100% safety focus. Passionate about providing workers-at-height peace of mind, PeakWorks team of engineers not only know and understand industry standards, they help develop them. As active members of both the ANSI and CSA standards committees, they are committed to providing the safest and most advanced fall protection products in the industry.

The PeakWorks product portfolio includes: harnesses; belts; lanyards; retractable horizontal lifelines; SRL's (including the world's most advanced SRL's certified to the new ANSI Leading Edge standard); roofing kits; ropes; grabs; lifelines; anchorage connectors; confined space kits; rescue products. All products that fall under the ANSI and/or CSA 2015 standards have been third party certified to those standards.

The full range of PeakWorks products can be found in this catalog and are now available through our Sellstrom operations in Illinois.

Established in 1887 in Vancouver, British Columbia, Pioneer is one of the oldest surviving brands in Western Canada. For over 125 years, Pioneer has been designing and providing high quality, durable outerwear to professional workers across Canada. Coming from the rain capital of North America, we know how to build protective clothing that stays dry, is comfortable, safe and stands up to the toughest and harshest weather extremes.

The Pioneer portfolio is extremely wide ranging and includes: Hi-Viz safety apparel; traffic safety apparel; flame resistant apparel; arc flash apparel; workwear; rainwear; footwear; welding apparel.

Pioneer products featured in this U.S. catalog include a comprehensive range of popular Hi-Viz and FR rated safety apparel items. These products incorporate our outstanding in-house designed quality features, but have been modified and tested to meet all U.S. safety standard requirements. Over the next couple of years, we will be aggressively expanding the Pioneer line into the U.S.

Established in 1865 in Ontario, Ranpro is a designer and manufacturer of technical rainwear, welding apparel and polyurethane safety boots. For almost 150 years, Ranpro has been a leading brand in the commercial fishing and agricultural industries in Eastern Canada. More recently it has become well known for its technical rainwear products. Today, Ranpro offers the following products: commercial rainwear; chemical resistant rainwear; FR and arc flash rated rainwear; welding apparel; premium polyurethane safety boots.

Initially we are offering our two most popular styles of polyurethane safety boots into the U.S. (found in this catalog). Our Ranpro ultra-high quality polyurethane safety boots are manufactured exclusively for SureWerx in Europe, and incorporate some of the most advanced technological designs and materials, offering outstanding performance, life and comfort. Ranpro boots are used in the toughest

applications such as the oil & gas, mining, commercial fishing, food processing, agricultural and chemical industries.

Like Pioneer we anticipate an aggressive expansion into many other Ranpro branded products over the next couple of years.

Established in 1990, KP Industries is the original designer and manufacturer of the now famous KneePro series of knee pads, sold extensively in the U.S. and around the globe. The KneePro Ultra Flex III knee pad is regarded as one of the best knee pads in the market, incorporating superior design features and functionality that provide outstanding comfort, fit, durability and safety to users in a wide range of applications. The unique, articulating hinge results in a jointed knee pad that stays in place. The exclusive Grip Strip front pad provides added comfort and non-slip characteristics on many surfaces. It is now also available using an advanced, extra thick Gel pack incorporated into an extra thick 3/4" closed cell foam pad. Talk about comfort – our Hybrid Ultra Flex III is the ultimate in knee protection!

KP Industries also offers other knee pads including the ZeroGravity ultra-lightweight product and an industry leading elbow pad under the ArmorPro brand.

In June of this year, SureWerx acquired KP Industries and has fully integrated this great product line into our Sellstrom operations in Illinois. This product is prominently featured in this catalog and is readily available to our customer base across North America by calling Sellstrom.

## DP4 FACE SHIELDS – PREMIUM MULTI-PURPOSE

S32010

### DP4 Multi-Purpose Face Shield System

- Sellstrom's exclusive multi-purpose DP4 face shield system has been an industry leader for more than 15 years
- The DP4 offers an incredible range of face protection solutions

### DP4 Face Shield Only

- As a standard face shield, the DP4's specially designed molded polycarbonate window curves naturally to fit facial contours
- Offers exceptional panoramic views with virtually no distortion
- Window meets high impact standards and is chemical resistant
- Available in three full sized window options: clear anti-fog (S32010), Shade 3 IR (S32030) or Shade 5 IR (S32050)
- Standard DP4 face shields feature a premium ratcheting headgear for maximum operator comfort and convenience.

# FACE SHIELDS – PREMIUM MULTI-PURPOSE

## DP4 Face Shield with Flip Up/Flip Down IR Windows

- The DP4 face shield is also available featuring a unique spring mounted flip-up/flip-down IR window (4.375" x 9.25" x .070")
- It's easy and safe - by keeping the full size DP4 clear window in the down position at all times, the operator can flip the spring mounted IR Shaded window up or down providing uninterrupted face protection during cutting and grinding operations
- Flip Visor available in:
  - Shade 5 IR for: oxy/acetylene cutting, brazing and plasma cutting
  - Shade 6 IR for: oxy/acetylene cutting, brazing and plasma cutting
  - Shade 8 IR for: oxy/acetylene welding and plasma cutting
  - Shade 6B Cobalt Blue for: oxy/acetylene welding of aluminum and cast iron, in metal and glass furnace foundry work
  - Cobalt Blue diffuses the orange glow associated with the sodium in molten metal and glass
- DP4 multi-purpose face shields are available in three mounting options: premium ratcheting headgear suspension, exclusive universal slot adaptors (for mounting on slotted hard hats) or Zip-Klip adaptors (for mounting on non-slotted hard hats)

## DP4 Face Shields Now Available With Optional Chin Guard

- **New!** - all DP4 face shields can now be fitted with optional chin guard (S32200) for added below-the-neck protection during cutting and grinding operations
- DP4 Face shields can be ordered with the chin guard included, or if you already own a DP4 face shield, the chin guard can be ordered separately and easily attached by the operator

## DP4 Safety Standards

- All DP4 models meet or exceed **ANSI Z87.1-2015** standards
- **Models S32010, S32151, S32181, S32012, S32152, S32182, S32210, S32212, S32251, S32281** are CUL certified to CAN/CSA Z94.3 standards
- Model **S32010** has also been CE Certified

## 380 FACE SHIELDS – PREMIUM DUAL CROWN

S38110

### 380 Series Face Shields

- Sellstrom's 380 Series "Dual Crown" face shields have been the industry standard for decades
- **Made in the USA**, these premium face shields are manufactured using superior, extra wide acetate windows
- Acetate windows are inherently chemical and scratch resistant, therefore eliminating the need to apply additional hard coat treatments
- Anti-fog models are treated using an exclusive "Sta-Clear™" chemical solution that is superior to other anti-fog treatments
- These face shields are virtually 100% fog free
- The 380 series "crown and chin" combination offers an exclusive extra-wide side window, as well as oversized crown and chin guards
- You can't buy better protection from splashes, flying particles and debris
- Complete units feature premium 6 ½" x 19 ½" x 0.040" clear, Sta-Clear Anti-Fog, Shade 5 IR and Dark Green tinted acetate windows
- Windows attach using exclusive Sellstrom patterned pin mount design
- Available with exclusive Sellstrom designed Ratchet Headgear suspension (S27051), Universal Slotted Hard Hat Adapter (S61970) or Zip-Klip Hard Hat Adaptors (S61800)

