

Reflectix® Insulation

Product Specification

Aluminum Foil Tape

100318556 (FT210)

The Reflectix® Tape is a 1.6 mil high strength aluminum foil tape coated with a superior performance flame retardant solvent acrylic adhesive. The foil material allows maximum conformability in the sealing of reflective insulation systems. A low moisture vapor transmission rate offers outstanding sealing and patching performance, providing an excellent vapor seal. UL723 classified.

Technical Data:

Thickness:	3.2 mils
Carrier	106 mils
Tensile	10.2 lbs./in.
Adhesive	Flame retardant Solvent Acrylic
Adhesion	20 N/25 mm/70 oz./in.
Temperature Range	31° F to 248° F (-35° C to 102° C)
Application Temperature Range	14° F to 104° F (10° C to 40° C)
 CLASSIFIED	UL 723 General Use Tape Surface Burning Characteristics 38MP
Flame Spread	0
Smoke Developed	0
