Our promise

Positively impacting people and how their work gets done

For 150 years, we've been there for our customers. Helping to make workplaces hygienic, safe, productive and sustainable. We deliver confidence with solutions that are as unique as your workplace through:

- **Expertise** that drives confident choices
- **Innovation**, designed to perform and protect
- **Trusted, familiar brands** that make a difference
- **Sustainability**, as responsible partners in reducing environmental impact
- And a **full product portfolio and simple structure** that makes it easy to select the right high-quality solutions for any environment.

As a trusted partner, we're here to help you grow and thrive in the years ahead. That's our promise. Partner with us to create exceptional workplaces. Because together, we'll move your business forward.

Creating hygienic workplaces with our trusted brands

Today's world of heightened hygiene requires a proactive and comprehensive approach to surface cleaning. The tools you choose are critical to maintaining a hygienic environment.

Our high-performance, trusted brands help ensure the highest levels of cleaning, sanitizing and disinfecting. Chief among

them: single-use, disposable wiping products that help minimize the risk of cross-contamination.

There's a lot of uncertainty in today's world, but there's one thing you can rely on: **our ability to deliver results for you and your people.**

Scott® is the #1 Shop Towel Brand.¹

WypAll® is the #1 disposable wipe.²

Kimtech Science™ Kimwipes® have been the industry leader for over 70 years.

Performance you can rely on. Brands you can trust.

Surveys have found that well-known brands can make a difference in people's perceptions of an environment.

That's why it's so important to choose **tested and trusted brands for your workplace.**

84% said familiar brands signal a clean and hygienic environment³

41% of decision-makers say familiar brands are more important to consumers now than before³

No matter which surfaces they come in contact with throughout their day, give your employees and visitors **greater peace of mind** by providing proven cleaning and disinfecting solutions to help **enhance your facility's level of hygiene**.

Cleaning

removes germs, impurities, dirt, grease and grime from surfaces or objects.

Sanitizing

lowers the number of germs on surfaces or objects to a safe level, as judged by public health standards or requirements.

Disinfecting

uses chemicals to kill bacteria, fungi and viruses on surfaces.⁴

Simple selection. Reliable results.

Our solutions and the value they bring to you haven't changed, but the way we've organized our portfolio has. We've simplified things to make it easier to find the right wipe for the task by aligning our portfolio with three distinct cleaning categories: GeneralClean™, PowerClean™ and CriticalClean™.

Each of these cleaning categories offers you task-specific products. In addition, we've organized our offerings around three levels: **Reliable**, **Recommended** and **Best-in-Class**.

(Refer to pages 14-15 for more information and detailed product charts to help guide your selection.)

This will help you locate the right solution at a glance. And by making selection easier, you get an efficient, effective and reliable clean every time, everywhere you work.

GENERALCLEAN™

Efficiency you can count on

Create a clean work environment with effective light- to medium-duty general cleaning solutions.

Typical tasks:

- Spray-and-wipe jobs
- Wiping counters, desktops, glass
- Personal wiping⁵
- General purpose cleaning

Quick
Absorbing

Dust & Dirt

POWERCLEAN™

Tackles the toughest tasks

Maximize performance while minimizing time, effort and product waste.

- Wiping parts and machinery
- Absorbing grease
- Applying solvents
- Low-lint surface prep
- Away-from-sink cleaning of hands

Low Lint

Durable

Absorbency

CRITICALCLEAN™

When your clean can't be compromised

Help reduce contamination risk with hygienic cleaning solutions.

- Wet wiping, using your disinfectant or sanitizer
- Reduce chemical exposure
- Cleaning food prep surfaces⁶

Disinfectants⁷

Food Surface Cleaning⁶

GENERALCLEAN™

Leave no debris behind – to make work easier, faster and more efficient.

