10 Pack Disposable Bucket Liner for Outdoor Ashtray, Smoker's Ceasefire® Cigarette Butt Receptacles - 26827

Product Images

Short Description

- Made of aluminum/poly
- Fits Original, Elite, and Personal Smoker's Ceasefire® outdoor ashtrays
- Can be twist-tied

- FM approved when used with Ceasefire cigarette receptacles

Description

Handy disposable bucket liners made of aluminum/poly (model 26827) are perfect for making maintenance easier with your outdoor ashtray. When the liner is full, these can be twist-tied and thrown away.

This pack of ten with twist ties can be used with the Justrite Personal, Original, and Elite Smoker's Ceasefire® models. They will fit any steel pail that measures at 11.4 in (289 mm) wide and 10 in (254 mm) high maximum size. This item is FM approved when used with the Smoker's Ceasefire models as a cigarette receptacle system.

If using sand or a brick to give your ashtray extra weight, place this weight under the liner or under the bucket if you can. Placing these items in the liner or bucket can reduce the amount of cigarette butts collected.