## 312 FACE SHIELDS – PREMIUM ARC FLASH RATED

S31200

**ARCFLASH™**

### 312 Series Arc Flash Rated Face Shields

- Sellstrom Arc Flash rated face shields provide protection from low level arc flash hazards
- Arc Flash is created by an electric arc and can result in an explosive condition releasing electromagnetic energy, fragments and molten metals that can cause serious injury
- Sellstrom Arc Flash face shields feature a unique, molded high-impact and splash resistant polycarbonate window
- Provides optimum clarity with no distortion and panoramic vision
- Specially formulated window incorporates a light green tinted window that allows 55% light transmittance and true color optics
- These true color optics allow the operator to see all colors perfectly. This is critical when working around color coded wiring in electrical applications
- Two window versions: 9.9 Cal/cm<sup>2</sup> and 12 Cal/cm<sup>2</sup> ATPV rating
- Face shield curves naturally to fit facial contours, providing superior protection
- Available with or without hard hat, with a dielectric hard hat adaptor

### 312 Standards

- All product meets **ANSI Z87.1+ High Impact** standards, Tested and certified to **ASTM F-2178** specifications and **NFPA 70E-2009** standards

## STA-CLEAR™ LENS CLEANING PRODUCTS

- Cleans glass and polycarbonate safety glasses and goggle lenses
- Anti-static, anti-fog cleaning solution impregnated in tissues
- Scratch free – contains no silica
- Cleans without streaking or leaving static residue
- **Not for fog-free (anti-fog coated) lenses**

### Sta-Clear™ Pre-Moistened Lens Cleaning Tissue Packets

- Convenient pre-moistened single use packets
- Towelette measures 5" x 8" (12.7 x 20.32 cm)
- Convenient dispenser box contains 110 packets
- Can be wall mounted or placed on flat surface

Prod. No.	Description	Pack. Qty.
S23490	Pre-moistened non-alcohol based towelettes	10/ Box

### Sta-Clear™ Lens Cleaning Tissues

- Tissues come dry and must be water activated
- Tissues measure 4-1/2" x 10-1/2" (11.43 x 27.31 cm)
- Box measures 5-1/4" x 4-1/2" x 4" (13.02 x 12.07 x 11.75 cm)
- Convenient dispenser box contains 1,000 tissues

Prod. No.	Description	Pack. Qty.
S23480	Water activated lens cleaning tissue box	1/Box

### Sta-Clear™ Lens Cleaning Stations

- Stations come with water activated tissues and 16 oz. pump spray bottle
- Tissues come dry and must be water activated
- Tissue measures 4-1/2" x 10-1/2" (11.43 x 27.31 cm)
- Two variations available:
  - Cardboard station: measures 8-5/8" x 6-1/2" x 5-3/8"
  - Metal station: measures 8-3/4" x 6-1/2" x 5-1/4"
  - Metal station can be locked (uses key #23475)
- Opening allows for litter free disposal of used tissues
- Can be wall mounted or placed on flat surface

Prod. No.	Description	Pack. Qty.
S23469	Cardboard station (1000 tissues and spray bottle)	6/Box
S23470	Metal station (1000 tissues and spray bottle)	1/Box

## EQUIPMENT CLEANING PRODUCTS

### Sel-Kleen™ Pre-Moistened Equipment Cleaning Packets

- Anti-static, anti-fog cleaning solution impregnated in tissues
- Scratch free – contains no silica
- Alcohol free pads use active ingredient benzalkonium chloride and will not harm even the most sensitive rubber or PVC material
- Convenient single use packets
- Towelette measures 5" x 8" (12.7 x 20.32 cm)
- Convenient dispenser box contains 110 packets
- Can be wall mounted or placed on flat surface

# EMERGENCY EYEWASH / SHOWER PRODUCTS

- The proper selection of emergency eyewash stations and shower equipment products is critical when operating a safe working environment
- OSHA regulations listed in 29 CFR outline where and when eyewash and shower equipment must be installed
- ANSI Z358.1 (Emergency Eyewash and Shower Equipment) is the standard that outlines the proper design, performance and installation of emergency equipment to comply with the OSHA standard
- Sellstrom offers a wide range of emergency eyewash/shower solutions all of which is designed to meet the ANSI standards

## EYEWASH STATIONS – PORTABLE BOTTLES

### Rapid-Clear Portable Eyewash Bottle Stations

- Personal eyewash bottle stations are extremely portable and handy
- Quickly flushes contaminants from eyes using a sterile, buffered and preserved saline solution
- The ideal first response solution when continuous water supply is not available
- Single or dual bottle stations available
- Date coded for easy inspection
- Tamper-evident seal with an easy-to-open twist off cap
- Highly visible green plastic backboard can be wall mounted or placed on flat surface
- **FDA Approved**

Prod. No.	Bottle Size	Type	Description	Case/Qty.
S90331	16 oz.	Single	Rapid-Clear eyewash bottle station	4/case

## EYEWASH STATIONS – PORTABLE EMERGENCY

### Gravit-Eye 6 Gallon Portable (Personal) Gravity Feed Eyewash Station

- 6 gallon gravity-flow personal portable eyewash station
- Ideal as a portable, first response eyewash solution
- Water stream is activated by removing the water retaining strap
- Water is fed through dual spray heads for maximum effectiveness
- 3' drain hose directs waste water into floor drain or storage tank
- Furnished with epoxy coated steel wall mounting bracket
- Can also be placed on flat surfaces such as counter tops
- Comes with 8 oz. bottle of bacteriostatic additive (S90322) which protects against growth of bacteria, fungus, algae and acanthamoeba
- Weight: 9.5 lbs. empty
- Complies with **ANSI Z358.1** for portable personal eyewash stations

## EYEWASH STATIONS – PORTABLE EMERGENCY

### Gravit-Eye 16 Gallon Portable Gravity Feed Eyewash Station

- 16 gallon self-contained gravity-flow portable eyewash station
- Water is fed through dual spray heads for maximum effectiveness
- Delivers over 14 gallons (53 litres) of water over a 15 minute period
- High-Viz green body is easily located in case of emergency
- Heavy wall construction with reinforced ribs ensures strength and durability
- Water flow is activated by pulling up (on) or down (off) on bright yellow tray
- Integrated full flow nozzle delivers gentle spray of water
- Waste water is directed through drain opening in tank basin
- 3' drain hose directs waste water into floor drain or storage tank
- Furnished with steel wall mounting bracket
- Can also be placed on flat surfaces such as counter tops
- Comes with 8 oz. bottle of bacteriostatic additive (S90322) which protects against growth of bacteria, fungus, algae and acanthamoeba
- Weight: 13 lbs. empty, 146 lbs. full
- Unit comes completely assembled
- Complies with ANSI Z358.1 for portable eyewash stations

