	<b>ADJUS-TO-WALL TYPE NO. 1 NIPPLE AND COUPLING OUTLET CONNECTION USED WITH 0100, 0200, 0300 AND 0400 SERIES SUPPORTS FOR WALL HUNG CLOSETS</b>																																									
<b>DRAWING NUMBER</b>  <b>STYPE 1</b>	<p>Smith furnishes the "Adjus-to-Wall" design outlet connection for wall hung bowl installations. Adjus-to-wall consists of a nipple and coupling arrangement whose length is specified by "C" dimension.</p> <p>"C" dimension is the measurement from the front of face plate to the finished wall. Smith has available a selection of nipple lengths which are used with the Adjus-to-Wall coupling to get the "C" dimension required. This coupling, when used with a given size nipple allows 1 1/2"(38) adjustment [3/4"(19) in and out] to compensate for finished wall line variations.</p> <p>Smith supports are regularly furnished with a 3 1/4"(83) long nipple which permits "C" dim. from 3"(76) min. to 4 1/2"(115) max. Longer or shorter nipple lengths from chart shown below.</p>
