Information in the catalog

GF Central Plastics is as diligent as possible in compiling and updating the information in its catalog. However, GF Central Plastics does not guarantee the correctness and completeness of the information provided in its catalog. Equally, GF Central Plastics does not guarantee that this information is up to date. Drawings dimensions and weights, unless otherwise noted by tolerances, should be considered for reference only and may not reflect the exact physical measurements of the parts. For questions concerning our products, their specifications and their utilization please contact your local Regional Sales Manager or Customer Service Representative of GF Central Plastics. For comments concerning the product catalog, please email gfccentralmarketing@georgfischer.com.

Conventional Fusion: General Product Information

Due to the unique material characteristics of polyethylene, heat fusion allows successful joining of pipe and fittings into a single leak-free system with no connections to corrode or loosen.

“The basic principle of heat fusion (in this case butt, saddle or socket fusion) is to heat and melt the joint surfaces and force the melted surfaces together, which causes the materials to mix and fuse into a monolithic joint.” **AWWA PE Pipe - Design and Installation, Manual of Water Supply Practices M55**

GF Central Plastics has been actively involved in the research and development of innovative joining methods for polyethylene piping systems since the early 1960's. Recognized as an industry leader in the world of manufactured Polyethylene (PE) fittings; GF Central Plastics offers our customers the broadest and most complete line of Butt, Saddle, and Socket fusion fittings. All designed, manufactured and tested in Shawnee, Oklahoma under ISO 9001 standards and serviced by an experienced staff of the most knowledgeable and customer friendly professionals you could hope to find.

Bringing unrivaled knowledge, experience and manufacturing capabilities to industries throughout the world, GF Central Plastics delivers innovative and cost effective pipe joining solutions right to your door step. Servicing the polyethylene fitting needs in natural gas, potable water, municipal wastewater, oil and gas gathering, mining, landfill, telecommunications, geothermal, irrigation and other industries; GF Central Plastics is helping to ensure that your conventional fusion job is done right - the first time.

With an extensive and state of the art in-house testing facility, GF Central Plastics performs the following tests on all of our Butt, Saddle, and Socket fittings.

- ASTM D 1599 - Minimum Hydraulic Burst Pressure Test.
- ASTM D 1598 - Sustained Pressure Test Results.
- ASTM D638 Tensile Strength Test.
- PE3408/PE4710 Fittings are tested to the requirements of AWWA C906 (where applicable)
- PE3408/PE4710 FM Tested and Approved (where applicable)

Conventional Fusion: Butt Fusion Fittings

GF Central Plastics' Molded PE2406/PE2708 Butt fittings are manufactured and tested to the requirements of ASTM D2513 and ASTM D3261 and are sized for use with pipe conforming to ASTM D2513 and with Butt fittings conforming to ASTM D3261. GF Central Plastics' PE2406/PE2708 Butt fittings are molded from a virgin yellow medium density resin in accordance with the material specifications listed in ASTM D3350 with a designation of PE2406/PE2708. All GF Central Plastics' PE2406/PE2708 Butt Fittings are compatible for heat fusion with any pipe or fitting manufactured from a like or similar resin. GF Central Plastics' PE2406/PE2708 fittings have been qualified for fusion using PPI generic fusion procedures.

GF Central Plastics' Molded PE3408/PE4710 Butt fittings are manufactured and tested to the requirements of ASTM D2513, ASTM D3261, and ANSI/AWWA C906 for use with outside diameter controlled pipe and fittings conforming to ASTM D2513, ASTM D3035, ASTM F-714. GF Central Plastics' PE3408/PE4710 Butt fittings are molded from an NSF listed resin in accordance with the material specifications listed in ASTM D3350 with a

designation of PE3408/PE4710. GF Central Plastics' PE3408/PE4710 Butt fittings are manufactured and tested to the requirements of ASTM D2513 and ASTM D3261 (where applicable) and are compatible for heat fusion with any pipe and or fitting manufactured from a like or similar resin. GF Central Plastics' PE3408/PE4710 fittings have been qualified for fusion using PPI generic fusion procedures.

Features

- Pressure rated for natural gas and potable water applications.
- IAPMO Approved (where applicable).
- CSA Approved (where applicable).
- PE3408/PE4710 FM Approved (where applicable).
- PE3408/PE4710 fittings are tested to the requirements of AWWA C906.
- Can be joined by butt, socket, electrofusion or mechanical methods.
- Can be heat fused with all conventional and electrofusion fusion methods.

Conventional Fusion: Saddle Fusion Fittings

GF Central Plastics' Molded PE2406/PE2708 Side-Wall Tapping Tees, Service Saddles, and Branch Saddles are manufactured and tested to the requirements of ASTM D2513 and ASTM D3261 and are sized for use with pipe conforming to ASTM D2513 and with Butt fittings conforming to ASTM D3261 as applicable. GF Central Plastics' PE2406/PE2708 Side-Wall Tapping Tees, Service Saddles and Branch Saddles are molded from a virgin yellow medium density resin in accordance with the material specifications listed in ASTM D3350. All GF Central Plastics' PE2406/PE2708 Side-Wall Tapping Tees, Service Saddles and Branch Saddles are compatible for side-wall fusion with any pipe or fitting manufactured from a like or similar resin. GF Central Plastics' PE2406/PE2708 fittings have been qualified for fusion using PPI generic fusion procedures.

