PROTECTO-SHIELD® FACE SHIELDS

Protection you can trust

PROTECTO-SHIELD® FACE SHIELDS

Protection When It Counts

Face shields are designed to protect the wearer's face from a variety of hazards against which eyewear or goggles alone would not be sufficient. The added protection that a face shield provides is necessary where severe exposure to falling or flying objects, impact, chemical splash, and airborne debris is likely, such as chipping, grinding, machining, masonry riveting and sanding.

When a job demands extra protection from severe impact or chemical splash hazards, a face shield from Sperian Protection is an ideal choice.

The Sperian® brand offers a substantial face shield line. For construction, industrial, laboratory, manufacturing and more, you'll find that we offer a complete line with a variety of products to fill your specific need, and will also suit your budget.

Impact and Splash Protection

Adjustable headgear, a simple visor replacement system and quality optics make Sperian® face shields a “must have” in your safety line-up.

Protecto-Shield® Prolok® Headgear

- Constructed of tough thermoplastic for superior heat protection
- Available with ratchet or pinlock headband adjustments
- Designed with a chemical splash drip edge to prevent fluids from splashing down inside the visor
- Easy sizing and tension adjustment for individual visor positioning
- Visors easily attach with no snaps, posts or levers

SKU	Description
11380048	V5N heat resistant browguard with ratchet adjustment and sweatband
11380049	V15N heat resistant browguard with pinlock adjustment and sweatband
11340143	V5N headgear with clear propionate visor (Visor only: 11390044)
11340145	V5N headgear with clear polycarbonate visor (Visor only: 11390047)

Pinlock Adjustment
Pinlock design allows adjustment similar to a baseball cap
V15N headgear
#11380049

Ratchet Adjustment
Tension knob allows easy sizing and tension adjustment for individual visor positioning
V5N headgear
#11380048

PROTECTO-SHIELD® FACE SHIELDS

Protecto-Shield® Replacement Visors

- Available in propionate, polycarbonate and acetate for a variety of environments and hazards
- Variety of visors available in clear, medium green and dark green tints plus absorptive shades 3, 4, 5 and 6 for welding and cutting applications
- Easy attachment without snaps, posts or levers
- Reinforced edge to resist cracking
- Universal hole pattern allows the use of Sperian visors with other popular manufacturers' headgear
- Aluminum bound acetate replacement visors form easily for a contoured, customized fit
- Meets ANSI Z87+ (High Impact) and CSA Z94.3 safety standards

A Guide to the Properties of Visors

Note: Face shields are considered secondary eye protection only. Approved primary protection safety eyewear must be worn for full compliance.

Properties	Polycarbonate	Propionate	Acetate
Impact Resistance	Best	Better	Better
Weather Resistance	Better	Good	Good
Scratch Resistance	Good	Better	Better
Acid Resistance	Better	Best	Good
Alkaline Resistance	Better	Best	Good
Solvent Resistance	Better	Best	Good
Heat Resistance	Best	Better	Good
Maximum Temperature Use	250°F–280°F	155°F–220°F	140°F–220°F

Replacement Visor Options

Sperian Protection offers replacement visor options in various materials because each have strengths in different applications.

Polycarbonate: Polycarbonate has a better optical quality, but it is less flexible. This means that it does well in impact-resistance situations.

Propionate: Propionate is more flexible and is more appropriate in chemical-resistance applications.

Aluminum Bound Acetate: Acetate is a thinner, more lightweight material. These visors are able to be formed to provide a contoured custom fit.

Molded Propionate Replacement Visors

SKU	Description
11390064	Clear Replacement Visor, Individually Poly-Bagged
11390044	Clear Replacement Visor
11390045	Medium Green Replacement Visor
11390046	Dark Green Replacement Visor