 16 GALLON PORTABLE EYEWASH STATION

# EYEWASH STATIONS – PORTABLE EMERGENCY

## 15 Gallon Portable Pressurized Eyewash/Drench Hose Unit

- 15 gallon pressurized tank portable eyewash station
- Stainless steel tank comes with carrying handles, air intake fitting, pressure gauge and pressure relief valve
- Provides approximately 10 (34 liters) gallons of useable capacity
- Two gentle spray heads with flip top dust cover, internal flow control and filter
- Pressure regulator restricts flow to 0.65 GPM (approx. 15 minutes of flow)
- ½" IPS chrome plated brass stay-open ball valve with flag handle
- Drench hose contains a single gentle spray head with flip top dust cover, chrome plated brass squeeze valve, 6' reinforced PVC hose and stainless steel lever handle
- Weight: 35.6 lbs. empty, 119 lbs. full
- Unit comes completely assembled
- Complies with ANSI Z358.1 for portable eyewash stations

Prod. No.	Description
S90315	15 gallon portable pressurized eyewash/drench hose unit

S90315

## Eyewash Bacteriostatic Additive – 8 oz.

- 8 oz. bottle of bacteriostatic additive
- For use in all makes of portable eyewash stations
- Protects against growth of bacteria, fungus, algae and acanthamoeba

Prod. No.	Description	Case/Qty.
S90322	8 oz. bottle of bacteriostatic formula	4/Case

S90322

Dual spray heads

Delivers 14 gallons of water over 15 minute period.

S90100

## EYEWASH STATIONS – FAUCET MOUNT

### Faucet Mounted Eyewash Units

- Converts any faucet into an emergency eyewash station
- Does not interfere with normal faucet operation
- Two outlet heads are mounted 3" or 5" apart and deliver a soft, aerated and unlimited supply of water
- Heads angle forward and are adjustable to permit full coverage while avoiding splashes
- Furnished with float-off dust covers to protect outlet heads
- Body features standard 55/64"-27 female threads
- Also contains 3 adaptors for installation on most common faucets: 15/16"-27, 13/16"-27, 3/8" IPS
- Completely assembled and water tested prior to shipment

Prod. No.	Description	Spray Head
S90100	Faucet mount eyewash unit	2 adjustable - 3" apart
S90101	Faucet mount eyewash unit	2 adjustable - 5" apart

S90600-2

S90602-1

### Hand Held Drench Hose Eyewash Units

- Dual purpose unit:
  - Uses deck flange for fixed hands free eyewash
  - Removed for use as a deck hose
- Features two spray heads mounted side-by-side
- Each spray head has a "flip-top" dust cover and internal flow control
- Filter removes impurities from the water flow
- Features 8', 300 PSI reinforced PVC hose
- Meets **ANSI Z358.1** Standard

Prod. No.	Description	Weight
S90600	Hand held drench hose unit	4 lbs.
S90600-2	Hand held drench hose unit with wall hook	3 lbs.
S90602-1	Hand held drench hose unit with deck mount	5 lbs.

## EYEWASH STATIONS – DECK OR WALL MOUNTED

### Deck Mounted Eyewash Unit

- Deck eyewash units are for mounting on counter next to sink
- Two spray heads swivel 90 degrees from storage to operational position
- Unit mounts on right side of sink – right hand swivel
- Water flow is activated by flag handle
- Furnished with locknut and washer for secure counter mounting
- Meets **ANSI Z358.1** Standards

Prod. No.	Description	Spray Head
S90430	Deck mount eyewash unit	2 swivel type

S90430

### Wall Mounted Eyewash Units

- Wall mounting unit includes heavy duty aluminum wall bracket with corrosion resistant powder coated finish
- Each spray head has a “flip-top” dust cover and internal flow control
- Filter removes impurities from the water flow
- Spray heads swivel 90 degrees
- Right hand swivel
- Bowls available in two materials:
  - 11-1/2” circular blue ABS plastic
  - 11-1/2” circular stainless steel
- Completely assembled and water tested prior to shipment
- Meets **ANSI Z358.1** Standards

Prod. No.	Description	Bowl	Spray Head
S90440	Wall mount eyewash unit	Stainless steel	2 swivel type
S90445	Wall mount eyewash unit	Blue ABS plastic	2 swivel type

S90440

## FACE/EYEWASH STATIONS – PEDESTAL MOUNTED

### Pedestal Mounted Face/Eyewash Unit

- Free standing, pedestal mounted face/eyewash stations
- Model S90450 features two spray heads mounted side-by-side
- Each spray head has a “flip-top” dust cover and internal flow control
- Filter removes impurities from the water flow
- Spray heads swivel 90 degrees
- Right hand swivel
- ½” IPS chrome plated brass stay-open ball valve and Teflon seals
- Bowls available in two materials:
  - 11-1/2” circular blue ABS plastic
  - 11-1/2” circular stainless steel
- Completely assembled and water tested prior to shipment
- Meets **ANSI Z358.1** Standards

Prod. No.	Description	Bowl	Head

**HEARING PROTECTION**

**SOME SOUND  
ADVICE**

S23410

S23412

S23413

S23410

S23414

## HEARING PROTECTION

### What you should know about hearing protection!

- Exposure to continuous high noise levels causes irreversible hearing loss
- Developing an effective workplace hearing safety program is critical
- OSHA sets the permissible 8 hour work day noise exposure level at 90 dBA and only 2 hours of exposure to 100 dBA
- Many companies place noise level limits even lower than the OSHA standard
- Here are guidelines that some companies apply for increased safety:
  - 8 hours exposure = 85 dBA
  - 4 hours exposure = 88 dBA
  - 2 hours exposure = 91 dBA
  - 1 hour exposure = 94 dBA

### About NRR ratings and their practical application in the field

- The NRR ratings found on many hearing protection products in the market, including Sellstrom, have been tested and certified in controlled laboratories
- However, working environments are seldom controlled environments
- In the field hearing protection is not always fitted properly leading to noise creep and the potential for hearing damage
- As a precaution NIOSH recommends the following deratings during field use:
  - Ear Muffs – NIOSH recommends derating NRR ratings by 25%
  - Ear Plugs – NIOSH recommends derating NRR ratings by 50-75%
- In some applications, to achieve maximum protection the use of ear plugs and muffs together may be the safest solution. It is estimated that by combining the two, an extra 5 dB's can be added to the overall tested NRR rating

## EAR PLUGS – PREMIUM DISPOSABLE

### Disposable Ear Plugs – Bullet Shape

- Contoured bullet shape premium quality polyurethane ear plugs
- Gently but quickly expand to fit ear canal – one size fits all!
- Soft, non-irritating PU foam for maximum comfort
- Available corded and uncorded
- Plugs are individually packed in pairs and sold:
  - Uncorded = 200 pair in convenient dispenser box
  - Uncorded = 500 pair in bulk bag (replacement plugs for dispenser)
  - Uncorded = 500 pair in convenient see-through wall dispenser
  - Uncorded = 10 pair in retail slide blister package
  - Corded = 100 pair in convenient dispenser box
- Independently tested/certified to **NRR 32 (ANSI S3.19)**
- **CSA Class AL**

