

Double Palm

For better insulation and heat protection, our hot mill and double palm gloves are made from first quality heavy duty canvas, terry cloth, or fleece. Double palm gloves feature double layers of fabric in the palm, thumb and index finger areas, or with an extra third layer of burlap or fabric reinforcement. Knit wrist, band top, and gauntlet cuff are available for different extents of protection on the wrist and forearm area. We care for your safety and ensure that our hot mill and double palm gloves are consistently produced of the highest quality.
