

Limited Lifetime Warranty

Folding Tools

Folding seams are formed from two steel halves, permanently joined together. Handy sight holes ensure proper depth alignment.

3/8 in. (9.5 mm) and 1 in. (25.4 mm) folding depths with a 24-30 gauge capacity.

12F

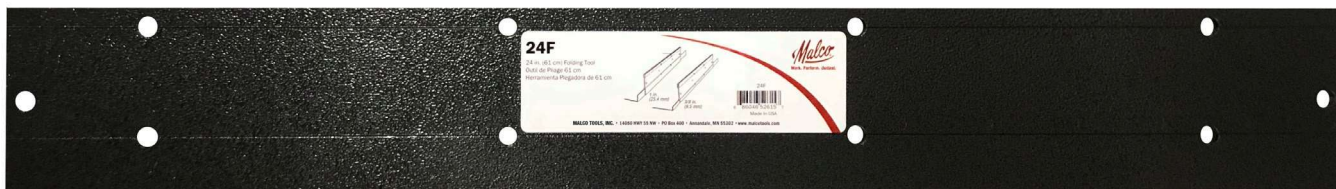

12F - 12 in. (30.5 cm) long tool is ideal for HVAC applications such as 3/8 in. (9.5 mm) folds for drive cleats and big 1 in. (25.4 mm) deep folds for joist panning, plenums, register boots, trunk line end caps, and more.

18F

Longer 18F - 18 in. (45.7 cm) tool ensures a uniform fold.

24F

Extra long 24F - 24 in. (60.1 cm) tool may also be used as a mini brake by siding applicators.