# EAR PLUGS – PREMIUM BANDED

## Banded Ear Plugs

**NEW!**

- Banded ear plugs are designed to wear around the neck when not in use
- Ensures workers always have quality hearing protection when required
- Ideal for regular and intermittent applications - easily installed or removed
- Compliance enforcement is made easy due to the Hi-Viz green band
- Specially designed band shape is curved at the plug end – keeps the ear pods up and away from dirty and contaminated surfaces when not in use
- Comfortable blue ear plugs/pods are easily replaced when dirty (S23431)
- Used extensively on construction work sites, at airports and race tracks, in factory and shop applications and wherever reusable ear protection is required
- Independently tested/certified to **NRR 25 (ANSI S3.19)**
- **CSA Class AL**

# HARD HATS

S69540

## Regular Brim Slotted Hard Hats – Type 1, Class E

- **Made in the USA** – Sellstrom hard hats are a cap style version with partial brim
- Rain gutter channels water and debris away from neck and face
- Hard hats/suspensions have been tested and certified in both the forward and backward positions
- Wearing a hard hat in the backwards position is useful when the brim interferes with the line-of-sight, the use of equipment or when workers “want the look”
- Hard hats certified for both forward and backwards use are identified by a double reverse arrow symbol after the ANSI Z89.1 mark
- Available in two impact absorbing 6 point suspensions systems: the more popular ratcheting style or the more economical Pin Lock style
- 6 point suspensions offer maximum comfort and impact absorbing qualities
- Available in 6 popular colors
- Slotted
- Meets **ANSI Z89.1 standards for Class G (2,200 volts), E (20,000 volts), Type 1 (top of the head impact)**
- **CE Approved**

### KneePro Ultra Flex III Knee Pads

- Sellstrom's **KneePro Ultra Flex III** knee pads have been the industry standard for more than 30 years
- Simply the best knee pads made!
- The articulating hinged design ensures proper placement all day long – set them once and forget you are even wearing them
- Soft elastic, extra-wide woven straps with reinforced sewn ends are placed well above and below the knee – no Velcro, which contaminates over time
- Straps stay aligned with your legs in any position – will not bind behind the knee
- Built with strong, flexible hard plastic outer shells that extend well above, below and to the inside/outside of the knee for added knee and leg protection
- Metal rivet hinge ensures long lasting protection while kneeling or walking
- On the outside, pads feature a perfectly placed curved non-marking Grip Strip
- Grip-Strip designed for use in all applications without gumming up
- Grip Strips are easily replaceable
- On the inside, pads offer a long lasting 5/8" closed cell foam pad for maximum comfort and protection (KneePro Ultra Flex III version)
- Sweat does not penetrate closed cell foam – lasts longer and won't "stink"
- **Our new KneePro Hybrid Ultra Flex III** version offers even greater user comfort and protection through the use of a three layer, 3/4" thick closed cell foam pad with built-in GEL packs – the ultimate in knee protection!
- Virtually indestructible – built for years of hard work and heavy use
- Specially designed Quick-Snap clips ensure quick and easy removal
- Comes in convenient, reusable mesh bag with one extra Quick-Snap clip
- Pads weigh only 9 oz. each
- Straps, Grip Strips & speedklips are replaceable
- Excellent for welders, ship builders, roofers, construction workers, flooring installers and anywhere hard working knee pads are required

## KneePro "Hybrid" Ultra Flex III Knee Pads

**NEW!**

- The new **KneePro Hybrid Ultra Flex III** offers all of the same legendary features as the KneePro Ultra Flex III pad but has the added advantage of a built in GEL pack for added comfort and fit
- This is the ultimate knee pad for extreme applications where users are on their knees for extraordinarily long periods of time
- Unlike many GEL pads on the market, our GEL packs are securely placed inside a three layer, 3/4" closed cell foam knee protector compartment and are guaranteed to stay leak-free
- Available with black shells and Hi-Viz orange Grip Strip

### KneePro Ultra Flex III Knee Pad Replacement Parts

Prod. No.	Description	Set
S96110-7	KneePro III replacement Grip Strips – Orange (PR)	1 Pair (2 pcs.)
S96110-6	Knee Pad Pro III replacement straps and clips (kit)	4 of each

## KNEE PADS – SPECIALTY

### KneePro Roofers Knee Pads

- The **KneePro** Roofers vented foam rubber knee pads are specially designed for the tough roofers industry
- Manufactured using a special grade of ultra-dense rubber, offering extreme durability
- Non-marring rubber leaves no transfer on surfaces
- Inner pads are serrated, creating channels that allow air to flow through the pad
- These channels dissipate heat, creating a cooler working environment at the knee
- Ideal for roofers working in high heat applications
- Straps are located to allow the calf muscle curvature to help hold the pads in place without pinching the knee joint
- The upper end of the pads is hooked upward and inward to help hold the pads in place on the knee
- Weight – 1.25 Lbs. per pad, 2.5 Lbs. per pair
- Ideal for roofers, welders and anyone kneeling onto heated surfaces

Prod. No.	Mod. No.	Shell Color	Type	Pkg. Qty.
S96350	KPVFR	Black	Roofers	6/12

## KNEE PADS – ADVANTAGE SERIES

### KneePro ZeroGravity Lightweight Knee Pads

- The **KneePro ZeroGravity** knee pad is one of the lightest yet toughest knee pads on the market today – weigh only 2 oz. each
- So light, you won't even know you have them on!
- The outer shell is made using a durable, heat formed non-marking material for maximum life
- The inner closed cell foam protective pad is a full ½" thick for superior comfort
- Pad is molded to contour of knee, which helps it to stay in place during use
- Revolutionary new fastening system pops in and out like a button for easy and convenient on/off action
- To adjust the strap, simply pull the strap end to a comfortable size
- Extra wide soft woven elastic cloth straps for improved comfort and fit
- Economically priced but built for hours of long lasting protection and comfort
- Ideal for roofing, plumbing, flooring, tiling, gardening, carpentry, electrical work, maintenance and home repair

Prod. No.	Mod. No.	Shell Color	Pkg. Qty.
S96310	KPZG03	Gray	20/100 pair
S96311	KPZG03-G	OD Green	20/100 pair

**ArmorPro Tactical Elbow Pad**

- The **ArmorPro** Tactical Elbow Pad is the ultimate in elbow and arm protection
- The 11" long abrasion resistant foam & rubber body protects most of your arm
- Secures to your body with comfortable extra-wide top and bottom cinch straps
- Pull tabs help with adjustment even when wearing gloves
- Pad stays in position until "you" decide to change or remove
- Body is extremely flexible, becoming an extension of your arm
- Elbow protecting cap slides up and down for personal adjustment, comfort & fit:
  - shift cap to upper position for arm protection during belly crawl or;
  - lower position for sniper stand off – your choice, your comfort
  - Tough grip cap holds your elbow in place on any surface
- Lightweight and cool – only weighs 7 ounces (each pad)
- Available in 4 colors: Black, OD Green, Tan and foliage/coyote brown

Prod. No.	Mod. No.	Shell Color	Pkg. Qty.
S96410	KPAP07-B	Black	6/12/24 pair
S96411	KPAP07-G	OD Green	6/12/24 pair
S96412	KPAP07-T	Tan	6/12/24 pair
S96413	KPAP07-F	Foliage	6/12/24 pair

A welder in a dark protective suit is working on a large metal structure. Bright sparks are flying from the welding point, creating a dramatic, high-contrast scene. The background is a deep blue, suggesting an industrial or construction setting.

