Product Overview & Guides

KleanGuard™ Personal Protective Equipment (PPE) enables rather than inhibits – allowing for maximum productivity and safety for you and your employees. KleanGuard™ A40 Liquid and Particle Protection Coveralls, with Hood & Boots, are a smart addition when offering your team comfortable protective clothing is a must. Each hooded and booted protective suit comes with a zipper front and elastic wrists and ankles. Made of breathable, microporous film to keep out debris, non-hazardous liquid chemicals and dry particulates, the KleanGuard™ A40 material gives your employees a better liquid barrier and a better particulate barrier than Dupont Tyvek. These coveralls with hood and boots pass NFPA 99 for antistatic materials, pass ASTM F1670 testing for penetration of blood and bodily fluids, and meet the ANSI/ISEA 101-1996 sizing standards. Popular industries using this product include aviation, pharmaceutical manufacturing, liquid handling, general manufacturing and so much more. Making the right Personal Protection choice is difficult. Perform with distinction with KleanGuard™ Personal Protective Equipment (PPE).

25 garments / case

KleanGuard™ A40 Liquid and Particle Protection Coveralls are made of microporous film laminate with a hood and boots, zipper front and elastic wrists and ankles

These hooded and booted coveralls offer better liquid and particulate barrier than the Dupont TYVEK

Made to keep out debris, dry particulates and liquid splashes

A40 KleanGuard™ protective suits pass NFPA 99 criteria for antistatic materials

About KleanGuard™

We understand how workers move, work, stretch and sweat. We call it human-centric engineering. And it's this industry-changing technology that separates KleanGuard® brand protective clothing, eye protection and hand protection from other PPE.
