

Super-Vee™

Small Drain Specialist

The **Super-Vee** offers you a complete system for cleaning drain lines through 3" in diameter. With a variety of cables, cutter and accessories available, you have the right combination for any clogged drain problem.

The **Super-Vee** is built to clear clogged drains for a decade or more. And our Dyna-Thrust™ bearing system is one reason why. It helps carry the weight of the drum, significantly reducing wear on the motor shaft bearing and extending the life of the tool. Of course the cables are Flexicore® – with an integral wire rope center. Nobody makes cables like General.

Slide Action Chuck:

With a quick movement of the Grip Shield, you release or engage the cable – without the need for a chuck, and with automatic adjustment for different cable diameters. As a result, you get your cable into the line faster, pull it out faster, and have full control at all times. Because the Slide Action Chuck is linked to the Grip Shield, handling is easy and comfortable.

1 Slide Grip Shield FORWARD to Release Cable.

2 Pull Cable out of drum.

3 Slide Shield BACK to grip cable.

4 Run Cable into line and repeat.
It's that quick!

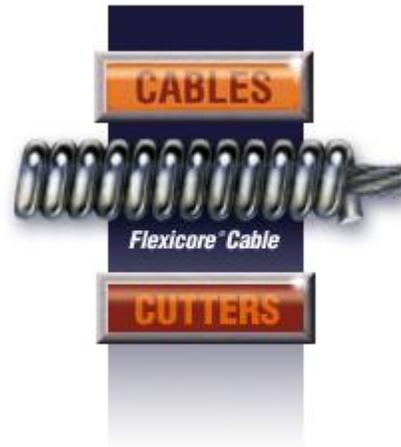

To switch to a different diameter cable, you just loosen three screws, pull the front of the drum off the cable, and load another cartridge. Changing takes less than a minute and turns what could be a messy job into a clean one. The tough plastic cartridges are so inexpensive, you'll probably want to store all of your Super-Vee cables in them.

Flexicore® Wire Rope Center Cables

Heavy gauge wire is coiled around 49 strand wire rope and then heat treated. This cable has unequalled strength and the right amount of flexibility. It's so tough, it has a one year warranty against defect or breakage.

Flexicore Patent Nos. 2,244,735 and 2,849,870

	Part Number	Cutter Name	Application
	AH	Arrow Head Starting Drill	Starting Drill (Gets water flowing)
	BG	Boring Gimlet	For removing loose objects
	DHBG	Down Head Boring Gimlet	For removing loose objects (Goes down waste, not up stack)
	FAH	Flexible Spring Arrow Head Cutter	Starting Drill (For sharp turns in small lines)

	1-1/4 SCB	1-1/4 Side Cutter Blade (2 piece set)	For cutting and scraping

Options:

DHF
All-Purpose
Down Head Fitting
Can be used with all
standard HECS cutters

CAA
Closet Auger
Attachment
Guides 1/4" or
5/16" cable
into bowl

MCC
Carrying Case

The rugged **Handy-Stand™** turns General's popular and reliable hand-held drain cleaners into practical countertop or floor machines. Ergonomically balanced for maximum stability, the lightweight portable Handy-Stand fits the Super-Vee™, Power-Vee™, and Handylectric™. All three models are ideal for unclogging sinks, tubs, and laundry drains.

The convenient Handy-Stand™ makes it easier for you to carry your hand-held machine to and from the jobsite. The lift handle doubles as a spare cartridge holder and protects your machine from damage. On the job, the Handy-Stand can be positioned either horizontally or vertically for maximum flexibility.

SV-A-WC Including case, 25 ft. x 1/4" (25HE1), 25 ft. x 3/8" (25HE2) cables, HECS cutter set and cartridges.
SV-B-WC Including case, 25 ft. x 1/4" (25HE1), 35 ft. x 3/8" (35HE2) cables, HECS cutter set and cartridges.
SV-C-WC Including case, 50 ft. x 1/4" (50HE1), 35 ft. x 3/8" (35HE2) cables, HECS cutter set and cartridges.
SV-D-WC Including case and 25 ft. x 5/16" (25HE1-A) cable.
SV-F-WC Including case and 25 ft. x 1/4" (25HE1) cable.
To order without case, delete suffix "WC", as SV-A.
220/230 & 240 Volt/50 Hz units are available.

Motor: All ball-bearing, double-insulated, reversible motor with variable speed control; 0 – 500 rpm.
Drum: Heavy gauge stamped aluminum with inner drum to prevent cable tangling.
Capacity: 50 ft. of 1/4" or 5/16" cable; 35 ft. of 3/8" cable. All cables are left hand wound and reinforced with a wire rope center.
Cutter Set: Arrow Head, Boring Gimlet, Down Head Boring Gimlet, 1-1/4" Side Cutter Blade, Flexible Arrow Head
Cable Cartridges: Light weight, impact resistant plastic.
Slide Action Chuck: Grip shield moves back to engage cable, forward to release it. Automatically adjusts for different diameter cables.