## WELDING HELMETS – GALAXY SERIES

S41340-612

- Our newest premium welding helmets
- Uniquely shaped fixed front helmet design provides oversized head, neck and side protection
- Made using lightweight Super Tuff nylon materials, this helmet offers outstanding protection, performance, comfort and reliability
- Designed for use with cartridge respirator
- Uses standard 90 x 110mm formatted ADF filters
- Easy auto-darkening filter and cover plate removal and installation
- Multi-adjustable ratcheting headgear with sweat-band for added comfort (S27413)
- Welding helmet supplied with Impulse MagSense ADF technology
- The most advanced ADF technology available (see ADF products section for complete details)
- First filter with optical and magnetic sensors!
- Patented Magnetic Sensor technology ensures no flickering or premature switching from dark to light or where arc is temporarily hidden or obscured
- Variable shade 9-13
- Models ending in 611: viewing area 1.6" x 3.8" (internal control)
- Models ending in 612: Extra-large viewing area: 2-1/4" x 4" (external shade control) - 40% larger viewing area than traditional filters
- Impulse MagSense ADF's offer 3 year warranty – an industry best!
- Meets **ANSI Z87.1** standards

# WELDING HELMETS – TITAN SERIES

- Sellstrom's award winning Titan Series fixed front welding helmet offers the user a balanced, lightweight and ergonomic welding helmet
- **Made in the USA** using special nylon materials – lighter, tougher and more durable than fiberglass
- Nylon material incorporates a proprietary heat and spatter resistant coating
- Extended crown provides greater overhead protection
- Specially designed rigid neck bib provides superior protection from spatter
- Lower portion of helmet (chin and neck area) narrows to allow for maximum side-to-side head movement
- 5-1/4" x 4-1/2" fixed front bezel ensures quick and easy loading of filter, cover and protective plates
- Complete with Sellstrom's patented "quick-release" ratchet headgear suspension with sweatband included (S27001)
- Can also be mounted on slotted hard hats using Sellstrom's dielectric universal slot adaptor (S61970)
- Sold without filter or with a variety of ADF options (your choice)
- Meets **ANSI Z87.1** standards

# WELDING HELMETS – SMARTWELD PRO SERIES

S23005

- Sellstrom’s SmartWeld Pro fixed front welding helmet offers outstanding features and benefits at a surprisingly low cost
- Our most popular premium welding helmet
- Sleek, modern design and look
- The latest technologically advanced auto-darkening welding helmet
- Solar powered exclusive SmartWeld Pro ADF Swiss Engineered
- Reaction time is an incredible 0.0003 seconds, an industry leader
- Auto-delay function
- Phenomenal optics – Optical class 1-1-1-1
- Comes with variable shade 8-12 extended view ADF
- Internal settings to adjust shade number and also for the optical light sensitivity which can be adjusted to a higher or lower level
- Helmet, ADF and cover plate is suitable for electro-welding applications including Shielded Metal Arc, MIG and TIG welding as well as Plasma cutting
- Meets **ANSI Z87.1** standards
- **Also CE approved to DIN 1121**

## WELDING HELMETS – SPECIALTY

### Leather Hooded Welding Helmet

- Leather Hooded Welding Helmet
- Special leather welding hood is ideal for confined space applications and wherever risk of welding sparks are present not only in the face area but around the rest of the head, neck and shoulders
- Extra-long bib for under-chin protection from spark and spatter
- Extremely durable heat and flame resistant grey leather material
- Leather hood is permanently attached to specially designed sure-fit headgear platform using 6 metal plated rivets
- Four stainless steel top ventilation holes with built-in screens for user comfort
- Complete with ratcheting headgear suspension with sweatband included (S27051)
- Comes with standard 2" x 4-1/4" spring loaded positive lock lift front option
- Meets **ANSI Z87.1** standards

S21301

Prod. No.	Type	Bezel Type	Headgear	Filter
S21301	Leather Hooded	Lift front	Ratcheting	None

## WELDING FILTERS – AUTO-DARKENING FILTERS (ADF)

- Sellstrom is a leading supplier of innovative, state-of-the-art auto-darkening filters (ADF's)
- Several models and sizes available – we have the perfect ADF for your application
- When you want superior eye protection when welding, Sellstrom ADF's offer all of the built-in safety features and technology you need

### Impulse MagSense Series Auto-Darkening Filters

- Sellstrom's patented Impulse MagSense auto-darkening filters are simply the most technologically advanced product in the market today
- The optical-magnetic detection system is the most fail-safe welding arc recognition system in the world
- The optical detection function reacts to light like standard ADF's
- The redundant magnetic arc detection system instantly detects the magnetic waves that occur during welding operations
- Together, these combined systems ensure that the filter will never open even if the optical sensors are blocked
- Fail safe, absolutely no flickering
- Sensing system is fully adjustable so that you can fine-tune the filter to ambient conditions – adjusts from zero to six feet
- Great in production applications where lighting issues, close proximity to other welders, smoke or reflections can confuse other filters
- 100% solar powered with dual sensors
- On/off magnetic sensor switch
- Ultra-thin design (27612)
- Light shade: 4 IR – provides excellent visibility before and after welding operations
- Dark shade range: variable 9-13
- Hi/low delay switch
- Switching speed: up to 0.1 ms
- Opening delay: 0.25 seconds
- Overall dimensions – 3-1/2"H x 4-1/4" W (90 x 110mm)
- Supplied with horizontal/vertical adapters for 5-1/4"H x 4-1/2"W or 4-1/2" H x 5-1/4"W welding helmets
- Active viewing area:
  - 27611: 1.6" x 3.8"
  - 27612: 2-1/4" x 4" (40% larger active viewing area!)
  - Fits Sellstrom Galaxy Series welding helmets
- Protection plates: polycarbonate
- The perfect ADF for all welding processes including MIG and TIG pulsing
- Three year warranty – industry best!
- Made in Switzerland
- Meets **ANSI Z87.1** standards
- Also **CE certified**

Prod. No.	ADF Description	Shade	Active Viewing Area
S27611	Impulse MagSense	Internal variable 9-13	1.6" x 3.8"
S27612	Impulse MagSense XL	External variable 9-13	2-1/4" x 4" (40% larger)

Made in Switzerland.

