

TEST PUMPS · MANOMETER · CLOG-BUSTER

A) Air-Max® Pro HV Test Pump (Part #273968)

- Larger barrel diameter - fewer strokes per inflation
- Contoured solid wood handle
- Forged steel construction for extra toughness
- 60 psi gauge with molded rubber cover
- Traditional metal thumb lock
- 3' hose with strain-relief
- Product Weight: 6.25 lbs (2.83 kg)

C) Econ-O-Pump™ Test Pump (Part #273888)

- Traditional thumb lock
- 140 PSI high-pressure gauge with protective cover
- All steel construction with cast iron base
- Product Weight: 1 lb (.45 kg)

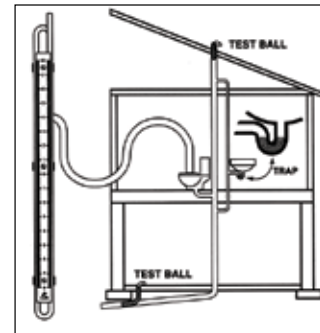

B) Air Max® Test Pump (Part # 273958)

- 100 psi gauge raised from base for protection
- Durable Steel Barrel
- Textured steel base prevents pump from slipping
- Durable, no-kink hose
- Product Weight: 3.6 lbs (1.36 kg)

Manometer (Part #010205)

- Used for testing gas lines and DWV pipe
- Measures water columns from 0" to 16"
- Reads in increments of 1/10"
- Product Weight: .5 lb (.23 kg)

CLOG-BUSTER DRAIN FLUSHER

PART NUMBER	PRODUCT DESCRIPTION
303127	1" – 2" Clog-Buster drain flusher
303135	1.5" – 3" Clog-Buster drain flusher
303143	4" – 6" Clog-Buster drain flusher
006193	Faucet adapter

Clog-Buster Drain Flusher Features:

- Unclogs drain pipes in seconds
- Simply remove aerator from faucet and attach faucet adapter
- Attaches to standard garden hose fitting
- Insert clog buster as far as possible into drain and slowly turn on the cold water - clog should dislodge almost immediately
- Eliminates need for using chemicals
