

INCREDIBLE FOAMING ACTION... SEE THE DIRT AND GRIME BEING FOAMED OUT OF THE COIL

- Cuts through greasy dirt better than acids.
- Cleans and brightens.
- Foaming helps lift out stubborn soils.
- Does not contain acid.
- Biodegradable

Description

A non-acid, alkaline-based product for brightening and cleaning air-cooled condensers. It contains the best available detergents and surfactants to quickly penetrate and remove greasy soils and oxidation and its foaming helps lift greasy soils out of the coil, leaving equipment clean and bright.

Application

For cleaning and brightening air cooled condensers, permanent filters and other finned heating and cooling coils. It is not recommended for indoor use and it should not be used on evaporator coils.

Directions for Use

1. Goggles, gloves and other protective garments should be worn when using this product. System should be shut off.
2. Apply with any of the durable, low pressure plastic sprayers listed on the back side of this bulletin.

Coil Cleaners

Alka-Brite Plus

3. Prepare cleaning solution by mixing one part Alka-Brite with three to four parts of water. Add the water to the sprayer first, then add the cleaner. (If using the No. 200P Sprayer, you will add the Alka-Brite first.)
4. Spray cleaning solution onto dirty coils or surfaces and allow it to remain in contact with the dirty surfaces for 5-10 minutes.
5. Rinse thoroughly with water, and apply a coating of Cal-Shield, the coil protector based upon DuPont's Teflon® surface protector. Then, return system to service.
6. Rinse out sprayer as well as its spraying wand and nozzle.

Packaging

1 gallon bottle	4120-08
2.5 gallon pail	4120-05
55 gallon drum	4120-01

Read and understand the product's label and Safety Data Sheet ("SDS") for precautionary and first aid information.
