

060704A – Hardwire Transformer

RP32508 – Hardwire Transformer

SPECIFICATIONS

General: Supplies power for up to ten Delta Commercial 590 HDF or 860T Series, up to five 3000T, 1500T, 590T, 590TP, 591T, 591TP, 1600T, 81THW, DEMD, 600T, 620TP or 630TP electronic units already converted to hardwire

Input Voltage: 120 VAC @ 60 Hz

Output Voltage (unloaded): 24 VAC \pm 3% @ 20 VA

Maximum Output Current: 800 mA

Physical Connections: Universal Mounting Clip

Terminals: Screw Type

Safety Approval: UL Listed Class 2
CSA Certified

RP32508

RP32856 – Plug-In Transformer

SPECIFICATIONS

General: Supplies power for up to ten Delta Commercial 590 HDF or 860T Series, up to five 3000T, 1500T, 590T, 590TP, 591T, 591TP, 1600T, 81THW, DEMD, 600T, 620TP or 630TP electronic units already converted to hardwire

Input Voltage: 100-240 V @ 50-60 Hz

Output Voltage (unloaded): 12 VAC \pm 5% @ 24 VA

Maximum Output Current: 2 A

Operating Temperature Range: 0°C to 45°C

Physical Connections: Plug-In Connection

Terminals: Screw Type

Safety Approval: UL Listed Class 2
Efficiency Level VI
FCC

RP32856

060771A – Hardwire Transformer

SPECIFICATIONS

General: Supplies power for up to ten 3000T, 1500T, 590T, 590TP, 591T, 591TP, 1600T, 81THW, DEMD, 600T, 620TP, 630TP

Input Voltage: 120 V

Output Voltage (unloaded): 24 VAC

Maximum Output Current: 1.67 A

Physical Connections: Universal Mounting Clip

Terminals: Screw Type

Safety Approval: UL Listed Class 2
CSA Certified

060771A

060683A – Hardwire Converter

SPECIFICATIONS

General: Converts Delta Commercial 590, 591 and 592 Series battery electronic faucets to hardwire

Input Voltage: 24 VAC @ 60 Hz

Output Voltage: 6.4 VDC \pm 5%

Maximum Output Current: 150 mA

Operating Temperature Range: -55°C to 85°C

Physical Connections: #22 AWG Stripped Primary Connection / 9 VDC Snap Secondary Connection

Wire Size: #22 AWG

Wire Length: 18.0"

Wire Ends: Strip length of wires should be 0.375" typical

060683A