You'll find these disposable towels in:

- Hospitality/housekeeping
- Retail/grocery
- Restaurants/cafes
- Healthcare
- Lobbies/breakrooms
- Facility maintenance
- Classrooms

Multi-Task Cleaning Cloths | X60

34790

FEATURES & BENEFITS

Scrubbing power | Water absorbency | Rag replacement

- Reinforced for extra scrubbing power
- Absorbs up to 70% more water per sheet vs. the leading branded disposable and absorbs water 2x faster than rags⁸
- 70% of customers prefer WypAll® X60 over rags to remove sticky residue/substances⁹
- Can be reused up to 5 times to help reduce waste¹⁰

TASKS

- General purpose cleaning
- Scrap rag/T-shirt replacement

Quick Absorbing

Durability

Heavy Cleaning Towels | L30

05812

FEATURES & BENEFITS

Soft | Absorbent

- A plush, soft outer layer with pockets in the inner layer to enhance absorbency
- Soft enough for personal use on hands and skin⁵

TASKS

- Wiping up spills
- Personal wiping/bathing⁵

Extra Soft

Light Cleaning Towels | L10

05320

FEATURES & BENEFITS

Light-duty | Portable | Versatile

- Transport easily to save time and effort
- Pop-Up™ Box format delivers a clean, fresh towel each time and protects your towels against contaminants
- Better drying performance than “paper” towels

TASKS

- Spray-and-wipe jobs
- Cleaning glass, tables and counters

Water & Liquids

Dust & Dirt

May be used on food contact surfaces. These products comply with applicable regulations under Title 21 of the Code of Federal Regulations (CFR) administered by the Food and Drug Administration (FDA).

WypAll® L10, L20 and Kimwipes® white wipes can be aerobically composted in municipal or industrial facilities in the United States and Canada by ASTM D6868-11. Check with your waste hauler to ensure your application and their composting process are compatible.

Meets EPA guidelines for minimum post-consumer waste content: wipes 40%

POWERCLEAN™

Tackle the toughest tasks —
from heavy-duty cleanup to lint-free
surface prep.

You'll find these in:

- Automotive
- Airline cleaning
- Transportation/rideshare cleaning
- Utility work
- Paint prep
- Forestry

Heavy Duty Cloths | X80

41055

FEATURES & BENEFITS

Maximum durability | Lowest lint | Absorbs oil & grease | Shop/Cloth towel replacement

- Durable wipes that absorb more water and oil than textile shop rags and stay strong
- Laundered shop towels have over 2x more lint than WypAll® X80¹¹
- One jumbo roll replaces up to 75 lbs. of rags¹²
- Can be reused up to 20 times to help reduce waste¹⁰

TASKS

- Cleaning abrasive surfaces
- Wiping metal shavings
- Machine, tool and part cleaning
- Absorbing industrial size spills (water, grease and oil)

Medium Duty Cloths | X70

41455

FEATURES & BENEFITS

Tackles dirt, grime | High fluid absorbency

- Cleans and tackles dirt, oil and grime
- Absorbs and releases large amounts of water
- Tough when wet to resist ripping and tearing
- A fast-absorbing, tear-resistant, premium cloth
- Can be reused up to 10 times to help reduce waste¹⁰

TASKS

- Applying solvents
- Detail and final assembly wiping
- Equipment cleaning

Extra Absorbent Towels | L40

05701

FEATURES & BENEFITS

Soft & thick | Oil & liquid absorbent

- Specially designed to absorb liquids, lubricants and oils
- A plush, soft surface with pockets in the inner layer to enhance absorbency

TASKS

- Wiping up spills large and small
- Absorbing liquids and oils

ProScrub™ Heavy Duty Wet Towels

91371

FEATURES & BENEFITS

Away-from-sink hand, tools and work surface cleaning

- Scrubby side lifts up the toughest grime and smooth side ensures nothing's left behind
- Citrus-powered cleaning formula; alcohol-free, dermatologist tested
- Extra-large 9.5" x 12" size to remove more grime
- Made in the U.S.A. (with U.S. and/or non-U.S. materials)

TASKS

- Rapid cleanup of hands, tools and workstation between jobs
- Removal of heavy grease, glue, oil, marker, paint, tar and caulk

Additional formats and colors available, see pages 24-27.

