

S19-310, S19-310F, S19-310FSS, S19-310SB Combination Drench Shower/Eyewash Unit

- Complies with American National Standard Z358.1-2009
- Galvanized Steel Protected with BradTect® Safety Yellow Coating or All Stainless Steel (S19-310FSS)
- Combination Units may be Top-Supplied or Mid-Supplied
- Universal Identification Sign and Inspection Tag Included
- Full, One-Year Warranty
- Patent Pending

Specifications

Combination Drench Shower/Eyewash Unit saves space and fits easily into any work environment. Shower valve operates quickly by a pull rod with a triangular handle. Shower provides a superior washdown with a more even spray pattern. Eyewash operated by a large, highly visible push handle. Safe, steady water flow under varying water supply conditions from 30–90 PSI is assured by integral flow control in the sprayhead assembly. NOTE: The ANSI Z358.1 standard requires an uninterrupted supply of flushing fluid at a minimum 30 PSI flowing pressure.

cUPC Approved:

S19-310, S19-310F, S19-310FSS and S19-310SB are certified to comply with the requirements of the Uniform Plumbing Code and the National Plumbing Code of Canada by the International Association of Plumbing and Mechanical Officials (IAPMO).

This plumbing fixture is not intended to dispense water for human consumption through drinking or for preparation of food or beverages.

Recommended Option:

Navigator S19-2100 EFX25
Emergency Thermostatic Mixing Valve

NAVIGATOR

Satisfies ANSI Z358.1-2009
tepid water requirements.

Standard Equipment

SpinTec™ Showerhead

Standard showerhead is 3.1" (78.7mm) diameter highly visible yellow impact-resistant plastic (Model S19-310F includes a 10¾" [273mm] diameter corrosion-resistant stainless steel shroud). High performance corrosion-resistant stainless steel showerhead measures 2" (51mm) in diameter (S19-310FSS only). SpinTec drench showerhead features integral 26 GPM flow control, conserving water and helping to accurately size your tepid water system.

Shower Valve

Chrome-plated brass 1" NPT stay-open ball valve. Operated by a stainless steel rod with triangular handle. S19-310FSS is all stainless steel.

Eye Wash Bowl

10" (254mm) diameter yellow impact-resistant plastic or 10¾" (273mm) diameter corrosion-resistant stainless steel.

Standard Sprayhead Assembly

Chrome-plated brass sprayhead with twin soft-flow eyewash heads and protective sprayhead covers. Safe, steady water flow under varying water supply conditions from 30–90 PSI is assured by integral flow control in the sprayhead assembly. S19-310FSS is stainless steel.

Eyewash Valve

Chrome-plated brass ½" NPT stay-open ball valve. Hand operated by highly visible safety yellow PVC push handle. S19-310FSS is all stainless steel.

Pipe and Fittings

1¼" galvanized steel with BradTect® safety yellow coating. S19-310BFSS is stainless steel.

Water Supply

1¼" NPT.

Local codes may require the installation of a backflow prevention valve to complete proper installation. Compliance with local codes is the responsibility of the installer. Valve must be tested annually to verify that it is functioning properly. Backflow prevention valves are not included with the fixture and may be supplied by the contractor or purchased from Bradley Corporation.

All dimensions assume standard thread engagement. Variations in manufacturing allow for +/- ⅛" (3mm) per threaded joint. To find the tolerance of a dimension, add the number of thread joints in between a dimension and multiply it by ⅛" (3mm).

All dimensions assume standard thread engagement. Variations in manufacturing allow for +/- 1/8" (3mm) per threaded joint. To find the tolerance of a dimension, add the number of thread joints in between a dimension and multiply it by 1/8" (3mm).