Impulse MagSense optical-magnetic detection system is the most fail-safe welding arc recognition system in the world!

Fail-safe: absolutely no flickering.

# WELDING FILTERS – AUTO-DARKENING FILTERS (ADF)

## Impulse XVA Extended View Series Auto-Darkening Filters

- Edge-to-edge viewing area provides an outstanding 60% greater viewing area than standard ADF's!
- Uses optical detection technology for auto-darkening process
- 100% solar powered with dual sensors
- Everything below the gold portion becomes a fixed shade 10 filter as soon as you strike an arc
- Light shade: 3 IR – provides excellent visibility before and after welding operations
- Dark shade: fixed shade 10 IR
- Switching speed: up to 0.3 ms
- **S27601 dimensions:**
  - overall size: 4-½"H x 5-¼"W
  - overall shade 10 (extended) viewing area: 4"H x 4-½"W
  - Active viewing area: 1.6"H x 3.8"W
- **S27602 dimensions:**
  - overall size: 5-¼"H x 4-½" W
  - overall shade 10 (extended) viewing area: 3.2" H x 5" W
  - Active viewing area: 1.6"H x 3.8"W
- Overall size: 5-¼" H x 4-½" W (27602)
- Water resistant
- Three year warranty – industry best!
- Made in Switzerland
- Meets **ANSI Z87.1** standards
- Also **CE** certified

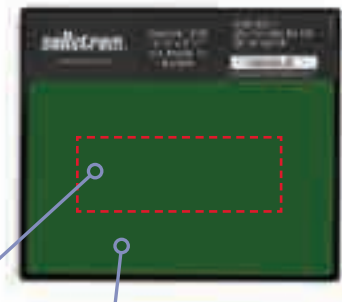

Prod. No.	ADF Description	Shade	Active Viewing Area
S27601	Impulse XVA	Fixed shade 10	1.6"H x 3.8"W
S27602	Impulse XVA	Fixed shade 10	1.6"H x 3.8"W

## Impulse Series Auto-Darkening Filters

- Uses optical detection technology for auto-darkening process
- Ultra-thin design
- 100% solar powered with dual sensors
- Light shade: 3 IR (27600) and 4 IR (27625) – provides excellent visibility before and after welding operations
- Dark shade:
  - **S27600:** fixed shade 10
  - **S27625:** variable 9-13 (variable sensitivity, variable delay)
- Switching speed: up to 0.3 ms
- Overall size: 2"H x 4-¼"W (27600) 3-½"H x 4-¼" W (90 x 110mm) (27625)
- Active viewing area: 1.4" x 3.4"
- Water resistant
- Three year warranty – industry best!
- Made in Switzerland
- Meets **ANSI Z87.1** standards
- Also **CE** certified

Prod. No.	ADF Description	Shade	Active Viewing Area
S27600	Impulse	Fixed shade 10	1.4"H x 3.4"W
S27625	Impulse	Internal variable 9-13	1.6"H x 3.8"W

## WELDING FILTER PLATES – PASSIVE

- Traditional welding filter plates are widely used in the industry
- Unlike auto-darkening filters, welding filter plates are a passive fixed shade system – you choose the right filter shade for your application as mandated by ANSI Z49.1-2005 standards
- Available in two common sizes: 2”H x 4-1/4”W and 4-1/2”H x 5-1/4”W
- Available in a wide variety of materials and shades for every application
- These filters fit several Sellstrom models, as well as most other welding helmets in the market
- Meet **ANSI Z87.1** standards

### Polycarbonate Passive Filter Plates

- Polycarbonate passive filter plates offer outstanding impact strength and optical clarity
- The most popular passive filter plate in the market
- Meet **ANSI Z87.1 High Impact** standards

Prod. No.	Plate Size	Shade	Type
S16604	2”H x 4-1/4”W	4 IR	Polycarbonate
S16605	2”H x 4-1/4”W	5 IR	Polycarbonate
S16606	2”H x 4-1/4”W	6 IR	Polycarbonate
S16606B	2”H x 4-1/4”W	6 IR Cobalt Blue	Polycarbonate
S16609	2”H x 4-1/4”W	9 IR	Polycarbonate
S16610	2”H x 4-1/4”W	10 IR	Polycarbonate
S16610B	2”H x 4-1/4”W	10 IR Cobalt Blue	Polycarbonate
S16611	2”H x 4-1/4”W	11 IR	Polycarbonate
S16612	2”H x 4-1/4”W	12 IR	Polycarbonate
S16709	4-1/2”H x 5-1/4”W	9 IR	Polycarbonate
S16710	4-1/2”H x 5-1/4”W	10 IR	Polycarbonate
S16711	4-1/2”H x 5-1/4”W	11 IR	Polycarbonate
S16712	4-1/2”H x 5-1/4”W	12 IR	Polycarbonate

### Gold Coated Polycarbonate Passive Filter Plates

- Polycarbonate passive filter plates offer outstanding impact strength and optical clarity
- Gold coating is ideal for intense welding operations, adding extra heat and light reflection
- Meet **ANSI Z87.1 High Impact** standards

Prod. No.	Plate Size	Shade	Type
S18509	2”H x 4-1/4”W	9 IR	Gold Coated PC
S18510	2”H x 4-1/4”W	10 IR	Gold Coated PC
S18511	2”H x 4-1/4”W	11 IR	Gold Coated PC

S16512	2"H x 4-1/4"W	12 IR	Heat Treated Glass
S16309	4-1/2"H x 5-1/4"W	9 IR	Heat Treated Glass
S16310	4-1/2"H x 5-1/4"W	10 IR	Heat Treated Glass
S16311	4-1/2"H x 5-1/4"W	11 IR	Heat Treated Glass
S16312	4-1/2"H x 5-1/4"W	12 IR	Heat Treated Glass

S16509

## COVER/IMPACT PLATES

- Cover and impact plates are positioned in front of passive and ADF filters providing an economical "shield" that protects the more expensive filters plates from pitting and scratching
- As the cover/impact plate becomes damaged, you simply replace it with a new plate
- Sellstrom carries three popular styles of cover plates and one style of impact plates

### Cover Plates

- Cover plates are the most economical way to protect filter plates from pitting and scratching
- Cover plates are not High Impact rated and therefore are not designed to provide safe eye protection from flying projectiles

### Impact Plates

- In addition to protecting filter plates from pitting and scratching, impact plates meet **ANSI Z87.1 High Impact** standards, providing added eye protection from flying debris during welding operations
- Impact plates provide the best and safest pre-filter protection

### Cover Plates – CR-39 Long Life

- CR-39 clear cover plates provide the best protection from pitting and scratching
- Our most popular cover plates
- Made of durable, heat resistant materials containing CR-39 Monomer
- Combines the optics of glass with the added durability of thermostat material
- Superior resistance to scratches, heat and chemicals
- Meets **ANSI Z87.1** Basic Impact standards and **Federal Specs GGG-H-211D** (not to be used as an impact plate)
- Refractive Index Value – 1.498
- Abbe Value – 59.3
- Density – 1.31 g/cm<sup>3</sup>
- Plate thickness - .056"
- Individually bagged

