

Identification Signs

Description

Fire Protection Products, Inc. FDC Wall Plates are for identifying automatic sprinkler, standpipe and combination fire department connections for the fire service. Manufactured from aluminum (red finish), rough brass (also available in polished chrome finish), or plastic (red finish), they are durable and fade resistant.

Installation

Round plates are installed around the pipe and are available for either 4" or 2 1/2" IPS. Square shaped signs are mounted directly to the wall.
