General's Vibration Isolation Pads

General's Vibration Isolation Pads (Model # KVP4X4) are a simple form of vibration and noise control where two neoprene honey-combed sheets are adhered to a cork core.

Our Vibration Pads are 3" by 3" and 1" thick. They are rated at a max load of 50 pounds per square inch, 150 pounds maximum per pad and come in a box of 4.

If you have any questions about these pads, their cost, or additional uses please contact us by phone or email.
