

Power-Vee™

**With Power Cable Feed.
Works great in tight spots.**

We've miniaturized our big machine power cable feed and put it on the Super-Vee to give you feeding speed and convenience you haven't seen before in a hand-held power drain cleaner. In tight or awkward places, the Power-Vee is like having a third hand.

To feed the cable just start the Power-Vee and squeeze the feed lever; to retract it, reverse the motor and squeeze the lever. The feed handles 1/4", 5/16" and 3/8" cables. No adjustment, disassembly, or additional parts required.

Our Dyna-Thrust™ bearing system helps carry the weight of the drum, significantly reducing wear on the motor shaft bearing and extending the life of the tool. Also adding to the Power-Vee's durability is the heavy-gauge stamped aluminum drum.

Of course the cables are Flexicore® – with an integral wire rope center. Nobody makes cables like General.

- Feeds 3/8" cable at 16 feet per minute.
- The feed handles 1/4", 5/16" and 3/8" cables – no adjustment, disassembly or additional parts required.
- Uses left hand wound Flexicore® cables for maximum strength.
- With Quick-Change Cable Cartridges.
