BUILT WITH AMERICAN PRIDE

American-made is definitely a selling point that influences consumers' purchasing decisions. In fact, almost 8 in 10 American consumers said they would rather buy an American-made product than an imported one. And more than 60 percent say they're even willing to pay 10 percent more for it.¹ Many Frigidaire® appliances are designed, assembled and engineered in the U.S.A. Did you know that 1 out of every 3 cooking products, 1 out of every 2 top freezer refrigerators and 3 out of every 5 freezers in America are made by Electrolux Major Appliances?

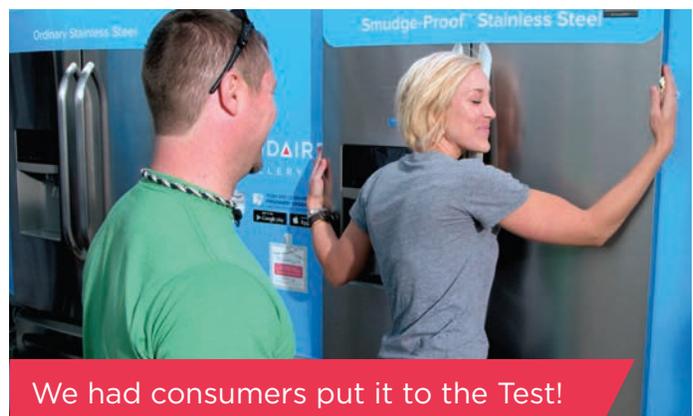

¹Taken from an article published May 21, 2015 by Consumer Reports.

SMUDGE-PROOF™ STAINLESS STEEL

We use high-grade stainless steel coated with layers of polymers. The end result: a sleek, beautiful stainless steel finish that is both durable and resistant to fingerprints. Smudge-Proof™ Stainless Steel finish is available on the entire Frigidaire Gallery® Collection.

Induction Cooking and How it Works

Unlike radiant electric or gas, induction cooktops utilize powerful magnets to create heat directly in metallic-based cookware. Once the pan is on the cooktop surface, magnetic sensors detect the cookware and automatically adjust to the size of the pan.

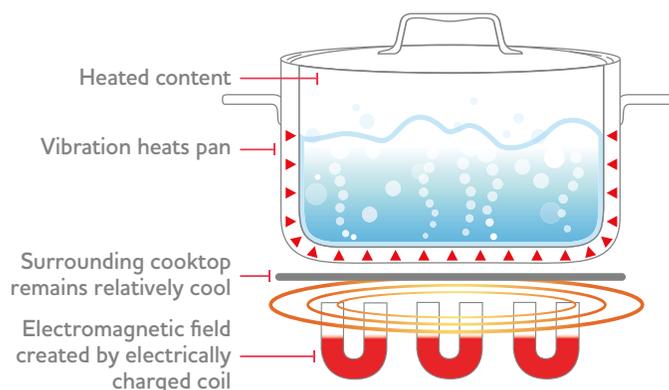

The Science Behind Induction Cooking

Copper coil creates a magnetic field.

When an electric current passes through the coil located below the cooktop's surface, it creates an electromagnetic field of energy.

Pan uses energy to produce heat.

When a magnetic pan is placed on the induction cooktop, energy goes directly into it, bypassing the surface. This causes the iron atoms in the cookware to vibrate, which creates heat. When the atoms vibrate slowly on lower settings it is perfect to cook chocolates and other delicate foods. When the atoms vibrate rapidly on higher settings, creating more heat, consumers can cook foods quickly. This is how the pan is creating the heat needed to cook food, not the surrounding cooktop.