Recyclable with Wipes Recycling through RightCycle by Kimberly-Clark Professional®*

*Non-hazardous waste only as classified by federal, state and local regulations ("Non-Hazardous Waste")

May be used on food contact surfaces. These products comply with applicable regulations under Title 21 of the Code of Federal Regulations (CFR) administered by the Food and Drug Administration (FDA).

CRITICALCLEAN™

Mitigate contamination while maximizing hygiene.

You'll find these in:

- Restaurants/cafeterias/delis
- Hospitals/long-term care (LTC) facilities/medical offices
- Office buildings
- Government facilities
- High traffic locations
- Gyms

WypAll® Disinfecting Wipes

54481
U.S. Only

FEATURES & BENEFITS

Hydrogen peroxide recyclable disinfecting wipe | Friendly for people¹³, planet¹⁴ and pocketbook

- People: Kills Noro, COVID-19 & flu viruses¹⁵, attains EPA lowest human toxicity impact levels¹³
- Planet: Biodegradable H₂O₂ active, recyclable base sheet via Wipes Recycling through RightCycle™ program¹⁴
- Pocketbook: High-capacity, space-saving (squat) 185ct. canister

TASKS

- Disinfection of facilities with sensitive and/or at-risk populations (e.g., Pre-K, K-12, LTC)
- Disinfection of non-porous hard surfaces by patrons, guests and staff without gloves
- Disinfection of facilities with zero landfill waste goals

Disinfectants⁷

WetTask™ Customizable Wet Wiping System

06411

FEATURES & BENEFITS

Broad compatibility, match one substrate to multiple cleaners | Reduce chemical cost/waste with our airtight system

- #1 closed bucket system in North America from the #1 brand in disposable wipes^{16, 17}
- Step up to single-use wipes with an airtight seal that can save you at 20% in chemical costs¹⁸
- Reduce cross-contamination with single-use wipes while mitigating VOCs and inhalation risk with closed buckets
- Avoid landfill waste with fully traceable Wipes Recycling through RightCycle™ program¹⁹

TASKS

Wet wiping with your own chemical to:

- Disinfect non-critical medical devices with wet wipes⁷
- Sanitize food-contact surfaces with wet wipes⁷
- Disinfect non-porous hard surfaces with wet wipes⁷

Compatibility

Low Lint

Heavy Duty Foodservice Cloths

05925

FEATURES & BENEFITS

High absorbency | Durability & scrubbing | NSF® certified

- Absorbs 25% faster than the leading competitive disposable wipes²⁰
- Durable, absorbent cloths stay strong for cleaning and sanitizing
- Cloths clean without leaving residue, unlike rags

TASKS

- Cleaning and wiping tables
- Wiping food prep areas
- Cleaning food counters

Food Surface Cleaning

Recyclable with Wipes Recycling through RightCycle™ by Kimberly-Clark Professional®

⁷Non-hazardous waste only as classified by federal, state and local regulations ("Non-Hazardous Waste")

A range of effective solutions.

GENERALCLEAN™ | **POWERCLEAN™** | **CRITICALCLEAN™**

Once you've determined the cleaning category and task you want to tackle, the next step is to select the degree of wiping effectiveness. For each category, we offer three levels of clean to help you identify the solution that best fits your needs.

WIPES RECYCLING THROUGH

By Kimberly-Clark Professional®

Help protect our future one wipe at a time

through the 1st and only manufacturer-led, large-scale wipes recycling program in North America²⁴

Eligible Wipes Codes

06411, 77320, 06471,
54481, 91371, 58310,
91367, 33330, 33390

Disposable wipes offer an effective, convenient and hygienic option for cleaning and disinfection, with one drawback – they are discarded after use.

That's changing with the addition of a wide range of disposable wipes to the Kimberly-Clark Professional B2B wipes recycling program. Now a number of popular lines are recyclable from CriticalClean™ WetTask™ Wipes and PowerClean™ ProScrub™ Towels to WypAll® Disinfecting Wipes and W4 Dry Wipes.²⁴

This type of solution is needed now more than ever:

66% of B2B cleaning supplies buyers say **reducing the environmental impact** of their hygiene products already **guides their decision-making**.²⁵

Two-thirds of B2B wiping solutions buyers say **environmental benefits play a significant role** in their purchasing decisions.²⁶

#1 Environmental Benefit. Out of a wide range of environmental benefits, the **#1 environmental benefit** among B2B wipes buyers is **recycling of wipes**.²⁷

 Kimwipes® Delicate Task Wipes can be aerobically composted in municipal or industrial facilities in the United States and Canada by ASTM D6868-11. Check with your waste hauler to ensure your application and their composting process are compatible.

