

# Water Tanks

Rugged, impact-resistant, one piece polyethylene construction.

Our vertical Water Tanks are manufactured to strict quality guidelines to ensure years of high-performance use. The black or green color limits light penetration, which reduces the growth of waterborne algae. These tanks are rated at 8 pounds per gallon, which means they are for **WATER STORAGE ONLY!** They should not be used for chemicals, fertilizers or any other product. Where applicable, the tanks will carry the NSF approval.

- ✓ Resins that meet FDA specifications to ensure safe storage of potable water
- ✓ Tie-down slots
- ✓ Built-in graduated gallonage indicators
- ✓ Offset fill-well
- ✓ Self-vented, slosh proof lids

**WARRANTY** – NORWESCO offers a three-year warranty from date of manufacture on all water weight tanks. Should a defect appear within the warranty period NORWESCO will supply a new, equivalent tank in replacement thereof. NORWESCO'S liability is limited to the value of the tank itself and specifically excludes the cost of installation, freight, removal or consequential damages.
