

Flush Mechanical Cleanout Repair Plug

The TEST-TITE® Flush Cleanout Repair Plug is designed for use in cast iron fittings where threads have been damaged. The unique design of this product seals behind the threads to provide an air tight seal in all brands of fittings.

Why try to seal here on bad threads?

... when you can seal here on a smooth surface!

- The first cleanout repair plug that really works!
- Holds up to 50 feet of backpressure!
- Seals air tight! (Does not rely on threads to seal.)
- Back pressure actually increases sealing ability!
- Completely flush inside and out!
- Stainless Steel flat head screw!
- Cannot fall into the pipe!
- Comes with wrench!