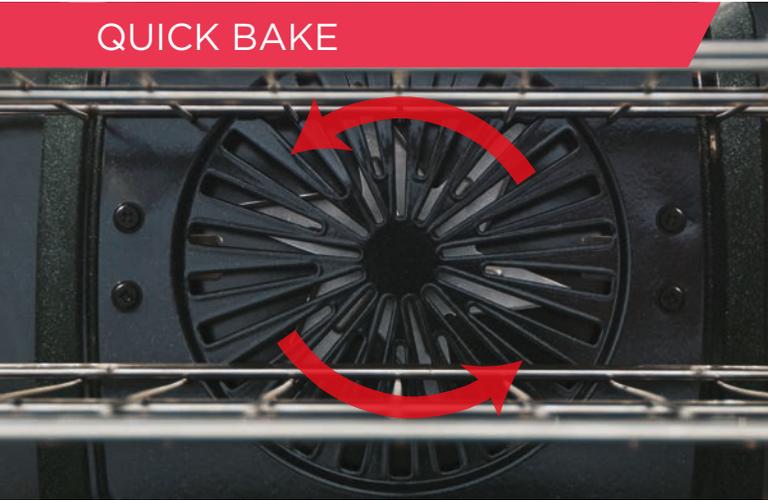

COOKWARE TEST

Use a magnet to test cookware for compatibility. Simply place the magnet on the bottom of the cookware, if it sticks, it will work on the induction cooking surface.

QUICK BAKE

Convection Cooking and How it Works

Quick Bake

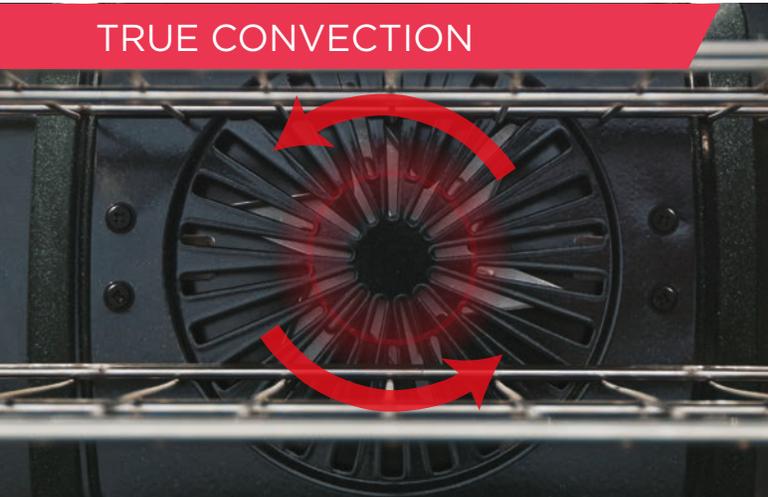

Quick Bake uses a fan in the rear of the oven to circulate air throughout the entire oven cavity. Bake and broil elements are both used for heating. Quick Bake creates more even heat distribution for even baking results across all the racks, and allows for stacking of pans rather than having to stagger them. This convection system may reduce cooking time. Time and temperature adjustments are done manually.

True Convection

True Convection uses the same fan in the rear of the oven, but adds a third element assist around the fan and convection conversion on the clock. Third element assist will now add more browning capability by placing a heating element closer to the food.

Use the Convection Conversion function to automatically adjust time and temperature from a regular recipe to convection.

TRUE CONVECTION

Self-Clean Ovens

Most of our wall ovens and ranges feature a Self-Clean cycle. This is a great time-saving benefit to the consumer, as it gives them the ability to keep a clean oven without having to scrub it themselves. If an oven is kept clean, it prevents spills from burning into the oven surface, and will also reduce odors when baking.

After a self-clean cycle is complete, the baked-on spills are reduced to a fine powdered ash that can just be wiped away with a damp cloth.

Type of Self-Clean Cycles:

Quick Clean - just two hours to a clean oven.

Steam Clean Ovens

Steam clean uses steam to loosen baked on spills and grease.

How to Use the “Steam Clean” Option

1. Remove the racks from the oven.
2. Wipe loose debris from the bottom of the oven.
3. Pour 8 ounces of distilled or filtered water onto the oven bottom.
4. Press the Steam Clean icon on the control panel. (“StCn” will appear in the control panel.)
5. After the cycle is completed, wipe the oven cavity and it’s ready to use.

RANGE EDUCATION

Choosing a Range

Range Type Comparison

The most versatile of ranges, freestanding ranges can be installed with or without surrounding cabinets. The sides of freestanding ranges are finished, so they can be placed on the end of a cabinet.

Front control ranges have the controls located on the front of the unit for a modern look and feel.

Rear control cooking ranges have the control panel located on the backsplash of the range, above the cooking surface which is ideal for keeping buttons and knobs out of range for small children.

