### INTEGRATED TRAP

Spacious fountain design allows for the trap to be internally mounted which allows for easy access, and aids and reduces the installation process.

3/16" (.47 cm) steel mounting plate with supplied mounting hardware provides a solid unit base and allows for easy installation to a framed wall.

### CONSTRUCTION

## APPLICATIONS

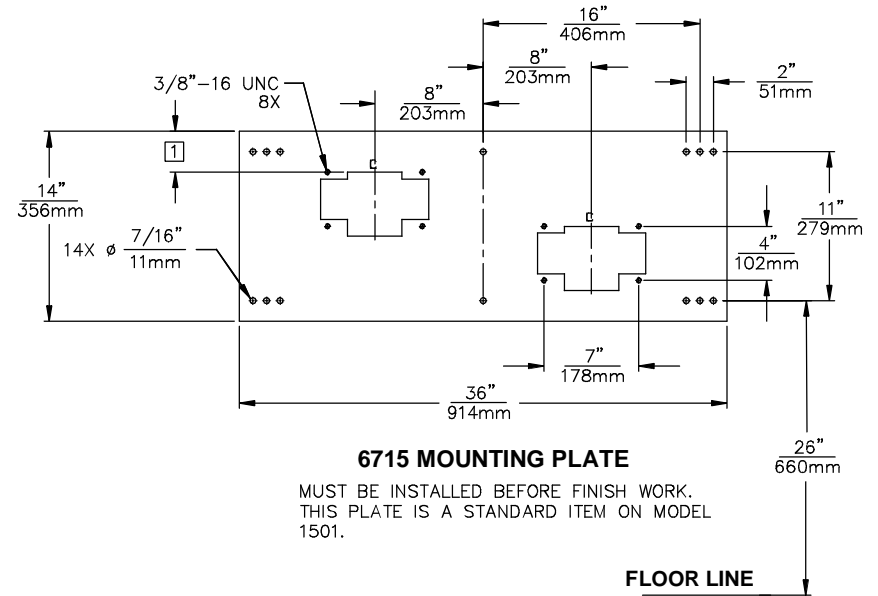

Perfect for either public or private settings, our gleaming white enameled iron series is one of the sturdiest wall mounted fountains Haws produces. This unit is the perfect fit for high traffic areas where there is a greater need for multiple drinking stations. Elegant gloss finish and color consistency throughout the enameled iron maintain the fountain's overall appeal so it always remains looking as new as it did when it was installed. Specifically, this type of wall mounted drinking fountain may be placed in settings such as: parks, schools, and other indoor/outdoor environments where the temperature remains above freezing.

Model meets all current Federal Regulations for the disabled including those in the Americans with Disabilities Act. Haws manufactures drinking fountains and electric water coolers to be lead-free by all known definitions including NSF/ANSI Standard 61, Section 9, California Proposition 65, and the Federal Safe Drinking Water Act. Product is compliant to California Health and Safety Code 116875 (AB 1953-2006).
