Roman Tub Valves

Versatile. Durable. Built to perform.

Moen Roman tub valve improvements are designed for faster, more secure mounting on a wider variety of tub decks. Plus, an expanded portfolio of connection options makes installation even easier for installers of all skill levels.

Key Features and Improvements

MORE! Supply Connection Options

Moen also recognizes the increased use of PEX, cold expansion PEX and CPVC supply lines. Plumbers can now order valves designed to work directly with all types of piping — including copper. No other manufacturer offers more options.

NEW! Dura-Grip™ Mounting System

Robust engineered system where the mounting hardware components work together to prevent the valves and spout from moving after installation, while providing features that work with all types of surfaces (on both fixed and adjustable valves).

IMPROVED! Standardized Drill Holes

Only one drill bit (1¼") is needed for all spout and handle holes to further speed and simplify installation.

Brass Test Plug

All models include a brass test plug for high-pressure testing after rough-in.

Fixed Roman Tub Valve

1. Robust, Pre-Soldered Design

Set to standard 10" centers.

2. Dura-Grip™ Mounting Hardware

Improved design works with all deck materials including wood, fiberglass, tile and stone.

3. Versatile

Fits tub decks from 1/8" to 17/8" thick.

4. M•PACT® Common Valve System

Compatible 

Accepts all Moen Roman tub trim kits.

Adjustable Roman Tub Valve

1. No-Cut Adjustable Spout Shank

Loosen an expansion nut, extend and lock in place using the supplied metal tool.

2. Quick-Connect Flexible Hose

Braided PVC tube for easy connections.

3. 33/8" Rough-In Deck Thickness

Adapts to decks from 1/8" to 21/2" thick — with an additional 1/4" of available adjustability to accommodate finish materials.

4. Dura-Grip™ Mounting System

Anti-rotation bracket and spout shank assembly provide secure installation to a variety of surfaces both above and below the deck.

5. M•PACT® Common Valve System

Compatible 

Accepts all Moen Roman tub trim kits.

Wave goodbye to chores and hello to hands-free convenience.

motionsense™

Imagine the convenience of having a kitchen faucet that can sense what you're trying to accomplish and respond to what you need, the moment you need it. MotionSense™ does.

With MotionSense, you can use simple hand movements to turn the water on and off. This hands-free convenience lets you speed through everyday tasks with greater ease and efficiency. Plus, being able to use the faucet without having to touch it helps you control the spread of dirt and germs—reducing the chances of cross-contamination and minimizing the need to repeatedly clean your faucet. MotionSense debuts on the Arbor® pulldown kitchen faucet in Fall 2012.

Three ways MotionSense™ responds to you.

1. Pass your hand over the **Wave Sensor** at the top of the faucet spout. MotionSense will turn your faucet on and run water until you turn it off. Great for filling large pots and washing dishes.
2. The **Ready Sensor** detects when you place your hands or an object below the spout and supplies water only until you exit the sensor zone. That means you'll use water more wisely when you need to wash your hands or rinse a plate.
3. Use the **handle** at any time to turn on the faucet or adjust flow and temperature.

Watch MotionSense deliver convenience on command. Scan here for a video demo.

reflex™

A truly user-friendly experience.

The Reflex® system is a comprehensive collection of features and design enhancements created to optimize hose and sprayer operation on Moen pulldown and pullout kitchen faucets. Engineered specifically for each faucet type, these improvements combine to work in concert with each other—enhancing overall functionality and usability, and delivering a truly user-friendly experience.

Pulldown Faucets

EASIEST TO PULL DOWN

Compared to any other pulldown design, Reflex makes Moen pulldown faucets at least 40% easier to unlatch and extend.*

EXCEPTIONAL RANGE OF MOTION

Combined with an ultra-flexible hose, the spray wand swivels to offer a wide range of motion and effortless, natural response.

SELF-RETRACTING ACTION

Only pulldown faucets with the Reflex system will retract to the docked position from any distance without additional assistance.

Pullout Faucets

EXCEPTIONAL RANGE OF MOTION

The ultra-flexible hose enables exceptionally easy maneuverability. Select pullout models also feature a swivel joint to improve range of motion.

GENEROUS REACH

Ample hose length extends the convenience so you can accomplish more tasks in and around the sink.

SMOOTH & SECURE RETRACTION

The Reflex system ensures the pullout sprayer travels easily in and out of the faucet but holds firmly in place when not in use.

Scan code to see a video of Reflex in action.
Or visit moen.com/reflex to watch it online.

*Test measured pounds of force required for straight extraction of sprayer from spout.

Arbor® Single-Handle Pulldown Faucet / 7594
 Faucet shown in Spot Resist™ Stainless finish.

Spot Resist™ Finish

At Moen, we know that keeping your kitchen faucet free of fingerprints and water spots is an ongoing battle. It's not surprising, because the kitchen is the most used room in your home.

That's why we developed the Spot Resist Stainless finish. Spot Resist does just what it says—resists fingerprints and water spots—so you'll have one less thing you need to clean every day. This attractive finish maintains the brilliance of your faucet so you can spend more time enjoying your home ... and less time cleaning it. And when it is time for periodic cleaning, Spot Resist easily wipes clean.

MOEN® SHOWER VALVES

At-A-Glance

COMPARING AND CHOOSING A

Moen Shower Valve

Valve Options: At-A-Glance
Get the benefits your family needs.

	ioDIGITAL® Vertical spa valve	ioDIGITAL® Shower valve	ExactTemp® 3/4" Thermostatic valve	Moentrol® With multi-function transfer valve	Moentrol® Pressure-balancing volume control valve	Posi-Temp® Pressure-balancing cycling valve	Transfer Valves 2F/3F
Comfort Features							
Temperature consistency Water temperature won't fluctuate even as the hot water in your tank gets lower.	●	●	●				
Maximum-flow vertical spa experience Provides the greatest balance of force, flow and coverage in a Moen vertical spa.	●		●				
Vertical spa-compatible Add an extra showerhead, hand shower or design a complete vertical spa experience.	●	●*	●	●	●*	●*	●
Convenience Features							
Precision thermostatic control Dial up the same water temperature every day, just like a thermostat.	●	●	●				
Volume control Lets you adjust the amount of water that flows through your tub/shower from a gentle stream to full-force.	●	●	●***	●	●		
Temperature memory Dial stays in the same temperature position you last used and returns to that temperature within a few seconds.	●	●	●	●	●		
Safety Features							
Maximum temperature setting You can predetermine the hottest temperature setting before installation.	●	●	●	●	●	●	
Meets applicable pressure-balancing or thermostatic safety codes	●	●	●	●	●	●	N/A
Dependability Features							
Limited Lifetime Warranty	●**	●**	●	●	●	●	●
Easy-to-replace cartridge	N/A	N/A	●	●	●	●	●

* Must be used with three-function diverting valve [3372] or two-function diverting valve [3375] to obtain vertical spa compatibility.

** ioDIGITAL valve is warranted for 5 years against leaks, drips and operation defects to the original consumer purchaser; 1-year warranty if used in commercial applications. 5-year warranty on digital components, limited lifetime trim warranty.

*** Use with ExactTemp 3/4" volume control valves.
