

“More Robust” fabricated fittings in sizes 4" to 16" for use on C900 and C905 pipe

Multi Fittings is now offering a new and improved fabricated fitting for C900/C905 pressure piping systems. Designed with a thicker bell, the standardized fitting provides a more robust bell than any other fabricated C900/C905 fitting currently offered in North America.

The new bells also have the same O.D. and thickness as the bells on Blue Brute and Centurion pipes providing a consistent O.D. throughout the entire offering.

FEATURES & BENEFITS:

- A thicker bell that results in a more robust fitting.
- A consistent O.D. for each size, simplifying the restraint selection.
- Each fitting is labeled with the O.D. information for easy identification and restraint selection.

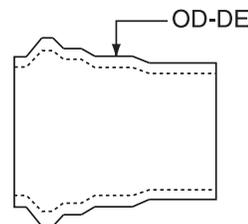

CLASSIFICATIONS:

- PVC Pressure Systems manufactured to the performance requirements of AWWA and CSA Standards

STANDARD PRODUCT OFFERING

4" to 16" – PR 235psi (DR18)

Note: Other DR's and sizes up to 48" are available upon request.

SIZE	MIN.	MAX.
4"	5.44"	5.61"
6"	7.84"	8.03"
18"	10.29"	10.55"
10"	12.63"	12.96"
12"	15.07"	15.46"
14"	17.28"	17.73"
16"	19.64"	20.17"

FEATURES & BENEFITS

Engineered for Strength
Simplify Restraint Selection
Easy Identification
