

## AIR VENT CAPS

### DESCRIPTION

Christy's vent caps are made of tough UV stabilized glass-filled nylon resin with #10 stainless mesh screens.

ABS Black Pipe Cement

### APPLICATIONS

These vent caps are intended to be attached by pipe nipple to the air release valve outlet to prevent debris or insects from entering the valve. The vent caps are also designed with sufficient surface space to allow full airflow. They can also be used as inlet screens.

### SPECIFICATIONS & INDUSTRY LISTINGS

Listed below is a chart that gives part numbers, vent cap size and screen area (sq. in.)

PART NUMBER	SIZE	SCREEN AREA (SQ IN)
VC075	3/4" FPT	14.75
VC1	1" FPT	14.75
VC2	2" FPT	27.5
VC3	3" FPT	46

**\* Female part numbers can be switched to male (MPT) by specifying a VCM vent cap. However, VCM vent caps are only available in 1" through 3".**

### SPECIAL CONSIDERATIONS

Christy's vent caps have standard #10 stainless mesh screen, but, a #20 stainless mesh screen can be provided as a "special order" item.

### PACKAGING & HANDLING

The vent caps can be individually shipped and do not come in case quantities. Dimensions of each vent cap can be provided by one of our qualified customer service reps.
