

106 FG Series T-Bar Fiberglass Back Filter Grille

Standard:

- Return air T-Bar lay-in filter grille
- Removable louvered 20 gauge steel face
- 20" x 20" x 2" filter (not included)
- R4 rated fiberglass back plenum cut holes 6"-16" (collar by others)
- Seismic support holes
- Soft White

Shoemaker filter grilles allow for installation of larger thickness filters which can reduce pressure drop on the overall system, improving air flow through the heat exchanger and allowing more time between filter changes.

NOTE: Filter grilles are manufactured 3/16" undersized nominal duct outside dimension for ease of installation. Air filter should be 1/4" to 1/2" undersize. Verify with air filter manufacturer for air filter specification.