For a built-in look, choose a slide-in range. These sit flush with cabinets and backsplash for a seamless design. Slide-in ranges must be surrounded by cabinets. They can also be placed in an island kitchen layout, as long as cabinets are on either side of the range.

COOKTOP EDUCATION

Choosing a Cooktop

Options abound in the line of cooktops, so consumers can choose what fits their needs, space and budget. Multiple sizes, element or burner configurations and designs offer the ultimate in flexibility.

36" COOKTOPS

The 36 inch cooktops provide five burner or element sizes for the ultimate in cooking flexibility.

30" COOKTOPS

These smaller footprint cooktops feature four burners or elements. For added flexibility in smaller spaces, a 30 inch cooktop with five burners or elements fits the bill.

COOKTOP PAIRINGS

With a Ventilation Hood

The performance of a ventilation system is measured in cubic feet per minute (CFM). The higher the CFM, the more air the hood can remove in one minute of operation. Size, fuel type and the number of elements/ burners the customer uses at one time all affect the choice of a ventilation hood. The ventilation requirement for electric cooktop is lower (200 to 450 CFMs) while a gas cooktop may need 600+ CFMs. Gas CFMs are usually based on the following math: total BTUs available for the cooktop divided by 100.

With a Single Wall Oven

Frigidaire® cooktops can be installed above any of our Single Electric Wall Ovens.

BUILT-IN OVEN EDUCATION

Frigidaire® Fit Tool

The New Frigidaire® Fit Tool Saves Consumers Time Finding the Right Wall Oven!

With the Frigidaire® Fit Web Tool we provide the easiest replacement solution in the industry.

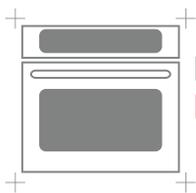

It is a great resource for the customer looking to replace or remodel.

If they need to fit a new wall oven into an existing cabinet, simply type in the model number of their existing appliance and the tool will list the available Frigidaire® models that fit their current cutout dimensions without requiring cabinets to be cut.

Frigidaire® Fit Promise

We simplify the built-in cooking shopping process for the retail salesperson and reduce the chance of returns.

With the Frigidaire® Fit Promise we provide peace-of-mind to the consumer. On the rare occasion that a fit issue does arise, our Frigidaire® Fit Promise reimburses the consumer up to \$300 toward the cost of professionally modifying their cabinet, so we ease their concerns about unexpected installation expenses! Not only does it provide peace-of-mind for a consumer, but it provides retail associates with the confidence that our 27 inch and 30 inch wall ovens will stay sold.

**FRIGIDAIRE FIT
PROMISE**

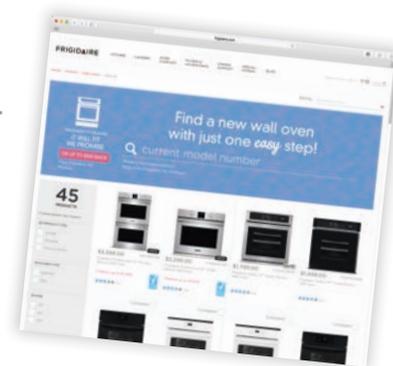

How Does it Work?

Go to: [The Frigidaire Fit Tool at Frigidaire.com](https://www.frigidaire.com)

It's so easy — you can do it in 3 Steps...

1. Enter the model number of the wall oven the consumer is replacing (regardless of brand).
2. Click 'Go.'
3. View the Frigidaire® Wall Ovens that fit the consumer's space.

It's also available for integration on retailer websites.

VENTILATION EDUCATION

Choosing a Ventilation Hood

Cooking produces grease, moisture, heat and smoke that can take a toll on cabinets and walls over time. Pair a ventilation hood with a cooktop or range for maximum odor removal and ventilation.

UNDER CABINETS

WALL MOUNT

ISLAND MOUNT

Total Cooking Surface BTU Output

The burners on a gas cooktop surface produce a lot more heat than those on an electric, so a kitchen with a gas cooktop requires a larger capacity ventilation hood.

To calculate the fan size needed for a gas cooktop surface, combine the BTU ratings for all the burners, then divide by 100 to find the minimum CFM needed.