Prod. No.	Plate Size	Shade	Type	Pkg. Qty.
S19002	2"H x 4-1/4"W	Clear	CR-39	100/box
S19004	4-1/2"H x 5-1/4"W	Clear	CR-39	50/box

## COVER/IMPACT PLATES

### Cover Plates – Economy Polycarbonate

- Polycarbonate cover plates offer good scratch resistant characteristics at an economical price
- Individually enveloped

Prod. No.	Plate Size	Shade	Type	Pkg. Qty.
S19512	2"H x 4-1/4"W	Clear	PC	100/box
S19514	4-1/2"H x 5-1/4"W	Clear	PC	100/box

### Cover Plates – Glass

- Economical scratch and spatter resistant cover plate. Not impact resistant.
- Bulk packed

Prod. No.	Plate Size	Shade	Type	Pkg. Qty.
S19602	2"H x 4-1/4"W	Clear	Glass	24/box
S19604	4-1/2"H x 5-1/4"W	Clear	Glass	30/box
S19606	2"H x 4-1/4"W	Clear	Glass	1,000/box

### Impact Plates – High Impact Polycarbonate

- These plates are made with a special High Impact rated polycarbonate material
- Provide great visual clarity and scratch resistance characteristics as well as providing eye protection from flying debris
- Meets **ANSI Z87.1+ High Impact** standard
- Individually bagged

Prod. No.	Plate Size	Shade	Type	Pkg. Qty.
S18402	2"H x 4-1/4"W	Clear	High Impact PC	Individual
S18403	2.6"H x 4-1/4"W	Clear	High Impact PC	Individual

## MAGNIFIER PLATES

- Magnifier plates are positioned in back of passive and ADF filters.
- Magnifier plates offer the feature of magnifying your vision, much like reading glasses for improved vision where necessary
- Made of high quality polycarbonate material
- Provide great visual clarity and scratch resistance characteristics
- Available in a wide range of Dioptic ratings from 1.00 – 2.50

Prod. No.	Plate Size	Shade	Dioptic Rating	Type	Pkg. Qty.

**WELDING CURTAINS,  
TENTS & BLANKETS**

**WE HAVE YOU  
COVERED**

Product shown: S97710-3 CEPRO curtain in S97250 Rhino H.D. frame

# WELDING CURTAINS & FRAMES

- Welding curtains are designed for use in workplaces where bystanders must be protected against hazardous Infrared and Ultra Violet radiation emitted during welding operations
- They provide protection against dangerous Blue Light and Ultra Violet (UV) rays
- In cases of prolonged exposure, these rays can cause actinic conjunctivitis and potentially cataracts
- Curtains also protect the welder against welding light reflection
- Not suitable for supervising welding work or as a substitute for welding helmets

# WELDING CURTAINS & FRAMES

## Cepro Series Welding Curtains c/w Snap System

- Cepro curtains offer the best possible protection for bystanders in welding areas and meet **EN-1598** the highest standard in this field
- Cepro curtains have now been upgraded to meet the **NF P 92-503 "M1"** combustion classification (non-flammable for flexible materials under 5mm thick)
- Each curtain is supplied with sealed eyelets every one foot (12") along the top, and every two feet (24") along the bottom
- These curtains also feature 5 snap fasteners down each side for interconnecting two curtains together
- This allows multiple curtains to be added as required to form one long curtain
- Cepro curtains provide a versatile, quick and economical curtain solution
- All Cepro curtains are transparent which ensures bystanders and supervisors a good overall view of the work area and welder from the outside looking in
- Transparent curtains also allow the welder to see their outside surroundings, improving safety and preventing welders from feeling isolated
- Each curtain is provided with 7 steel suspension rings for quick and easy installation from a 1" tube
- Available in popular orange and green transparent PVC materials
- Made from 14 mil (0.40 mm) thick PVC material
- Packaged in clear ploy bag

S97709-1

Prod. No.	Size	Color
S97709-1	6'H x 4'W	Transparent orange

S97710-3	6'H x 6'W	Transparent green

## Cepro Series - Gazelle Welding Curtain Kits with Lightweight Frame

- Cepro Gazelle kits include the curtain and an economical but convenient frame
- Frame comes complete with a set of feet providing a completely portable stand-alone curtain solution
- Extremely versatile – can be moved to any location quickly and easily
- The curtain frame (6'H x 6-1/2'W) is easily assembled and is manufactured using 1" x 0.04" zinc plated pipe interconnected with strong bolt fixings
- Very lightweight – only 15 pounds including curtain
- Complies with European standard **EN-1598**

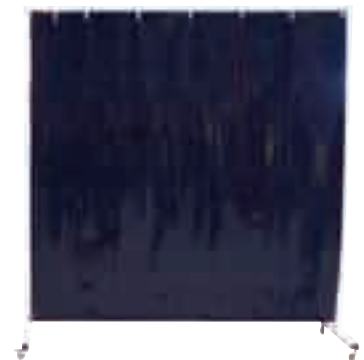

S97240-1

Prod. No.	Size	Color
S97240-1	6'H x 6'W	Transparent orange
S97240-3	6'H x 6'W	Transparent green

## Cepro Series - Rhino Heavy Duty Frame (only)

- The Cepro Gazelle frame is for use with Cepro 6' x 6' curtains (not included)
- 6-1/2'H x 6-1/4'W frame is manufactured using 1.2" x 0.08" round pipe and 1.2" x 1.5" x 0.08" rectangular pipe and is powder coated grey and comes complete with four 2" diameter swivel casters (two with brakes) providing a completely portable stand-alone curtain solution
- Extremely versatile – can be moved to any location quickly and easily
- This is a heavy duty portable welding curtain frame that will provide years of trouble free use
- Complies with European standard **EN-1598**

## WELDING CURTAINS & FRAMES

### Supervisor Series Welding Curtains

- Sellstrom Supervisor Series welding curtains are specially designed to provide a safer environment for welding supervisor, co-workers and bystanders
- Made from top grade heavy duty transparent vinyl materials which ensures bystanders and supervisors a good overall view of the work area and welder from the outside looking in
- Transparent curtains also allow the welder to see their outside surroundings, improving safety and preventing welders from feeling isolated
- Made with special flame-retardant materials, these curtains may be used around arc, plasma, gas or other high amperage welding equipment
- Resistant to tearing, cracking, fire, water and mildew
- Brass grommets on 12" centers and at corners for strength and longer life
- Curtains supplied with heavy duty self-locking metal hooks
- Curtains feature durable nylon thread and double stitching on all sides ensuring a secure, long lasting hem
- Curtains provide a versatile, quick and economical curtain solution
- Curtains meet CPA 1-84 and California Fire Marshall's requirements for flame resistance

