

OPTIONS & ACCESSORIES
FOR RM60000 & 64000 SERIES

Create a custom look with these premium quality range hood accessories. From backsplashes to baffle filters, this dynamic collection provides virtually maintenance-free enhancements to your kitchen decor so you can easily fulfill your unique design vision.

- Restaurant-quality stainless steel backsplash with fold-down shelves designed for use with the RM60000 & 64000 Series infrared food-warming system completes the commercial look and is easy to clean.
- Optional matching decorative soffit chimney on the RM60000 extends the commercial look in kitchens with ceilings up to 8 feet high.
- Optional baffle filters on the RM60000 & 64000 Series constructed of heavy-gauge stainless steel for optimum performance and lasting value.

*Optional backsplash is recommended when using infrared heat lamp.

64000 SERIES

This series offers the professional look and performance you want in a size to fit beneath just about any kitchen cabinet. Built of durable, heavy-gauge steel construction, it can be combined with an internal or external blower of your choice.

- Two or three bright, 50-watt (PAR20) halogen bulbs for multi-level cooktop lighting (bulbs not included).
- Two 175-watt (PAR38) infrared food-warming lamps keep side dishes warm (bulbs not included).
- Heat Sentry™ detects excessive heat and adjusts blower speed to high automatically.
- Variable-speed control with blower memory, “remembers” last setting used.
- Choice of 10 HVI Certified blower options for internal or external mount (sold separately). (Rough-In Kit required for external blowers #332KR see page 33.)
- P8 internal blower not for use with 30" hood.