EXAMPLE

$$40,000 \text{ BTU gas cooktop} \div 100 = 400 \text{ CFM ventilation hood or higher}$$

Ventilation Hood Pairing

Throughout this book, look for the purple ▲ or yellow ▲ triangle beside the model number to ensure you're pairing the correct ventilation hood with the BTU output of the gas cooktop surface. For specific model number pairings, refer to the following list:

0-48,500 BTUs

48,501-56,500 BTUs

Recommended Ventilation Hoods

▲ FHWC3025M	▲ FHWC3655L	▲ FHWC3050R	▲ RH36WC55G
▲ FHWC3625M	▲ FHWC3060L	▲ FHWC3650R	▲ RH30WC60G
▲ FHWC3040M	▲ FHWC3660L	▲ FH36DD50M	▲ RH36WC60G
▲ FHWC3640M	▲ FHPC3660L	▲ FH30DD50M	▲ RH36PC60G
▲ FHWC3055L	▲ FHPC4260L	▲ RH30WC55G	▲ RH42PC60G

CFM KNOWLEDGE CENTER

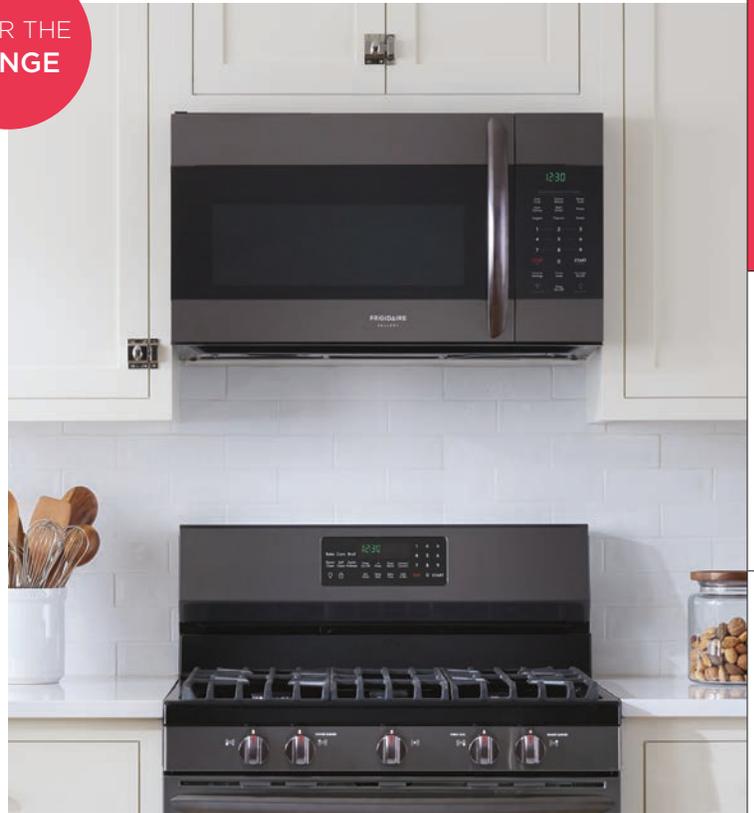

- The power or air movement for ventilation hoods is measured in CFM (*cubic feet per minute*). Choosing a range hood with higher CFM results in more air being moved out of the house, a plus for removing smoke and bad odors.
- For cooks that do a lot of heavy cooking with steam or strong odors, recommend a ventilation hood with at least 350 CFM.
- For high-output gas ranges or cooktops, the minimum rate of 1 CFM of ventilation per 100 BTU is recommended.

MICROWAVE EDUCATION

Choosing a Microwave

Over-the-range microwaves install above cooking surface area, whether a range or a cooktop, and double as a ventilation hood — two appliances in one space! Best for smaller kitchen spaces.

OVER THE RANGE

Built-in microwaves can be installed in any wall space in the kitchen. Work well when paired with a wall oven and/or warmer drawer for a full cooking center.

CONVERTIBLE EDUCATION

Two Products in One - Easily converts from a refrigerator to a freezer

Why Sell a Convertible?

Be sure to sell the benefits of a convertible:

The flexibility of the all-refrigerator option for special occasions, bulk storage of fruit or case drinks in the summer.

