Chrome Plated

Part No:
MM-500 ASCP

3/8" Supply
Compression

This innovative arrestor series available through PPP provides a simple quality installation. The Mini-Angle Stop Arrestor is available only in a chrome plated finish for exposed application. We have also permanently marked the arrestor, therefore the friction label can be removed to give the end user a fine decorative look. This product can only be found in the Precision Plumbing Products catalog. Ask your nearest wholesaler for the Mini-Angle Stop Arrestor.
