## OVER FIFTY YEARS OF EXCELLENCE

### ABOUT JACLO

JACLO, an industry leader since 1961, is the premiere manufacturer of decorative plumbing products and advanced shower solutions. They continue to inundate the market with highly stylized shower systems, which delight the senses, faucets and decorative accessories that marry steadfast durability with seamless styles. JACLO has grown into a complete luxury bath provider offering multiple product lines that create high-end,

complementary bath suites. Implemented in numerous high-end hotels and residences across the country, their product lines provide an attainable superior experience for all consumer budgets or price points, which enhances daily rituals and defines elegant living. JACLO products are available at 2,500 dealers nationwide.

### PRODUCT IDENTIFICATION (DPHA DATA STANDARD)

With the release of this new catalog JACLO Industries has completed the transition to the DPHA data standard. This standard is widely used throughout the industry and is designed to facilitate a common product identification system. The standard utilizes a part "root" identification number or alphanumeric identifier and places the product finish code in the suffix (example 123ABC-SN). Original JACLO part numbers contained the finish code in the prefix (example SN-123ABC).

Previously the catalog number referred to the base product in polished chrome. With the new data standard the prefix is dropped and PCH must be added to the suffix when ordering product in polished chrome.

**Example:** SH-S123 is now S123-PCH or E-6004 is now 6004-PCH.

JACLO has changed/added seven finish codes to conform to the DPHA data standard. ACU-Antique Copper, BKN-Black Nickel, BU-Bronze Umber, MBK-Matte Black, PCH-Polished Chrome, PCU-Polished Copper, ULB-Unlacquered Brass, and WBR-Weathered Brass.

For all JACLO approved dealers a complete product data file is available upon request in text or excel format. Prices are subject to change without notice.

### CHANGES IN DESIGN

The Company is constantly striving to effect improvements in its products. This may require that changes be made from time to time with respect to the design of its products. Therefore, the Company reserves the right to affect reasonable changes of any kind without notice and to deliver revised products in fulfillment of any accepted order unless this right is specifically waived on the face of the Consumer's Acknowledgement.

JACLO prides itself in striving for design excellence and is a member of these fine industry trade associations.

NEWH

### JACLO - THINKING GREEN

JACLO Industries recognize the need to conserve water and as a company we are committed to engineering and providing eco-conscientious products that do not compromise quality or performance. Most JACLO shower heads and handshowers can be equipped with low flow 1.75 gallons/min (GPM) regulars. Actually, 1.75 GPM meets or exceeds most of today's "green" requirements. Look for the "-1.75" suffix when ordering a low flow device. For example: S456-1.75-PCH is a low flow polished chrome DIVA handshower. All JACLO showerheads and handshowers meet the flow requirements (2.5 GPM) set by the in ASME A112.18.1-2005/CSA B125.1-05 and the UPC. JACLO is also a WaterSense partner and is actively participating in the development of new water savings industry standards and technological innovations.

### ADA

In keeping with JACLO's philosophy of having a shower system to meet the needs of the broadest consumer base possible, JACLO is proud to offer many systems which meet the specific requirements outlined in the Americans with Disabilities Act (ADA).

Anything in the line can be ADA-compliant when used in the proper configuration. True to JACLO form, these are shower systems intended to cater to the physically-challenged without sacrificing design.

## OVER FIFTY YEARS OF EXCELLENCE

### CARE INSTRUCTIONS

In order to maintain the high quality finish of JACLO products, please adhere to the following product care instructions:

**Cleaning metal parts:** For routine cleaning simply use a soft damp cloth and common household soap, then rinse and dry. Proper care of your product is important because most water contains calcium that deposits on surfaces, forming unpleasant spots. This can be avoided by routine cleaning and drying after every use. Use only mild soap based detergents. Never use abrasive cleaners, bleach, disinfectants or cleaning products containing alcohol, ammonia, hydrochloric or phosphoric acids as they will damage the product finish.

**Cleaning rubber nibs:** Some JACLO showerheads and handshowers are equipped with "Easy Clean" rubber nibs. Over time calcium may build up in the nibs and diminish the performance of your shower product. Rubbing your fingers over the nibs occasionally while operating your shower product will clear the calcium build up.

**Please note:**

Your product warranty may not be valid if the above cleaning guidelines are not followed. 11/13/08 Rev. 2

### LIMITED LIFETIME WARRANTY

Your new plumbing product is warranted by JACLO INDUSTRIES, 129 Dermody Street, Cranford, NJ 07016.

This warranty is extended to original consumer purchasers only. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

The product (including the finish on the product but excluding any installation hardware not supplied by JACLO) is warranted to be free from defects in material or workmanship under normal use and service for the lifetime of the product, so long as the original consumer purchaser owns it. JACLO's sole obligation under this or any other warranty is limited to repairing or replacing, at JACLO's option, any part or parts of the product which fail to conform to such warranty. JACLO cannot warranty any living finish.