Then being able to switch to the all-freezer option to keep veggies frozen in the fall, or back to all-refrigerator for bulk food and dish storage during year-end holidays.

REFRIGERATION EDUCATION

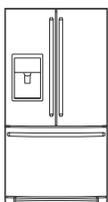

Choosing a Refrigerator

Consider the Space

When talking with a customer, help them decide which model is best for them by narrowing down options and asking open-ended questions to identify their needs and wants. Keep in mind new construction or remodeling customers may have considerable flexibility regarding the appliance size they can fit. The replacement customer is generally more constrained by existing space.

If replacing current refrigerator, measure the space of the cabinetry opening. Where is the freezer being placed – garage or laundry room?

Types of Refrigerators

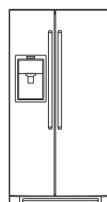

French Door

Full-width refrigerator with plenty of space for wide items and a deep freezer drawer with storage baskets.

Convertible

Offers an easy view of contents with full-width shelves and bins in the door.

Side-by-Side

Parallel freezer and refrigerator with a simultaneous full view of both when opened.

Built-In Refrigerator & Built-In Freezer

Full width for increased capacity. Create a built-in look by adding a trim kit.

Top Freezer

These refrigerators have a freezer compartment on the top and a refrigerator on the bottom.

REFRIGERATION EDUCATION

Choosing a Refrigerator

Counter Depth vs. Standard Depth

Counter Depth

Saves over 4 inches of kitchen space and creates a sleek custom finish in the kitchen, without losing usable shelf space.

Standard Depth

Offers additional storage volume and may extend 4 inches (or more), into the kitchen space beyond the cabinets and countertop.

Cleaning Performance

How Is OrbitClean® Better?

Explain to Customers — The Difference in Spray Arms.

Traditional spray arms distribute water in a simple circular pattern with fixed jets.

Our OrbitClean® Spray Arm rotates throughout the tub, distributing water to the toughest spots on dishes to achieve a more thorough clean and rinse. The moving wash zone along with AquaSurge™ Technology (which adjusts water pressure based on washing needs) combine to set the OrbitClean® model apart from others.

30-Minute Fast Wash

A Wash That is Really Quick!

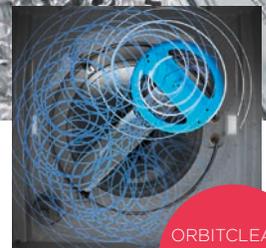

The 30-Minute Fast Wash utilizing the OrbitClean® wash arm enables customers to fully wash a full load of dishes. This way when they entertain — they can clean twice the amount of dishes in the same time that their previous cycle took to do one load.

AquaSurge™ Technology

Water pressure adjusts 30% above normal for extra-dirty pots/pans and 30% below normal for gentle cleaning of fine china.

BUILT-IN COOKING

Key Features

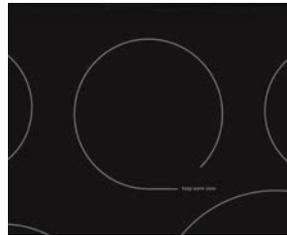

Even Bake Technology

Get great tasting, even results with our Even Baking Technology.

One-Touch Self Clean

Your oven cleans itself - so you don't have to. Self clean options available in 2, 3 and 4-hour cycles.

Keep Warm Zone

Keep food warm until everything — and everyone — is ready.

Vari-Broil Temperature Control

Allows you to choose between two heat levels.

Delay Clean Option

Set your oven to begin cooking on your schedule. It can be programmed from 1 to 24 hours.

Quick Boil

Get meals on the table faster with quick boil elements or burners — water boils quicker than the traditional setting.

Delay Start Baking Option

Set your oven to begin cooking on your schedule. It can be programmed from 1 to 24 hours.

Oven Rack Handles

Oven racks are designed with space for you to easily pull out the racks, even when wearing an oven mitt.

Timed Cook Option

Lets you set the oven to begin cooking at a predetermined time.

Auto Shut-Off

As an extra safety measure, the oven will automatically shut off after 12 hours.

