Pro-IQ Your edge in every customer call

Pro-IQ is the platform behind every ElitePRO – designed to help HVAC pros do more with less. From branded visibility to remote setup and system insights, it turns everyday installs and customer calls into lasting business relationships. All managed in one place, via the Resideo pro app.

A growth-engine platform built for pros

Optimize labor
Get more done in less time. Techs can configure the thermostat installer set-up (ISU) on-app or apply saved templates.³ The streamlined workflow adds consistency and helps reduces errors.

Drive loyalty
Keep your contact info front and center – on the thermostat and in the homeowner's mobile app. Alerts help maintain and proactively identify issues before they escalate, helping you build trust and keep customers close.⁴

Generate leads
Turn installs and service calls into income. Real-time insights help you spot maintenance needs and upsell IAQ or system add-ons – all part of a connected, whole-home solution.

³ Free Pro-IQ membership and Resideo Pro app required. ⁴ Paid Pro-IQ membership and Resideo Pro app required.

More than a thermostat. A tool for growth.

The ElitePRO S1100 helps you stand out – with premium design for your customers, and powerful data-driven tools for you and your team.

Modern aesthetic

Design that fits in or stands out. Clean profiles and stylized interfaces elevate any room.

Premium finish

Available in white or black device color options to suit any style preference.

Large touchscreen

Big, clear, intuitive. Offer 5" touchscreen options for better visibility and easier control.

Customizable display

Homeowners can personalize the idle screen with clocks, weather, and other themes while selecting their preferred color combinations.

Expandable ecosystem

Flex with customer needs. Enhance the HVAC system or smart home integration with connected accessories.¹

Redlink™ technology

Connect wirelessly with room and outdoor sensors, equipment interface module (EIM), and more.¹

EIM compatible¹

Simplify the most complex jobs – helping to save time and costs. Expand applications with additional outputs and minimal wires.

Optional room sensors

Help prioritize the comfort of the room of choice and reduce hot and cold spots by pairing with Room Sensors.¹

Indoor air quality

Comfort is more than just the perfect temperature. Maintain optimal IAQ with humidity and ventilation control to keep air fresh.²

Energy efficient

ENERGY STAR® certified. Proven to help save energy and eligible for rebates.

UWP® wall-mounting plate

Faster installations and upgrades. Leverage a standardized mounting system used in over 25 million homes already.

Powered by Pro-IQ

Save time on-the-job while retaining and growing your customer relationships. Get started with a free or paid Pro-IQ membership.

Occupancy detection

Smart thermostat senses and adjusts settings to help save energy and maximize comfort.

Configurable outputs

Control up to 2 IAQ devices² (humidifier, dehumidifier, or ventilators) or accommodate an additional heating or cooling stage.

HVAC system compatibility

Works with dual fuel, fan-coil, PTAC, and radiant systems.

¹Sold separately. ²Additional HVAC equipment or accessories may be required.