JACLO WILL NOT BE LIABLE FOR ANY CONSEQUENTIAL OR INCIDENTAL DAMAGES CAUSED BY A BREACH OF THIS WARRANTY.

Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation may not apply to you.

In order to secure warranty performance, the original consumer purchaser must (a) have the product properly installed in accordance with all installation instructions, (b) not subject the product to abuse, misuse or alter it in any way, and (c) remove the product and return it to JACLO, transportation prepaid, together with a brief description of the defect.

JACLO does not authorize any distributor, retailer or other person to modify this warranty or assume any liability on its behalf with respect to it. Any questions regarding the operation of warranty should be addressed to JACLO, Warranty Department.

Standard one year warranty applies to all commercial applications.

### JACLO RETURN POLICY

All returns must be accompanied by a JACLO Return Goods Authorization (RGA). Please contact JACLO customer service for return authorization. Once the product(s) are returned they will be subject to inspection by the JACLO returns department. Pending the results of the inspection final disposition may be one of the following:

- Full credit, i.e. Manufacturer Defect (Please see Limited Lifetime Warranty), Shipped in error and is in a resell condition
- Credit with a minimum 20% restocking fee, All other circumstances
- No credit, Product returned cannot be resold in its current condition and does not fall under JACLO's warranty

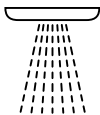

All returned items declared "No Credit" will be disposed of after 30 days from date of receipt by JACLO.  
All custom items are subject to final sale and cannot be returned for credit.

## DECORATIVE BRASS

### ALL BRASS 90° SHOWERARM

ITEM	SPECIFICS	CHROME	GROUP A	GROUP B
<b>8040</b>	½" × 8"	\$39.00	\$58.00	\$76.00
<b>8042</b>	½" × 10"	\$44.00	\$74.00	\$93.00
<b>8044</b>	½" × 12"	\$54.00	\$93.00	\$108.00
<b>8046</b>	½" × 20"	\$86.00	\$106.00	\$139.00
<b>8048</b>	½" × 30"	\$160.00	\$185.00	\$215.00

- European design
- 2" drop on 90° bend
- Ideal for rainheads
- **Custom lengths available (drop length on 90° bend may vary)**
- Long sweep pattern with escutcheon

#### How to order a custom length:

To price any custom length up to 30", use the pricing for the next longer stock length listed then add \$20.00

Example:

To price a 24" custom arm in satin nickel, use the next longer stock size length which is 30". 8048 in satin nickel at \$185 and add \$20.00 equals a List Price of \$205.00 for the 24" length.

This becomes item

8048-24-SN

For lengths longer than 30" please call for pricing and availability.

## 3/4" VOLUME CONTROLS CONTEMPORARY

### VOLUME CONTROL ROUGH

J-VC34

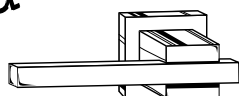

J-VC34-CART

ITEM	SPECIFICS	ROUGH
<b>J-VC34</b>	3/4" Valve rough only	\$95.00
<b>J-VC34-CART</b>	Ceramic cartridge w/ esc. nipple	\$65.00
<b>J-VC34-EXT</b>	Extension kit	\$80.00

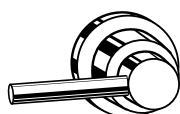

- Brass body
- One 3/4" inlet, one 3/4" outlet
- Full flow design
- Lifetime quarter turn ceramic cartridge
- 4 1/2" long stem broach notched every 1/2"
- New longer trimable stems and escutcheon nipples. Great for shallow or deep in-wall installation
- Required for thermostatic valve use

# PRESSURE BALANCE VALVES AND TRIMS WITH DIVERTER

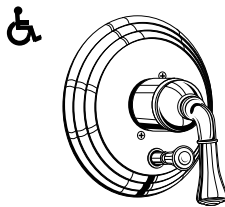

## PRESSURE BALANCE VALVE WITH DIVERTER

ITEM	SPECIFICS	ROUGH
<b>J-DIV-PBV</b>	½" Valve rough only	\$215.00

- Single handle pressure balancing (anti-scald) valve
- Integral and temperature limit stops
- Built-in diverter
- **Ceramic cartridge**
- Can switch back and forth from shower to tub without turning off water
- Non-cycling valve allows for control of water flow and temperature
- Valve does not need water pressure to operate diverter
- **Durable long life all brass diverter assembly with stainless steel spring**
- UPC-IAPMO approved
- ½" IPS or ½" copper (cc) water inlets
- **5.5 GPM AT 60 PSIG**
- **4.5 GPM at 25 PSIG**
- Can be used with showerhead and handshower combo