A.D.A. Compliant

Frigidaire® offers products that, when properly installed, are A.D.A.-qualified based on the United States Access Board's A.D.A./A.B.A. Accessibility Guidelines and the Department of Justice's 2010 A.S.A. Standards for Accessible Design.

Bright Lighting

Our bright lighting makes it easy to see what's inside.

REFRIGERATION

Key Features

PureSource Ultra® II Water Filtration

Discover how our genuine filtration works to keep your water cleaner. PureSource Ultra® Water Filters remove 99.3% of lead and 99.9% of cysts from your water.

Store-More® Door Bins

Our gallon-size bins are designed to store more, so you can easily fit a gallon of milk or two liter bottles.

PureAir® Freshness Booster™

Keep that fresh-from-the-garden taste. Produce stays fresher longer with the PureAir® Freshness Booster™.

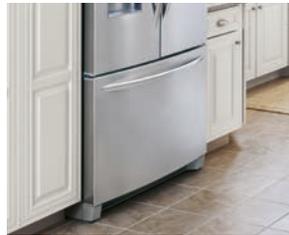

Chill Drawer

Cold air from the freezer is used to quickly cool food and drinks. Includes temperature control settings.

Cool Zone® Drawer

Extends completely and provides space to easily store anything from sheet cakes and large platters to snacks and juice boxes.

Counter-Depth Design

Saves over 4 inches of kitchen floor space without losing valuable shelf space.

Self Closing Doors

Maintain your desired temperature in the refrigerator while never worrying about accidentally leaving the door open.

Adjustable Interior

Shelves and door bins can be moved up or down to easily accommodate for taller items.

Multi-Level Lighting

Corner-to-corner LED lighting throughout.

Store-More™ Humidity-Controlled Crisper Drawers

Designed to keep fruits and vegetables fresh so they last longer.

FRIGIDAIRE
GALLERY.

Practical never looked
so *stylish.*

Our Frigidaire Gallery® product line offers a variety of innovations so customers can spend more time doing things they love.

FREESTANDING COOKING

Key Features

True Convection

Single convection fan with surrounding heating element circulates hot air throughout the oven for even baking across multiple racks up to 30% faster.

Quick Preheat

Uses convection fan and heating elements to quickly get the oven up to temperature in just a few minutes.¹

Effortless™ Temperature Probe

Oven will alert when selected temperature is reached and switch over to Auto Keep Warm at 170° F until ready to serve.

Temperature Precision

With induction, heat adjustments are incredibly precise — especially at low temperatures. It's ideal for melting or keeping sauces and chocolate warm.

Easy to Clean

Don't stress over spills with induction's easy-to-clean surface that generates heat only to your pan, not your cooktop, meaning spills can't burn onto the surface.

Smudge-Proof™ Stainless Steel

High-grade stainless steel coated with layers of polymers for a stainless steel finish that is both durable and resistant to fingerprints.

Quick Bake Convection

Uses a fan in the rear of the oven to circulate air throughout the entire oven cavity, for more even heat distribution and even baking results.

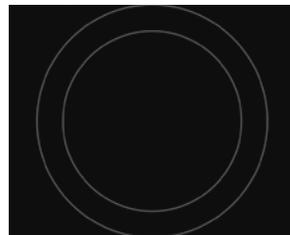

PureAir® Microwave Filter

Keep the aromas you love and less of what lingers with PureAir® Microwave Filter that removes 10 times more cooking odors than standard Frigidaire® filters. Available in Over-the-Range Microwave only.

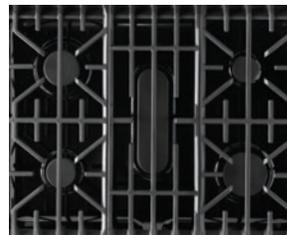

Effortless Clean Interior

Easily wipe away and clean spills from your microwave with the Effortless Clean Interior surface. Available in Over-the-Range Microwave only.

SpaceWise® Expandable Elements

Convenient element on electric cooktop surfaces that expands (6"-9", 9"-12" or 6"-9"-12") to fit pan size and increases wattage to fit your cooking needs.

CustomFlex™ Cooktop with Griddle and Oval Burner

Evenly heat and cook pancakes, hamburgers, or quesadillas on the CustomFlex™ cooktop that includes a center oval burner and separate griddle grate.

