

PART NO. T17002

2" X 100' BLACK PIPE WRAP TAPE

- General purpose corrosion control tape
- Interior and exterior pipe wrapping for corrosion and mechanical protection of small diameter pipe
- Polyethylene film backing
 - Conformable and flexible
 - Excellent durability and solvent resistance
 - Withstands outdoor exposure and moisture
- Butyl rubber adhesive
 - Aggressive bond to pipe surfaces
 - Resists moisture and solvents
 - Excellent dielectric strength
 - Good performance over a wide temperature range
- Made in USA

MADE IN THE
USA

Backing: Polyethylene Film

Adhesive: Butyl Rubber

Color: Black

Typical Test Values:

	STANDARD UOM	TEST METHOD
Total Thickness	12.0 mils	ASTM D-1000
Adhesion to Unprimed Steel	40 oz/in	PSTC-101
Adhesion to Primed Steel	100 oz/in	PSTC-101
Tensile Strength	25 lbs/in	ASTM D-1000
Application Temperature	0 to 140°F	-
Operating Temperature	-30 to 140°F	-
Elongation	110%	-

Recommended Storage Conditions: 60°- 80°F at 40-60% RH
