

unique luxury

bathing systems

from our president

For over 25 years, I've dedicated myself to creating the finest bathing systems possible.

As founder and president of a family owned and operated company, I care about the same things our customers care about: beautiful bathtub designs of lasting quality; the best and latest in luxury technology; and environmentally sensitive business practices.

Some of the most prominent names in hospitality and interior retail come to us to design their bathtubs for the same reason: they know we provide the ultimate in quality, comfort and style for their clients' environments.

Whatever your design vision is, let us help you perfect this very personal space in your home. If you don't see what you need in our catalog or on our website, please call us; we're always eager to collaborate.

The options are as unlimited as your creativity.

Sincerely,
Ed Richmond
President, Americh

It all begins with you: your style, space, needs. Rather than tell you what the perfect bathtub looks like, we think it makes sense for you to tell us.

Americh provides you with a comprehensive palette of designs, sizes, water systems, features and accessories from which to choose. Our skilled craftsmen then build your bathtub to your specifications, right here in the United States. Add to the finished product our exacting environmental standards and impeccable customer service—and a unique Americh bathtub is born.

In these pages, you'll see our bathtubs in a range of spaces: from classic to contemporary, individual to shared, cozy to chic. Our customized approach produces bathtubs that fit seamlessly into any bathroom, any style, any life.

Americh luxury bathing systems. Designed and built by us; personalized by you.

WATER SYSTEMS

soaking bathtubs

Submerge yourself in an environment of profound serenity and blissful healing. Extra deep Americh soaking bathtubs provide superior heat retention, along with sensitive ergonomic designs for refined comfort.

whirlpool bathing system

Imagine the healing benefits of a deep tissue massage combined with warm circulating water. Our highly advanced hydro-massage system penetrates hidden tensions, stimulates circulation, and restores vital energy sources. Various pressure and direction levels give you personal control of your massage.

» Americh's hydro-massage jets have **the lowest profile in the industry.**

airbath® bathing systems

Airbath® II | Perimeter-placement jets

Airbath® III | Floor-placement jets

Surprise your senses with gentle bursts of warm air bubbles, invigorating your body and infusing your spirit with restorative energies. The Airbath® II system (perimeter-placed jets) also has a luxurious heated back.

An innovative way to transform a drop-in tub into a sculptural, freestanding bathtub

NEW remote control

Our new, completely waterproof remote control is ergonomically shaped, lightweight, and fully submersible. The remote attaches to the side of your bathtub with strategically placed magnets for effortless access, eliminating the need for a static control pad.

a note on sustainability

Sustainability is more than just a program to us. It is a philosophy we embrace, one that encompasses everything we do from start to finish.

Since 1982, long before “going green” became fashionable, we have implemented standard operating procedures that allow employees to easily recycle, reduce, and reuse.

This catalog was printed using soy inks on recycled paper. Printed in the USA.
