* A-36 includes A-34 and A-35.

** For pre-1997 hydrants: If replacing Main Valve or Lower Valve Plate, both parts must be replaced as they have been redesigned to make the Main Valve reversible. Original non-reversible Main Valve and its matching Lower Valve Plate have been discontinued (1997 and later hydrants incorporate both the redesigned parts).

***For Super Centurion 350 Hydrants, A-6 is a roller thrust bearing, Steel.