Steam Oven Cleaning

A light manual clean cycle that's chemical-free, odor-free and fast.

BUILT-IN COOKING

Key Features

True Convection

Single convection fan with surrounding heating element circulates hot air throughout the oven for even baking across multiple racks up to 30% faster.

Quick Preheat

Preheat in just a few minutes¹ with a third heating element and convection fan so you can start baking faster.

Effortless™ Temperature Probe

Oven will alert when selected temperature is reached and switch over to Auto Keep Warm at 170° F until ready to serve.

Effortless™ Convection Conversion

Takes the guesswork out of convection cooking — our ovens automatically adjust standard baking temperatures to convection temperatures for consistent results.

Temperature Precision

With induction, heat adjustments are incredibly precise — especially at low temperatures. It's ideal for melting or keeping sauces and chocolate warm.

Easy to Clean

Induction heats the pan, not the cooktop. Spills don't burn on! Since the cooktop doesn't get hot, spills won't burn or scorch — so cleanup is quick and easy.

Smudge-Proof™ Stainless Steel

High-grade stainless steel coated with layers of polymers for a stainless steel finish that is both durable and resistant to fingerprints.

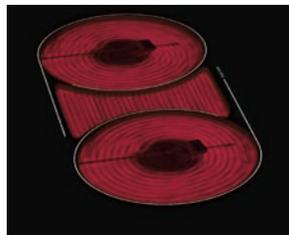

Quick Boil

Brings a large pot of water to boil by raising the power up to 3,000 W for up to 10 minutes. Also available on gas models with 15,000 BTU (or higher) burners.

SpaceWise® Expandable Elements

Convenient element expands (6", 9" and 12") to fit your pan and increases wattage to fit your cooking needs.

Bridge Element

Two elements are bridged together to create one element that is perfect for irregularly shaped pans such as a griddle.

2-in-1 Convection Oven or Microwave

Bake and brown like an oven and cook at microwave speed, all in one.

Continuous Corner-to-Corner Grates

Make it easy to move heavy pots and pans without lifting.

REFRIGERATION

Key Features

Stackable Crispers

Stack or stagger drawers to create more shelf space. When stacked on the right — drawers can fully extend with left refrigerator door closed.

Store-More® Door Bins

Our gallon-size bins are designed to store more, so you can easily fit a gallon of milk or two liter bottles.

Soft-Freeze Zone

A bin that remains 6-10 degrees warmer than the freezer interior for convenient storage of soft freeze items such as ice cream.

Cool Zone® Drawer

Extends completely and provides space to easily store anything from sheet cakes and large platters to snacks and juice boxes.

Flip-Up Shelves

Shelf flips up to allow room for taller items without having to move shelf position.

Counter-Depth Design

Saves over 4 inches of kitchen floor space without losing valuable shelf space.

Sliding SpillSafe® Shelves

Glass shelves slide out for easy access and are designed to keep spills contained, making cleanup a breeze.

SpaceWise® Adjustable Baskets with Color-Coordinated Clips

Heavy-duty, color-coordinated baskets allow consumers to organize items by category such as food group or purchase date.

PureAir Ultra® Air Filter

Effortlessly keep the air in your refrigerator fresh. Our air filters are 7 times more effective than baking soda.

Automatic Alerts

Alerts you if the door is left open, if the temperature rises or if there is a power outage — so you don't have to worry about your food going bad.

Smudge-Proof™ Stainless Steel

High-grade stainless steel coated with layers of polymers for a stainless steel finish that is both durable and resistant to fingerprints.

Custom-Flex™ Door Bins

The Custom-Flex™ Door Bin comes with 4 different bins and accessories so you can customize your door. It includes one large, two medium and one small bin.

Key Features

OrbitClean® Wash System

Provides 4 times more water coverage¹ for an excellent clean, along with AquaSurge™ technology that adjusts water pressure based on washing needs.

30-Minute Fast Wash Cycle

Washes a full load of dishes in just 30 minutes! Perfect solution for those times when you need clean dishes quickly, but have a million other things to do.

SpaceWise® Organization System

Our SpaceWise® Organization System features adjustable racks and the largest silverware basket² so there's a place for virtually anything.

