Material Number MA512AA, T45YP-V - Y-Pattern Globe Valve - Threaded, PVC Schedule 80, FKM

The Y-pattern globe valve multi-turn operation allows for precise throttling and on/off control. Fluid never touches the stem threads, which provides fast open/close operation. The valve can be easily joined with the threaded end connections. Please refer to Chemtrol technical data sheets, chemical resistance guides and catalogs for engineering and installation information. PVC Schedule 80 exhibits excellent corrosion resistance properties and has the highest long-term hydrostatic strength of