GF Central Plastics' Molded PE3408/PE4710 Side-Wall Tapping Tees, Service Saddles, and Branch Saddles are manufactured and tested to the requirements of ASTM D2513, ASTM D3261 and ANSI/AWWA C906 for use with outside diameter controlled pipe and fittings conforming to ASTM D2513, ASTM D3035, ASTM F-714 and with Butt fittings conforming to ASTM D3261. GF Central Plastics' PE3408/PE4710 Side-Wall Tapping Tees, Service Saddles and Branch Saddles are molded from an NSF listed resin

in accordance with the material specifications listed in ASTM D3350. All GF Central Plastics' PE3408/PE4710 Side-Wall Tapping Tees, Service Saddles, and Branch Saddles are manufactured and tested to the requirements of ASTM D2513 and ASTM D3261 (where applicable) and are compatible for side-wall fusion with any pipe and or fitting manufactured from a like or similar resin. GF Central Plastics' PE3408/PE4710 fittings have been qualified for fusion using PPI generic fusion procedures.

Features

- Pressure rated for natural gas and potable water applications.
- IAPMO Approved (where applicable).
- CSA Approved (where applicable).
- PE3408/PE4710 are tested to the requirements of AWWA C906.
- Can be heat fused to pipe wall using conventional side-wall fusion methods.
- Outlets can be heat fused using conventional and electrofusion fusion methods.

Conventional Fusion: Socket Fusion Fittings

GF Central Plastics' Molded PE2406/PE2708 Socket Fusion fittings are manufactured and tested to the requirements of ASTM D2513 and ASTM D2683 and are sized for use with pipe conforming to ASTM D2513. GF Central Plastics' PE2406/PE2708 Socket fittings are molded from a virgin yellow medium density resin in accordance with the material specifications listed in ASTM D3350. All GF Central Plastics' PE2406/PE2708 Socket Fusion Fittings are compatible for heat fusion with any pipe or fitting manufactured from a like or similar resin. GF Central Plastics' PE2406/PE2708 fittings have been qualified for fusion using ASTM D2657 generic fusion procedures.

GF Central Plastics' Molded PE3408/PE4710 Socket Fusion fittings are fully manufactured and tested to the requirements of ASTM D2513 and ASTM D2683 and are manufactured for use with outside diameter controlled

pipe and fittings conforming to ASTM D2513 and ASTM F-714. GF Central Plastics' PE3408/PE4710 Socket fittings are molded from a virgin black high density resin in accordance with the material specifications listed in ASTM D3350. All GF Central Plastics' PE3408/PE4710 Fusion fittings are manufactured and tested to the requirements of ASTM D2513 and ASTM D2683 and are compatible for heat fusion with any pipe and or fitting manufactured from a like or similar resin. GF Central Plastics' PE3408/PE4710 fittings have been qualified for fusion using ASTM D2657 generic fusion procedures.

Features

- Pressure ratings up to SDR7 on most sizes.
- IAPMO Approved (where applicable).
- CSA Approved (where applicable).
- Can be used with all socket fusion methods.

Conventional Fusion: PE Adapters

GF Central Plastics' PE3408/PE4710 Flange Adapters and MJ Adapters are manufactured and tested to the requirements of ASTM D3261 and ASTM D3261 and ANSI/AWWA C906 for use with pipe conforming to ASTM D2513/3035, F-714 and with Butt fittings conforming to ASTM D3261 as applicable. GF Central Plastics' PE3408/PE4710 Flange Adapters and MJ Adapters are molded from an NSF listed resin in accordance with the material specifications listed in ASTM D3350. All GF Central Plastics' PE3408/PE4710 Flange Adapters and MJ Adapters are compatible for heat fusion with any pipe or fitting manufactured from a like or similar resin.

Features

- Pressure rated for municipal and trial applications.
- PE3408/PE4710 FM Approved (where applicable)..
- PE3408/PE4710 fittings are tested to the requirements of AWWA C906.
- Can be heat fused using conventional and electrofusion fusion methods.
- Can be beveled for butterfly valves when requested.
- MJ Adapters can be provided with stiffeners when requested.

Flange Adapters PE3408/PE4710 IPS

FLANGE ADAPTERS: Flange Adapter PE3408/PE4710 2" IPS

- Approval: ASTM D2513
- Approval: ASTM D3261
- Approval: AWWA C906
- Approval: NSF-61

Note: Beveled for Butterfly Valves available upon request. Standard 45° bevel unless otherwise specified by customer. Due to variations in valve dimensions, the installer should verify proper function of the valve at the time of installation.

Please call for more information on availability, pricing, other sizes and dimensions.
