#### Notes:

- All lay lengths & weights are approximate and are subject to change without notice
- Fabricated fitting configurations may vary

#### Style Legend:

- M - Molded fittings are Pressure Class 150 unless otherwise noted
- C - Machined from extruded stock as manufactured by North American Pipe
- F - Fabricated fittings are made from sections of C-900 pipe and are not pressure rated

The use of anything but properly designed and installed thrust blocks will reduce the life of plastic fittings. Thrust blocks must be of poured concrete only and sized for the soil conditions. Mechanical joint restraint products may also be considered for use.

**WARNING:** Frequent or high amplitude pressure surges (water hammer) can reduce the life of PVC fittings. Refer to AWWA C907.