Prod. No.	Size	Color

S97311-3	6'H x 8'W	Transparent green

### Supervisor Series Welding Curtain Frame (only)

- Supervisor Series steel frame has been designed to fit a wide range of welding curtains
- Adjustable design - can be made into a 5' x 5', 5' x 6', 6' x 4', 6' x 6'
- Frame is constructed with 7/8" galvanized steel tubular pipe for stability and long life
- Frame comes complete with a set of anti-skid legs providing a completely portable stand-alone curtain solution
- Extremely versatile – can be moved to any location quickly and easily
- Set of 4 casters available for maximum mobility (S97390)
- Additional heavy duty hooks also available (S97392 – each)

Prod. No.	Description
S97230	Adjustable welding curtain frame (only)
S97390	Set of 4 casters (optional)
S97392	Additional heavy duty hooks (each)

# WELDING SCREENS

## Portable Welding Screen

- Sellstrom’s portable welding screen is designed for a safer working environment for welding sites
- Made of top grade heavy duty yellow vinyl (non-transparent)
- Unrolls and sets up in seconds – a quick and easy safety solution for your welding environment

Prod. No.	Description	Size
S97222	Portable welding screen	5' x6'

# WELDING TENT

## Cepro Series – Outdoor Welding Tent

- The Cepro outdoor welding tent protects workers, work space and jobsite equipment against all kinds of weather conditions
- Cover is made from 17 oz. white heavy duty PVC fabric and is self-extinguishing according to the M1 classification
- Tent opens/closes at both the front and back
- Fitted with 8" wide ground flaps all around
- Frame is manufactured from 1" diameter galvanized tubes for durability and extended life
- The height in the middle of the tent is over 7' making it an ideal protective cover for many confined space kits including our PeakWork CSK1-60
- Dimensions: 6-1/4' W x 6-1/2' D x 6-1/2' H (at the sides) and 7-1/4' H (at centre)

## WELDING BLANKET – IN VINYL BAG

### 100% Fiberglass High Temp Fabric

- Designed for hot work operations
- Intended for use in horizontal applications with light to moderate exposures such as chipping, grinding, heat treating, sand blasting and light horizontal welding
- Strong, safe and chemical resistant
- Hemmed on all four sides with Kevlar thread and have brass grommets on corners and 36" center
- Machine washable
- White fiberglass blanket has a **1,000° F** continuous service temperature rating
- Convenient blue vinyl pouch with carrying handles protects welding blanket from exposure to harsh UV rays, chemicals, moisture, dust, salt air, insects and temperature extremes

Prod. No.	Material Type	Size	Weight	Temperature
S97455	100% fiberglass	5' x 6'	18 oz.	1,000°F/540°C

## EMERGENCY FIRE BLANKETS – IN VINYL BAG

### 100% Fiberglass High Temp Blanket

- Strong, safe and chemical resistant
- For use on small and contained fires
- Hemmed on all four sides with Kevlar thread and have brass grommets on corners and 36" center
- Machine washable
- White fiberglass blanket has a **1,000° F** continuous service temperature rating
- S97450 comes in convenient red vinyl hanging pouch with carrying handles protects welding blanket from exposure to harsh UV rays, chemicals, moisture, dust, salt air, insects and temperature extremes
- Two heavy duty grommets on top of pouch for easy hanging
- S97452 comes in convenient vinyl duffel bag with handles for easy storage in limited space

Prod. No.	Material Type	Size	Weight	Temperature
S97450	100% fiberglass	5' x 6'*	18 oz.	1,000°F/540°C
S97452	100% fiberglass	5' x 6'**	18 oz.	1,000°F/540°C

\*Red vinyl hanging pouch with carrying handles

\*\* Red vinyl duffel bag with handles for easy portability

### SoftShield™ Carbon Fiber Felt High Temp Blanket

- Extremely lightweight and flexible
- For use on small and contained fires
- Maintains physical integrity
- Protects for excursion temperatures to **3,000°F/1,650°C**
- Resistant to sparks and spatter, and is scratch-resistant to protect finishes and equipment
- Comes in convenient red vinyl pouch with carrying handles protects welding blanket from exposure to harsh UV rays, chemicals, moisture, dust, salt air, insects and temperature extremes

Prod. No.	Material Type	Size	Weight	Temperature
S97453	Carbon fiber felt	5' x 6'	17 oz.	3,000°F/1,650°C

# EMERGENCY FIRE BLANKETS – IN METAL STORAGE CABINET

## 100% Fiberglass High Temp Blanket

- Strong, safe and chemical resistant
- For use on small and contained fires
- Hemmed on all four sides with Kevlar thread and have brass grommets on corners and 36" center
- Machine washable
- White fiberglass blanket has a **1,000° F** continuous service temperature rating
- Comes in strong, red metal cabinet (16" H x 15" W x 5-1/2" D) which can be easily wall mounted or placed on a flat surface for quick and easy access
- Easy-to-identify bright red case with large white lettering
- Replacement blankets available in unsealed clear bag (S97467)

Prod. No.	Material Type	Size	Weight	Temperature
S97457	100% fiberglass	5' x 6'	18 oz.	1,000°F/540°C

## HIGH TEMPERATURE FABRICS

- Sellstrom offers a wide range of heat resistant, high temperature fabrics for severe heat environments
- Typical applications include:
  - high heat reflection
  - molten metal splash
  - welding shields
  - freeze protection
  - steam tracing insulation
  - pipe wrap
  - stress relief

### 100% Fiberglass High Temp Fabric

- 100% white woven textured fiberglass designed for maximum flexibility using low irritating yarns
- Strong, safe, chemical resistant
- Hemmed on all four sides with Kevlar thread and have brass grommets on corners and 36" center
- Maintains physical integrity
- Protects for excursion temperatures to **1,000°F/540°C**
- Available in 18 oz. & 32 oz. material
- Ideal for pipe lagging and welding protection

Prod. No.	Material Type	Size	Weight	Temperature
S97404-3	100% fiberglass	6' x 6'	18 oz.	1,000°F/540°C
S97404-4	100% fiberglass	6' x 6'	32 oz.	1,000°F/540°C

### SoftShield™ Carbon Fiber Felt High Temp Fabric

- Extremely lightweight and flexible
- Maintains physical integrity
- Protects for excursion temperatures to **3,000°F/1,650°C**
- Resistant to sparks and spatter, and is non-scratch material to protect finishes and equipment

Prod. No.	Material Type	Size	Weight	Temperature
S97404-12	Carbon fiber felt	6' x 6'	17 oz.	3,000°F/1,650°C
S97408-12	Carbon fiber felt	6' x 8'	17 oz.	3,000°F/1,650°C

### Silica High Temp Fabric

- The optimal choice for welding applications
- 96% amorphous silica material that is both pliable and durable
- Low soluble chlorides and halogens facilitate use in both nuclear and fossil fuel power plants
- Hemmed on all four sides with Kevlar thread and have brass grommets on corners and 36" center
- Water repellent
- Maintains physical integrity
- Protects for excursion temperatures to **3,000°F/1,650°C**

Prod. No.	Material Type	Size	Weight	Temperature
S97404-8	Silica	6' x 6'	18 oz.	3,000°F/1,650°C
