

PRO Max

Pillow Protector

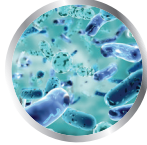

NEW

ANTIMICROBIAL

Engineered exclusively for hotels searching for the most effective way to protect pillows and guests during the Covid-19 pandemic.

CDC Level 4 Virus Barrier
patented MicronOne fabric prevents pillow contamination

Antimicrobial Treated
for cleanest, freshest sleep

Waterproof Both Sides

Blocks Allergens

Commercial Laundering Approved

Save as much as \$5 per year in labor while improving guest comfort

as compared to unvented waterproof protectors.

Labor Savings

Estimated \$5/pillow/year from faster pillow and pillow case installs and ending constant need to deflate the protector.

Guest Comfort

Improved guest comfort from lack of ballooning and superior breathable fabric.

Internal Vent

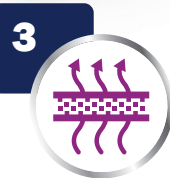

Allows air to escape so waterproof protector does not balloon:

enables faster pillow insertion

ends the constant need for housekeeping to push air out

keeps the pillow cool

lets the pillow be the cushion

Superior Breathable Fabric
offers coolest sleep

Extra Slick Fabric
allows for fastest pillow case installation and removal

Other Features

- Zippered
- Soft, noiseless, optic white fabric
- 100% polyester

Launderability

Withstands commercial laundering at 160°F

Anti-Microbial Performance

% Reduction of Escherichia coli as compared to untreated fabrics

Unwashed	Washed 50x
99.99%	>99.5%
