

6' Green/White Parking Curb, Park-It®-GNRS1620GN

Product Images

Short Description

- Constructed of corrosion resistant 100% recycled rubber for ultimate durability
- Weather and UV-resistant – will not chip, crack, fade crumble or deteriorate
- Maintenance-free
- Easy to install, even on uneven or gravel surfaces
- Bright green with molded highway reflective tape makes it highly visible at night
- Ideal for usage at EV charging stations

Description

The 6' Green/White Park-It® Parking Curb, model GNRS1620GN measures 72" L x 6" W x 4" H. It is constructed from 100% recycled rubber, ensuring it is environmentally friendly, durable and lightweight. Unlike traditional concrete or asphalt curbs, the Park-It® parking curb resists chipping, cracking, and crumbling and is resistant to corrosion, extreme weather changes, moisture, ultraviolet light, and common road chemicals such as oil and road salt. Additionally, these parking curbs require no painting or ongoing maintenance, making it a cost-effective and labor-saving option over its lifetime.

The bright green color makes it clear that a space is reserved for an electric vehicle or where a charging station is located. Placement at a proper distance from the charging station may help protect the station from collision damage.

This green and white Park-It curb is also used to reduce the stress on traffic systems by increasing the ridership and usage of bike lanes when properly placed accordance with FHWA guidance for separated bike lane planning & design. This represents the best option to achieve bike lane separation without costly road & sidewalk projects.

Park-It car stops are green molded with highly reflective white sections for enhanced visibility, even in low light conditions. Designed with ease of installation in mind, the curbs feature pre-drilled holes and can easily adapt to uneven surfaces. Park-It parking curbs can be installed on asphalt with [rebar spikes](#), or on concrete surfaces with [lag bolts and plastic shields](#). Stops are covered under a 3 year warranty.

Specifications

Model No	GNRS1620GN
UPC	662641001329
Brand	Checkers Safety™
Color	Green/White
Quantity Included	1
Pallet Quantity	49
Length	72
Width	6
Height	4
Spikes Needed	4
Bolts Needed	4

Prop 65