Manufactured in
accordance with quality
System ISO 9001:2015

Kimtech Science™ Kimwipes®
Industry leader for over 75 years

Engineered for contamination control. Suitable for highly sensitive surfaces.

Kimwipes® Delicate Task Wipes are the trusted choice for universities, government labs, advanced manufacturing, and medical facilities looking to reliably clean up liquids, dust and small particles from sensitive surfaces and delicate devices.

Made in the U.S.A.
with U.S. and/or
Non U.S. materials
for steady supply

Designed for delicate tasks, these wipes provide:

Fiber Quality — Silicone-free³⁴, 100% virgin cellulose wipes to mitigate lint and contaminants.

Protective Packaging — Poly shield opening helps ensure one-at-a-time wipe dispensing while minimizing electrostatic risk.

Custom Configuration — Available in three sizes along with three different plies to meet your specific needs.

Sustainably Made — Kimwipes® are certified by the Forest Stewardship Council (FSC®) and made with 100% renewable grid electricity.³⁵

Meltblown WetTask™ System	✓	✓	✓	✓
Spunlace WetTask™ System	✓	✓	✓	✓

✓ Compatible

Soaking the wiper in the chemical prior to use will not diminish the efficacy of the chemical. The wiper is chosen based on suitability for use with the specific type of chemistry.

✗ Not Compatible

Soaking the wiper in the chemical could result in reduction of the active ingredient and diminish the efficacy of the chemical. The chemical could have an adverse effect on the structure of the wipe causing it to breakdown prematurely in use, diminishing the performance of the wipe.

Full saturation

Dry wipe is saturated in chemical liquid

Chemical ^{32, 33}	Soap/ Detergent	Quats	Bleach	Hydrogen Peroxide	Peracetic Acid	Methyl Ethyl Ketone	Isopropanol	Acetone

Technology Descriptions

WypAll®, Kimtech™ & Scott® basesheets

Technology	Description
Hydroknit®	A process known as hydroentangling that bonds cellulose fibers into polypropylene nonwoven webs through the use of high-pressure water jets that strike the webs in an agitating motion, causing the fibers to become entangled. The cellulose provides absorbency. The nonwoven provides strength.
DRC	Our DRC (Double Re-Creped) basesheet technology produces a plush, soft surface with pockets in the inner layer to enhance absorbency. The tissue provides the softness and water absorbency; the latex delivers oil absorbency and adds wet strength vs. a paper towel.
LDC	Light Dry Creped: conventional tissue manufacturing. Textured for extra cleaning power; multi-ply for strength and absorbency.
UCTAD	Uncreped Through Air Dried: manufacturing process that creates high-level absorbency and mid-level wet strength.
Meltblown	A nonwoven process that extrudes polymer resins to form fine filaments. Compatible with most common disinfectants containing actives ingredients such as quats, bleach, hydrogen peroxide and peracetic acids.
Spunlace	A process known as hydroentangling that bonds natural or synthetic fibers into nonwoven webs through the use of high-pressure water jets that strike the webs in an agitating motion, causing the fibers to become entangled. The natural or synthetic fiber provides absorbency. The nonwoven provides strength.

Our promise Sustainability

We're your **responsible partner** in sustainability and we're proud of our industry-leading performance in environmental impact.

