## **Backing Flanges**

## SK-39 and SK-39-P Backing Flanges

- An economical, light-weight backing flange for use with face rings and butt welding type stub ends.
- Tapered face on the flange improves visibility during gasket alignment.
- Cast in commercial quality steel or machined from ASTM A 36 plate.
- Cast or drilled hole patterns per ANSI B16.1, Class 125 (identical to ANSI B16.5, Class 150).
- Coated with red oxide primer. Galvanized, epoxy and other coatings are also available.
- Normally used with Alaskan SK-1 and SK-1-P face rings and all Alaskan butt welding stub ends.
- Also available in T304 and T316 Stainless Steel.

## SK-39
