

INSTALLATION INSTRUCTIONS

For MODEL#1430

FOR HOUSEHOLD USE ONLY, READ AND SAVE THESE INSTRUCTIONS

Please read the Installation Manual thoroughly.

Clean mirror periodically to help maintain its new appearance over the years. Use only a soft brush or lint free cloth to avoid scratching the finish.

When you begin to install the mirror, please follow the steps below.

1. Carefully unpack the new mirror and lay out all parts on a clear area. Take care not to lose any small parts necessary for installation.
2. Find a suitable height on wall, and mark the location for the wall anchors. Pre-drill holes on wall. Insert anchor (A) then thread screw (B) into anchor. If no solid backing on wall for screw to mount to, weigh your mirror, and use an appropriately sized hollow wall anchor. Follow the manufacturer's instructions. Please leave a section of the screw projecting out, and do not thread the whole screw into the wall.
3. Hang hooks (C) at the back of mirror onto screw (B) which extend out from wall.
4. The mirror is now installed!