- 100% of grid electricity used to make WypAll® L and X series wipes is offset by wind energy³⁵
- 95% of our North American manufacturing and office waste was diverted from landfills in 2022
- WypAll® L10 and L20 series white wipes meet EPA guidelines for minimum post-consumer waste content
- Select CriticalClean™ WetTask™ Wipes, PowerClean™ ProScrub™ Towels, WypAll® Disinfecting Wipes and W4 Dry Wipes are recyclable through the Wipes Recycling through Rightcycle™ program.
- 100% of fiber used to make WypAll® Wipes is sustainably sourced

When you choose Kimberly-Clark Professional, you're choosing a partner who not only values your business and customers, but also the world we share.

*Non-hazardous waste only as classified by federal, state and local regulations ("Non-Hazardous Waste")

For more information on how to make your facility truly exceptional – a place where everyone feels equipped and empowered to contribute to a more hygienic environment – visit us online at www.kcprofessional.com (US) or www.kcprofessional.com/en-ca (Canada).

Try it. Risk-free.

Replace your current wiping products with Kimberly-Clark Professional solutions for 60 days. If you don't see a 20% cost savings, we will reimburse you the difference between the cost of your product and our product up to \$1,000. Guaranteed![‡]

- 12 Based on 2023 comparison study of X80 Jumbo Roll vs. 75lbs. box of rags.
- 13 Category IV formulas meet the lowest EPA-defined toxicity levels for ingestion, inhalation, and eye and skin contact (e.g., WypAll® Disinfecting Wipes)
- 14 WypAll® Disinfecting Wipes have an active ingredient that breaks down into water and oxygen, and are eligible for recycling through the RightCycle by Kimberly-Clark Professional® program that diverts wipes from landfills, transforming them into new goods after use as long as they are non-hazardous as classified by federal, state, and local regulations.
- 15 Disinfects against Norovirus, SARS-Related Coronavirus 2 [cause of COVID-19], Influenza A Virus/H3N2
- 16 Based on 2019 and 2021 market share data in U.S. and Canada
- 17 Based on 2021 U.S. and Canada market data of WypAll® WetTask™ versus other closed bucket systems with wipes rolls designed for full saturation in chemical solution
- 18 Guarantee extended to consuming end-user accounts with the following restrictions: Replace your current wiping system with Kimberly-Clark Professional Wiping Solutions for 60 days and see a 20% savings on chemical costs. The maximum amount that Kimberly-Clark Professional will pay out under this program is \$1,000 per customer facility.
- 19 Cited codes are eligible for recycling so long as after use they are non-hazardous as classified by federal, state, and local regulations.
- 20 Based on 2020 quantitative absorption test of WypAll® SKUs versus those of leading competitors.
- 21 Lint-free in industrial single use non-abrasive applications. Single use cloth tested by Gelbo Lint test for particles >50 microns.
- 22 Based on 3rd party research, WypAll® Packaging Global Study, August 2020
- 23 Based on July 2022 KCP audit of widely distributed customizable Wet Wipes Systems in North America using publicly available information of manufacturer websites to determine the number of SKUs offered. SKU counts include both wipes finished goods and accessories.
- 24 Based on July 2023 KCP audit of well-known Wet Wipes brands in North America using publicly available information gathered from online search engines and manufacturer websites. WetTask™ wipes can be used with EPA-registered disinfectants according to label instructions.
- 25 Ipsos – Kimberly-Clark eHRT B2B, March 2021.
- 26 3rd party quantitative research study, B2B Wiping Solutions market, December 2022.
- 27 3rd party quantitative research study, B2B Wiping Solutions market, six different environmental benefits tested, December 2022.
- 28 Base sheet contains less than 15 PPM of silicone oil.
- 29 Compared to the leading value brand kitchen paper towel.
- 30 Compared to Scott® Shop Towels Original™.
- 31 Compared to the leading kitchen paper towel per Gelbo Lint Test.
- 32 Follow manufacturer's instructions for chemical application and dwell time.
- 33 Because bleach tends to destabilize, compatibility testing period was limited to 24 hours to reflect the usage instructions recommended by the bleach manufacturer.
- 34 Base sheet contains less than 15 PPM of silicone oil.
- 35 100% of Kimberly-Clark Professional N.A. grid electricity has been offset through the creation of wind farms in Texas.

* Non-hazardous waste only as classified by federal, state and local regulations ("Non-Hazardous Waste")