SaharaDry™

There is no need to towel-dry before putting dishes away.

Effortless™ Dry System

Move your clean dishes straight to your cabinets with our Effortless™ Dry System. Towel drying becomes a thing of the past!

AquaSurge™ Technology

Allows the customer to adjust the water pressure 30% above normal for extra-dirty pots/pans and 30% below normal for gentle cleaning of fine china.

Quieter

Lower sound level — Frigidaire Gallery® dishwashers go as low as 49 dBA.

SpaceWise® Adjustable Upper Rack

Flexible racking system lets you adjust the top rack to fit taller items.

EvenDry™ Drying System

Dishes come out remarkably dry every time with fan-assisted EvenDry™.

Energy Saver Plus Cycle

Eco-friendly cycle uses less energy without compromising cleaning performance.

Floor Beam Light

Displays a green light on the floor to indicate when cycle is complete and dishes are clean.

Smudge-Proof™ Stainless Steel

High-grade stainless steel coated with layers of polymers for a stainless steel finish that is both durable and resistant to fingerprints.

FRIGIDAIRE® WARRANTY

One-Year Limited

Your appliance is covered by a one year limited warranty. For one year from your original date of purchase, Electrolux will pay all costs for repairing or replacing any parts of this appliance that prove to be defective in materials or workmanship when such appliance is installed, used, and maintained in accordance with the provided instructions.

Exclusions

This warranty does not cover the following:

- Products with original serial numbers that have been removed, altered or cannot be readily determined.
- Product that has been transferred from its original owner to another party or removed outside the USA or Canada.
- Rust on the interior or exterior of the unit.
- Products purchased "as-is" are not covered by this warranty.
- Food loss due to any refrigerator or freezer failures.
- Products used in a commercial setting.
- Service calls which do not involve malfunction or defects in materials or workmanship, or for appliances not in ordinary household use or used other than in accordance with the provided instructions.
- Service calls to correct the installation of your appliance or to instruct you how to use your appliance.
- Expenses for making the appliance accessible for servicing, such as removal of trim, cupboards, shelves, etc., which are not a part of the appliance when it is shipped from the factory.
- Service calls to repair or replace appliance light bulbs, air filters, water filters, other consumables, or knobs, handles, or other cosmetic parts.
- Surcharges including, but not limited to, any after hour, weekend, or holiday service calls, tolls, ferry trip charges, or mileage expense for service calls to remote areas, including the state of Alaska.
- Damages to the finish of appliance or home incurred during installation, including but not limited to floors, cabinets, walls, etc.
- Damages caused by: services performed by unauthorized service companies; use of parts other than genuine Electrolux parts or parts obtained from persons other than authorized service companies; or external causes such as abuse, misuse, inadequate power supply, accidents, fires, or acts of God.

Disclaimer of Implied Warranties; Limitation of Remedies

Customer's sole and exclusive remedy under this limited warranty shall be product repair as provided herein. Claims based on implied warranties, including warranties of merchantability or fitness for a particular purpose, are limited to one year or the shortest period allowed by law, but not less than one year. Electrolux shall not be liable for consequential or incidental damages such as property damage and incidental expenses resulting from any breach of this written limited warranty or any implied warranty. Some states and provinces do not allow the exclusion or limitation of incidental or consequential damages, or limitations on the duration of implied warranties, so these limitations or exclusions may not apply to you. This written warranty gives you specific legal rights. You may also have other rights that vary from state to state.

If You Need Service

Keep your receipt, delivery slip, or some other appropriate payment record to establish the warranty period should service be required. If service is performed, it is in your best interest to obtain and keep all receipts. Service under this warranty must be obtained by contacting Electrolux at the addresses or phone numbers on the back cover.

This warranty only applies in the USA and Canada. In the USA, your appliance is warranted by Electrolux Major Appliances North America, a division of Electrolux Home Products, Inc. In Canada, your appliance is warranted by Electrolux Canada Corp. Electrolux authorizes no person to change or add to any obligations under this warranty. Obligations for service and parts under this warranty must be performed by Electrolux or an authorized service company. Product features or specifications as described or illustrated are subject to change without notice.
